"*In Vitro* Dechlorination of a 4,6-Dichloro- $\Delta^{4,6}$ -keto Steroid," by D. E. Maynard, O. Gurny, M. Carson, R. A. LeMahieu, M. A. Schwartz, M. K. Taylor, and R. W. Kierstead, Volume 10, Number 2, January 19, 1971, page 355.

On page 359, the intermediate enclosed in brackets, numbered IX, should be numbered XI.

"Allosteric Interactions of Yeast Pyruvate Kinase as a Function of pH," by H.-J. Wieker and B. Hess, Volume 10, Number 7, March 10, 1971, page 1243.

On page 1247, eq A1 should read

$$v = \frac{V_{\max}}{1 + \frac{K}{(S)^{n_H}}}$$

instead of

$$v = \frac{V_{\max}}{1 + \frac{K}{(S)}}$$

"Synthesis and Characterization of 1-*O*-Alkyldihydroxyacetone Phosphates and Derivatives," by Claude Piantadosi, Khalid S. Ishaq, R. L. Wykle, and Fred Snyder, Volume 10, Number 8, April 13, 1971, page 1417.

This paper describes the synthesis of *O*-alkyldihydroxyacetone-P from 1-*O*-hexadecylglycerol. This synthesis is an application of the methods used by Hartman for the preparation of haloacetol phosphates (Hartman, F. C. (1970), *Biochemistry* 9, 1776) and by Ballou and Fischer for the synthesis of dihydroxyacetone-P (Ballou, C. E., and Fischer, H. O. L. (1956), *J. Amer. Chem. Soc.* 78, 1659).
