

Correction to CHOBIMALT: A Cholesterol-Based Detergent

Stanley C. Howell, Niall J. Fraser, Ritesh Mittal, Lijun Huang, Benjamin Travis, Richard M. Breyer, and Charles R. Sanders*

Biochemistry 2010, 49 (44), 9572–9583. DOI: 10.1021/bi101334j

When this paper was submitted, reviewed, and published, the corresponding author was unaware that early in the project Dr. Niall Fraser of the University of Glasgow suggested to the Anatrace-Affymetrix co-authors how glycosides might be added to cholesterol to make it more water-soluble. Dr. Fraser also provided preliminary solubility data for some of the cholesterol derivatives to Anatrace-Affymetrix. In recognition of those contributions, Dr. Fraser should be listed as co-author of this paper. Dr. Fraser's affiliation is Institute of Cardiovascular and Medical Sciences, College of Medical and Veterinary Sciences, University of Glasgow, Glasgow G12 8QQ, U.K.
