

## AUTHOR INDEX

- Amesz, J., Van den Bos, P. and Dirks, M.P.  
Oxidation-reduction potentials of photo-synthetic intermediates (197) 324
- Amesz, J., see Faludi-Daniel, Á. (197) 60
- Arnon, D. I., see Winter, H. C. (197) 170
- Arnon, D. I., see Yoch, D. C. (197) 180
- Augustyn, J. M., Parsa, B. and Elliott, W. B.  
Structural and respiratory effects of Agkistrodon piscivorus phospholipase A on rat liver mitochondria (197) 185
- Azerad, R., see Maroc, J. (197) 87
- Azzi, A., see Galeotti, T. (197) 11
- Bäckström, D., Norling, B., Ehrenberg, A. and Ernster, L.  
Electron spin resonance measurements on ubiquinone-depleted and ubiquinone-replenished submitochondrial particles (197) 108
- Barber, J. and Kraan, G.P.B.  
Salt-induced light emission from chloroplasts (197) 49
- Bassham, J. A., see El-Badry, A.M. (197) 308
- Bishop, N. I., see Mantai, K. E. (197) 257
- Borchert, M. T. and Wessels, J. S. C.  
Combined preparation of ferredoxin, ferredoxin-NADP<sup>+</sup> reductase and plastocyanin from spinach leaves (197) 78
- Chance, B., see Galeotti, T. (197) 11
- Cheah, K. S.  
The membrane-bound carbon monoxide-reactive hemoproteins in the extreme halophiles (197) 84
- Cheniae, G. M. and Martin, I. F.  
Sites of function of manganese within photosystem II. Roles in oxygen evolution and system II (197) 219
- Chepelinsky, A. B. and Rodríguez de Lores Arnaiz, G.  
Levels of cytochromes in rat-brain mitochondria during post-natal development (197) 321
- Cutler, M. E., see Lemberg, M. R. (197) 1
- Czech, M. P., see Fain, J. N. (197) 40
- Daniel, R. M., see Yates, M. G. (197) 161
- Davis, E. J., see Lumeng, L. (197) 93
- De Jong, J. W. and Hülsmann, W. C.  
A comparative study of palmitoyl-CoA synthetase activity in rat-liver, heart and gut mitochondrial and microsomal preparations (197) 127
- Detwiler, T. C. and Zivkovic, R. V.  
Control of energy metabolism in platelets. A comparison of aerobic and anaerobic metabolism in washed rat platelets (197) 117
- Dirks, M. P., see Amesz, J. (197) 324
- Ehrenberg, A., see Bäckström, D. (197) 108
- Eilermann, L. J. M., Pandit-Hovenkamp H. G. and Kolk, A. H. J.  
Oxidative phosphorylation in *Azotobacter vinelandii* particles. Phosphorylation sites and respiratory control (197) 25
- El-Badry, A. M. and Bassham, J. A.  
Chloroplast inorganic pyrophosphatase (197) 308
- Elliott, W. B., see Augustyn, J. M. (197) 185
- Ernster, L., see Bäckström, D. (197) 108
- Fain, J. N., Loken, S. C. and Czech, M. P.  
Oligomycin effects on lipolysis and the oxidative metabolism of brown fat cells (197) 40
- Faludi-Daniel, Á., Amesz, J. and Nagy, A. H.  
P700 oxidation and energy transfer in normal maize and in carotenoid-deficient mutants (197) 60
- Fee, J. A., Malmström, B. G. and Vänngård, T.  
The reduction of fungal laccase at high pH (197) 136
- Fowler, C. F. and Sybesma, C.  
Light- and chemically induced oxidation-reduction reactions in chromatophore fractions of *Rhodospirillum rubrum* (197) 276
- Galeotti, T., Azzi, A. and Chance, B.  
The reoxidation of cytoplasmic reducing equivalents in Ehrlich ascites tumor cells (197) 11
- Goldman, D. S., see Kearney, E. B. (197) 197
- Green, R. C. and O'Brien, P. J.  
The cellular localisation of glutathione peroxidase and its release from mitochondria during swelling (197) 31
- Guerrieri, F., see Papa, S. (197) 100
- Hauska, G. A., McCarty, R. E. and Racker, E.  
The site of phosphorylation associated with photosystem I (197) 206
- Haynes, B., see Mackler, B. (197) 317
- Honeycutt, R. C. and Krogmann, D. W.  
A light-dependent oxygen-reducing system from *Anabaena variabilis* (197) 267
- Hülsmann, W. C., see De Jong, J. W. (197) 127

