Oxygen-18 Kinetic Isotope Effects in the Dopamine  $\beta$ -Monooxygenase Reaction: Evidence for a New Chemical Mechanism in Non-Heme Metallomonooxygenases, by Gaochao Tian, Joseph A. Berry, and Judith P. Klinman, Volume 33, Number 1, January 11, 1994, pages 226–234.

Page 228. Equation 5 should read  $R/R_0 = (1 - f)^{([1/18(V/K)] - 1)}$ .
