

AUTHOR INDEX

- ABRAHAM, A. AND B. K. BACHHAWAT
(Light and streptomycin on the incorporation of sulfate into sulfolipids in *Euglena gracilis*) 104
- ABRAHAM, S., J. KATZ, J. BARTLEY AND I. L. CHAIKOFF
(Origin of hydrogen in fatty acids formed by lactating rat mammary gland) 690
- ABRAHAM, S., K. J. MATTHES, W. BORTZ AND I. L. CHAIKOFF
(Role of microsomes in fatty acid synthesis from acetate by cell-free preparations of rat liver and mammary gland) 357
- ABRAHAM, S., see CADY, P.
- ABRAHAM, S., see LORCH, E.
- ABRAHAM, S., see MATTHES, K. J.
- ADAMS, E. P. AND T. J. HEATH
(Phospholipids of ruminant bile) 688
- ADLERCREUTZ, H., see LUUKKAINEN, T.
- AILHAUD, G., D. SAMUEL ET P. DESNUELLE
(Isomérisation de position des glycérides partiels durant la biosynthèse des triglycérides dans la muqueuse intestinale) 610
- ASHWORTH, L. A. E. AND C. GREEN
(Uptake of lipids by human α -lipoprotein) 68
- ASSELIN, J., see LANÉELLE, M.-A.
- AUSTIN, J. H., see BISCHEL, M. D.
- AZARNOFF, D. L. AND D. R. TUCKER
(Separation of nuclear saturated from unsaturated sterols) 589
- BACHHAWAT, B. K., see ABRAHAM, A.
- BADER, H.
(Distribution of inorganic phosphate in a biphasic system consisting of chloroform-methanol-water) 87
- BADMAN, H. G., see HEALD, P. J.
- BARNABEI, O. AND A. NINNI
(Possible role of a placental lipid fraction in the transport of [$1-^{14}\text{C}$]-glycine from maternal to fetal blood) 586
- BARTLEY, J., see ABRAHAM, S.
- BENNETT, J. R.
(Esterification of cholesterol by rat liver preparations) 465
- BHADURI, A. AND P. A. SRERE
(Incorporation of citrate carbon into fatty acids) 221
- BIEZENSKI, J. J., T. H. SPAET AND A. L. GORDON
(Phospholipids patterns in subcellular fractions of adult- and immature-rat organs) 75
- BISCHEL, M. D. AND J. H. AUSTIN
(Modified benzidine method for chromatographic detection of sphingolipids and acid polysaccharides) 598
- BLOOM, B., see FOSTER, D. W.
- BOOTH, D. A.
(Lipophilic sialic acid derivatives in human erythrocytes) 486
- BOOIJ, H. L., see KOKKE, R.
- BORDET, C. AND G. MICHEL
(Acides gras isolés de plusieurs espèces de *Nocardia*) 613
- BORGSTRÖM, B., see HOFMANN, A. F.
- BORTZ, W., see ABRAHAM, S.
- BOVÉ, J. M., see STUMPF, P. K.
- BOWYER, D. E., W. M. F. LEAT, A. N. HOWARD AND G. A. GRESHAM
(Determination of fatty acid composition of serum lipids separated by thin-layer chromatography; and a comparison with column chromatography) 423
- BRADY, R. O.
(Inhibitors of fatty acid biosynthesis. III.) 467
- BRENNER, R. R., see DE TOMÁS, M. E.
- BROT, N., see LOSSOW, W. J.
- BROWN, J. L. AND J. M. JOHNSTON
(Distribution of fatty acids in triglycerides synthesized from monoglycerides) 603
- CADY, P., S. ABRAHAM AND I. L. CHAIKOFF
(Relative incorporation of the various propionate carbons into fatty acids by lactating rat mammary gland) 118
- CALVO, S. AND SANTIAGO, E.
- CARR, N. G., H. HAERLE AND J. J. EILER
(Phospholipid and plasmalogen synthesis in rat-brain homogenates) 205
- CATRAVAS, G. N.
(Extraction and purification of lipogenin) 331
- CHAIKOFF, I. L., see ABRAHAM, S.
- CHAIKOFF, I. L., see CADY, P.
- CHAIKOFF, I. L., see LORCH, E.
- CHAIKOFF, I. L., see LOSSOW, W. J.
- CHAIKOFF, I. L., see MATTHES, K. J.
- CHARGAFF, E., see GARRIGAN, O. W.
- CHENIAE, G. M.
