

Corrections

Identification of an Ordered Compact Structure within the Recombinant Bovine Fibrinogen α C-Domain Fragment by NMR, by Robert A. Burton, Galina Tsurupa, Leonid Medved,* and Nico Tjandra*, Volume 45, Number 7, February 21, 2006, pages 2257–2266.

The ordinate labels for panel C of Figure 4 were incorrect. The corrected figure appears below.

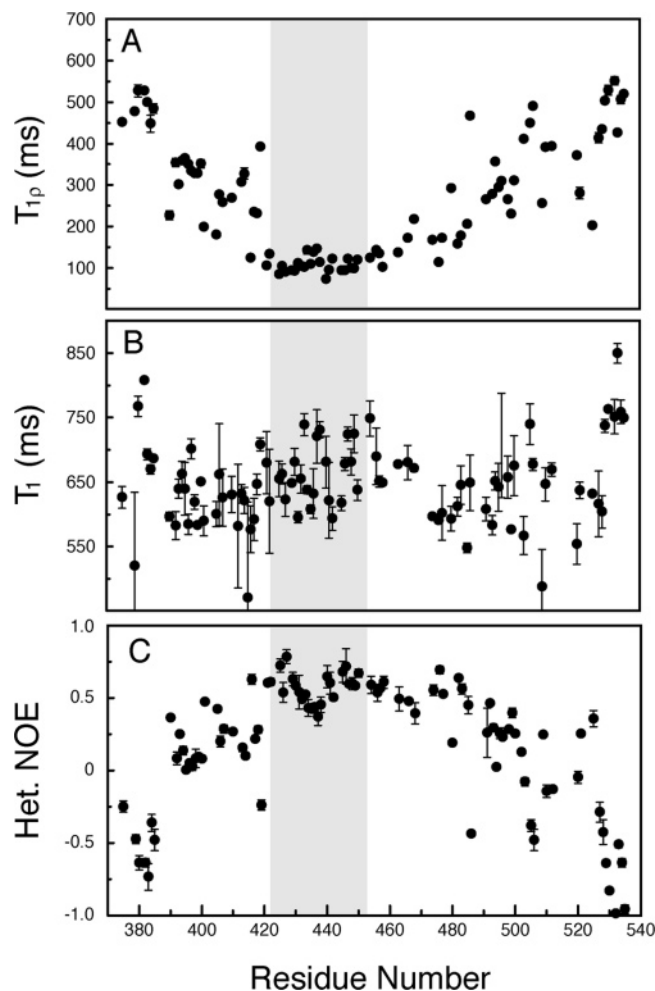

FIGURE 4: $T_{1\rho}$ (A), T_1 (B), and NOE (C) relaxation data. The shaded area indicates the region of the hairpin. Decreased flexibility is observed in the shaded region as well as the ~ 30 residues COOH-terminal to the hairpin.