## SUBJECT INDEX

- Acetylene reduction  
   — with physiological electron donors by extracts and particulate fractions from nitrogen-fixing *Azotobacter chroococcum* (Yates, Daniel) (197) 161  
*Anabaena variabilis*  
   Properties of — cells grown in the presence of diphenylamine (Ogawa et al.) (197) 302  
 Anion transport  
   Effect of uncouplers on the — in rat-liver mitochondria (Lofrumento et al.) (197) 104  
 ATP levels  
   Measurements of — of intact *Azotobacter vinelandii* under different conditions (Knowles, Smith) (197) 152  
*Azotobacter chroococcum*  
   Acetylene reduction with physiological electron donors by extracts and particulate fractions from nitrogen-fixing — (Yates, Daniel) (197) 161  
*Azotobacter vinelandii*  
   Measurements of ATP levels of intact — under different conditions (Knowles, Smith) (197) 152  
 Carotenoid absorption band shift  
   Sizes of the photosynthetic energy-transducing units in purple bacteria determined by single flash yield, titration by antibiotics and — (Nishimura) (197) 69  
 Carotenoid-deficient mutants  
   P700 oxidation and energy transfer in normal maize and in — (Faludi-Daniel et al.) (197) 60  
 Chloramphenicol  
   Electron transport systems of heart muscle and yeast: Site of inhibition by — (Mackler, Haynes) (197) 317  
 Chlorophyll a  
   — forms in partially purified photosynthetic reaction centers (Ogawa, Vernon) (197) 332  
 Chlorophyll a fluorescence  
   Effects of divalent metal ions on — in isolated spinach chloroplasts (Murata et al.) (197) 250  
 Chloroplasts  
   Effects of divalent metal ions on chlorophyll a fluorescence in isolated spinach — (Murata et al.) (197) 250  
 Chloroplast  
   — inorganic pyrophosphatase (El-Badry, Bassham) (197) 308  
 Chloroplasts  
   Photoreduction of 2,6-dichlorophenolindophenol by — with exogenous  $Mn^{2+}$  as electron donor (Izawa) (197) 328  
 Chloroplasts  
   Salt-induced light emission from — (Barber, Kraan) (197) 49  
 Chromatium  
   Nitrogen fixation system of photosynthetic bacteria. I. Preparation and properties of a cell-free extract from — (Winter, Arnon) (197) 170  
 Chromatophore  
   Light- and chemically induced oxidation-reduction reactions in — fractions of *Rhodospirillum rubrum* (Fowler, Sybesma) (197) 276  
 Cytochromes  
   Levels of — in rat-brain mitochondria during post-natal development (Chepelinsky, Rodríguez de Lores Arnaiz) (197) 321  
 Cytochromes  
   Occurrence of both a-type and o-type — as the functional terminal oxidases in *Rhodopseudomonas spheroides* (Sasaki et al.) (197) 284  
 Cytochrome c oxidase  
   Anaerobic interaction of ferrocyclochrome c with the "ferric" and "oxygenated" forms of purified —. XVI. Cytochrome oxidase and its derivatives (Lemberg, Cutler) (197) 1  
 Cytoplasmic membrane  
   Further studies on the NADH oxidase of the — of *Mycobacterium tuberculosis*