(Lipid metabolism of photosynthetic tissues. I.) 504
- CLARK, B. AND G. HÜBSCHER
(Monoglyceride transacylase of rat intestinal mucosa) 43
- CLÉMENT, G., see RAULIN, J.
- COOK, W. H., see RADOMSKI, M. W.

- CYR, R., see TATTRIE, N. H.
 DAVID, J. S., see MURTHY, S. K.
 DAWSON, R. M. C.
 (Enzymatic hydrolysis of ultrasonically irradiated lecithin by phospholipase A) 697
 DE GIER, J., see MULDER, E.
 DE HAAS, G. H. AND L. L. M. VAN DEENEN
 (Stereospecific action of phospholipase A on β -lecithins) 469
 DE HAAS, G. H., see VAN DEENEN, L. L. M.
 DÉLAUMENY, J.-M., see GASTAMBIDE-ODIER, M.
 DEMARTEAU-GINSBURG, H. ET E. LEDERER
 (Structure chimique du mycoside) 442
 DESNUELLE, P., see AILHAUD, G.
 DE TOMÁS, M. E., R. R. BRENNER AND R. O. PELUFFO
 (Position of eicosatrienoic acid in the phosphatidylcholine and phosphatidylethanolamine from essential fatty acid deficient rats) 472
 DE VRIES, A., see KLIBANSKY, C.
 DICKINSON, J. E., see KLOS, R. A.
 DJIBELIAN, L. G., see KERR, S. E.
 DOBIÁSOVÁ, M., P. HAHN AND O. KOLDOVSKÝ
 (Changes in the occurrence of different lipid classes during postnatal development of the rat) 713
 DOIZAKI, W. M. AND L. ZIEVE
 (Trypsin to eliminate residual snake venom phospholipase A activity in lysolecithin prepared from ovolecithin) 700
 EILER, J. J., see CARR, N. G.
 ELSBACH, P.
 (Incorporation of [14 C]linoleic acid into lipids of polymorphonuclear leukocytes) 157
 FEIST, E., see FELLER, D. D.
 FELLER, D. D. AND E. FEIST
 (Conversion of aromatic amino acids by adipose tissue) 85
 FINEAN, J. B., see GURR, M. I.
 FLEISCHER, S., see GREEN, D. E.
 FOLCH-PI, J., see PRITCHARD, E. T.
 FOSTER, D. W. AND B. BLOOM
 (Reciprocal relationship between fatty acids and cholesterol biosynthesis) 341
 GALLIARD, T. AND J. N. HAWTHORNE
 (Rapid labelling diphosphoinositide in liver mitochondria) 479
 GANGULY, J., see MURTHY, S. K.
 GARRIGAN, O. W. AND E. CHARGAFF
 (Mucolipids and the cerebroside of chicken brain during embryonic development) 452
 GASTAMBIDE-ODIER, M., J.-M. DÉLAUMENY ET E. LEDERER
 (Biosynthèse de l'acide C_{32} -mycosérique: Incorporation d'acide propionique) 670
 GATT, S.
 (Metabolism of [14 C]lignoceric acid in the rat) 370
 GLOMSET, J. A.
 (Mechanism of the plasma cholesterol esterification reaction) 389
 GLUKHODED, I. S., see KOCHETKOV, N. K.
 GOFFEAU, A., see STUMPF, P. K.
 GORDON, A. L., see BIEZENSKI, J. J.
 GORIN, E. AND E. SHAFRIR
 (Turnover of adipose tissue triglycerides measured by rates of synthesis and release of triglyceride-glycerol) 109
 GREEN, C., see ASHWORTH, L. A. E.
 GREEN, D. E. AND S. FLEISCHER
 (Lipids in mitochondrial electron transfer and oxidative phosphorylation) 554
 GRESHAM, G. A., see BOWYER, D. E.
 GURR, M. I., J. B. FINEAN AND J. N. HAWTHORNE
 (Phospholipids of liver cell fractions. I.) 406
 HAERLE, H., see CARR, N. G.
 HAFKENSCHIED, J. M., J. LINKS AND E. C. SLATER
 (Lipid components of the respiratory chain) 202
 HAHN, P., see DOBIÁSOVÁ, M.
 HAJRA, A. K. AND N. S. RADIN
 (Biosynthesis of odd- and even cerebroside fatty acids: evidence for two routes) 97
 HAMILTON, R. J., W. J. A. VANDENHEUVEL AND E. C. HORNING
 (Extension of the "steroid number" concept to relationships between the structure of steroids and their gas chromatographic retention times observed with selective phases) 679
 HAUSER, G.
