VOLUME CODING FOR BBA-BIOENERGETICS

BBA is published according to a volume-numbering scheme that embraces all sections of the journal: for 1974 the scheme (covering the volumes 332-374) is to be found on the inside cover of this issue. The seven individual sections are distinguished by a colour code. In addition to the colour code, each section is given its own sequential volume number. The system runs parallel to the overall BBA scheme: for the BIOENERGETICS section the correspondence is indicated in the Table below. This issue is therefore BIOCHIMICA ET BIOPHYSICA ACTA, Vol. 357/3 or BBA-BIOENERGETICS B26/3.
