CORRECTIONS

In the paper "Initial Attempts at a Theoretical Calculation of the Conformation of Gramicidin-S," by Garret Vanderkooi, S. J. Leach, George Némethy, Roy A. Scott, and Harold A. Scheraga, Volume 5, September 1966, in footnote 3 on p 2996 the correct ADI document number is 9016.

In the paper by Herbert M. Kagan and Alton Meister, Volume 5, July 1966, p 2423, the title should be corrected to read "Activity of Glutamine Synthetase toward *threo*- γ -Methyl-L-glutamic Acid and the Isomers of γ -Hydroxyglutamic Acid."

In the paper "Studies on Verdohemochrome," by Ephraim Y. Levin, Volume 5, September 1966, p 2845, all ϵ values should be reported as $\epsilon \times 10^{-3}$.
