

## CORRECTION

DNA Recognition by the Helix–Turn–Helix Motif: Investigation by Laser Raman Spectroscopy of the Phage  $\lambda$  Repressor and Its Interaction with Operator Sites  $O_L1$  and  $O_R3$ , by James M. Benevides, Michael A. Weiss, and George J. Thomas, Jr.\*, Volume 30, Number 24, June 18, 1991, pages 5955–5963.

Due to a production error, three figures have been juxtaposed as follows: The illustration accompanying the Figure 3 legend should actually accompany the Figure 4 legend. The illustration accompanying the Figure 4 legend should actually accompany the Figure 6 legend. The illustration accompanying the Figure 6 legend should actually accompany the Figure 3 legend. Please note that the legends themselves are correct and in their proper places in the text.