 (Formation of free and lipid meso-inositol in the intact rat) 278
 HAWTHORNE, J. N., see GALLIARD, T.
 HAWTHORNE, J. N., see GURR, M. I.
 HEALD, P. J. AND H. G. BADMAN
 (Lipid metabolism and the laying hen. I.) 381
 HEATH, T. J., see ADAMS, E. P.
 HENIG, S., see KLIBANSKY, C.
 HOFMANN, A. F.
 (Behavior and solubility of monoglycerides in dilute, micellar bile-salt solution) 306
 HOFMANN, A. F. AND B. BORGSTRÖM
 (Hydrolysis of long-chain monoglycerides in micellar solution by pancreatic lipase) 317
 HOKIN, L. E., see SANTIAGO, E.
 HOLDSWORTH, E. S. AND E. NEVILLE
 (Citrate on the metabolism of acetate by sheep tissues *in vitro*) 338
 HOOGHWINKEL, G. J. M., see KOKKE, R.
 HORNING, E. C., see HAMILTON, R. J.
 HOUTSMULLER, U. M. T. AND L. L. M. VAN DEENEN
 (Bacterial phospholipid as an *O*-ornithine ester of phosphatidyl glycerol) 211

- HOWARD, A. N., see BOWYER, D. E.
HÜBSCHER, G., see CLARK, B.
JACOB, M. I.
(Fatty acid synthesis in cell-free preparation of human adipose tissue) . . . 231
JAMES, A. T.
(Biosynthesis of long-chain saturated and unsaturated fatty acids in isolated plant leaves) . . . 9
JAMES, A. T., see STUMPF, P. K.
JATZKEWITZ, H. AND K. SANDHOFF
(On a biochemically special form of infantile amaurotic idiocy) . . . 354
JOHNSON, R. M. AND L. KERUR
(Incorporation *in vitro* of [14 C]palmitate into glycerolipids by various cell components) . . . 152
JOHNSON, G. A. AND R. H. MCCLUER
(Isolation and analysis of mono-, di-, and trisialogangliosides). . . . 487
JOHNSTON, J. M., see BROWN, J. L.
KANESHIRO, T. AND A. G. MARR
(Hydroxy fatty acids of *Azotobacter agilis*) . . . 271
KANESHIRO, T., see LAW, J. H.
KATES, M., P. S. SASTRY AND L. S. YENGOYAN
(Isolation and characterization of a diether analog of phosphatidyl glycerophosphate from *Halobacterium cutirubrum*). . . . 705
KATES, M., see SASTRY, P. S.
KATZ, J., see ABRAHAM, S.
KAY, E. R. M., see MARINETTI, G. V.
KERÄNEN, A. J. A., see SUOMALAINEN, H.
KERR, S. E., G. A. KFOURY AND L. G. DJIBELIAN
(Nature of dialyzable phosphate associated with the di- and triphosphoinositides of brain phospholipids). . . 474
KERR, S. E. AND W. W. C. READ
(Fatty acid components of polyphosphoinositide prepared from calf brain) 476
KERUR, L., see JOHNSON, R. M.
KFOURY, G. A., see KERR, S. E.
KLEIN, H. P.
(Stimulation of lipid synthesis by yeast ribosomal preparations). . . . 606
KLIBANSKY, C. AND A. DE VRIES
(Quantitative study of erythrocyte lysolecithin interaction). . . . 176
KLIBANSKY, C., S. HENIG, J. SHILOAH AND A. DE VRIES
(Lipoprotein-bound lecithin-lysolecithin conversion induced by snake-venom phosphatidase A) . . . 591
KLOS, R. A. AND J. E. DICKINSON
(Preparation of malonyl-coenzyme A by thioester exchange) . . . 90
KOCHEKOV, N. K., I. G. ZHUKOVA AND I. S. GLUKHODED
(Sphingoplasmalogens—new type of sphingolipids) . . . 716
KOKKE, R., G. J. M. HOOGHINKEL, H. L. BOOIJ, H. VAN DEN BOSCH, L. ZELLES, E. MULDER AND L. L. M. VAN DEENEN
(Metabolism of lysolecithin and lecithin in a yeast supernatant) . . . 351
KOLDOVSKÝ, O., see DOBIÁSOVÁ, M.
KORCHAK, H. M. AND E. J. MASORO
(Inhibitory mechanisms in the control of lipogenesis) . . . 647
KUMAR, S., see SINGH, V. N.
