A Membrane Protein, EzrA, Regulates Assembly Dynamics of FtsZ by Interacting with the C-Terminal Tail of FtsZ, by Jay Kumar Singh, Ravindra D. Makde, Vinay Kumar, and Dulal Panda,\* Volume 46, Number 38, September 25, 2007, pages 11013–11022.

While the sequence of the 17-residue peptide (CTP17) is correct, it extended from residue 366 to 382 rather than from residue 365 to 382.

Residence Time of Receptor–Ligand Complexes and Its Effect on Biological Function, by Peter J. Tummino\* and Robert A. Copeland, Volume 47, Number 20, May 20, 2008, pages 5481–5492.

Page 5489. In the legend of Figure 2 and in the text, the residence time quoted as 116 days should instead read 11.6 days. The authors apologize for this typographical error. This error does not, however, affect the data simulations illustrated in Figure 2 or the corresponding discussion in the text.
