

AUTHOR INDEX

- Akera, T., see Gubitz, R. H. (459) 263
- Albracht, S. P. J., Dooijewaard, G., Leeuwerik, F. J. and van Swol, B.
EPR signals of NADH:Q oxidoreductase. Shape and intensity (459) 300
- Andreo, C. S., see Vallejos, R. H. (459) 20
- Arata, H., Takamiya, K.-I. and Nishimura, M.
Delayed fluorescence from bacteriochlorophyll in *Chromatium vinosum* chromatophores (459) 36
- Azzone, G. F., Bragadin, M., Pozzan, T. and Dell'Antone, P.
Protein electrochemical potential in steady state rat liver mitochondria (459) 96
- Bakkenist, A. R. J., see Nieuwenhuis, F. J. R. M. (459) 596
- Barber, J., see Searle, G. F. W. (459) 390
- Bar-Nun, S., Schantz, R. and Ohad, I.
Appearance and composition of chlorophyll-protein complexes I and II during chloroplast membrane biogenesis in *Chlamydomonas reinhardtii* y-l (459) 451
- Beltrame, M., see Gutweniger, H. (459) 216
- Berden, J. A., see van Ark, G. (459) 119
- Biggins, J., see Maxwell, P. C. (459) 442
- Blankenship, R. E., McGuire, A. and Sauer, K.
Rise time of EPR II_{r} in chloroplast Photosystem II (459) 617
- Borejdo, J. and Putnam, S.
Polarization of fluorescence from single skinned glycerinated rabbit psoas fibers in rigor and relaxation (459) 578
- Braams, R., see Butler, J. (459) 207
- Bragadin, M., see Azzone, G. F. (459) 96
- Breton, J.
Dichroism of transient absorbance changes in the red spectral region using oriented chloroplasts. II. P-700 absorbance changes (459) 66
- Breton, J. and Paillotin, G.
Dichroism of transient absorbance changes in the red spectral region using oriented chloroplasts. I. Field indicating absorbance changes (459) 58
- Briquet, M.
The transport of pyruvate and lactate in yeast (459) 290
- Brody, T. M., see Gubitz, R. H. (459) 263
- Bruschi, M., see Moura, J. J. G. (459) 278
- Butler, J., de Kok, J., de Wille, J. R., Koppenol, W. H. and Braams, R.
The mechanism of the reaction of hydrated electrons with ferrocycytochrome c (459) 207
- Caplan, S. R., see Garty, H. (459) 532
- Clayton, R. K., see Heathcote, P. (459) 506
- Colonna, R., see Gutweniger, H. (459) 216
- Clark Myron, J., see Knaff, D. B. (459) 402
- Crofts, A. R., see Holmes, N. G. (459) 492
- De Kok, J., see Butler, J. (459) 207
- Dell'Antone, P., see Azzone, G. F. (459) 96
- Del Valle-Tascon, S., Gimenez-Gallego, G. and Ramirez, J. M.
Photooxidase system of *Rhodospirillum rubrum*. I. Photooxidations catalyzed by chromatophores isolated from a mutant deficient in photooxidase activity (459) 76
- Deslosme, R., see Joliot, P. (459) 47
- De Wille, J. R., see Butler, J. (459) 207
- Dilley, R. A., see Smith, D. D. (459) 468
- Dooijewaard, G., see Albracht, S. P. J. (459) 300
- Durbin, R. D., see Steele, J. A. (459) 347
- Dutton, P. L., see Prince, R. C. (459) 573
- Duysens, N. M., see van Best, J. A. (459) 187
- Engel, W. D., see Riccio, P. (459) 250
- Etienne, A.-L., see Maison-Peteri, B. (459) 10
- Fowler, C. F.
Proton translocation in chloroplasts and its relationship to electron transport between the photosystems (459) 351
- Fujita, Y., see Mimuro, M. (459) 376
- Garty, H. and Caplan, S. R.
Light-dependent rubidium transport in intact *Halobacterium halobium* cells (459) 532
- Gimenez-Gallego, G., see Del Valle-Tascon, S. (459) 76
- Grebanier, A. E. and Jagendorf, A. T.
Lack of site-specificity of spinach chloroplast coupling factor 1 (459) 1
- Gubitz, R. H., Akera, T. and Brody, T. M.
Control of brain slice respiration by (Na^+ + K^+)-activated adenosine triphosphatase and the effects of enzyme inhibitors (459) 263
- Gutweniger, H., Massari, S., Beltrame, M. and Colonna, R.
Cation transport in cytochrome-oxidase reconstituted vesicles (459) 216
- Haehnel, W.
Electron transport between plastoquinone and chlorophyll a_1 in chloroplasts. II. Reaction kinetics and the function of plastocyanin in situ (459) 418

- Harris, D. A., John, P. and Radda, G. K.
Tightly bound nucleotides of the energy-transducing ATPase and their role in oxidative phosphorylation. I. The *Paracoccus denitrificans* system (459) 546
- Harris, D. A., Radda, G. K. and Slater, E. C.
Tightly bound nucleotides of the energy transducing ATPase, and their role in oxidative phosphorylation. II. The beef heart mitochondrial system (459) 560
- Harris, L., see Searle, G. F. W. (459) 390
- Hasan, S. M. and Rosen, B. P.
Energy transduction in *Escherichia coli*. The effect of chaotropic agents on energy coupling in everted membrane vesicles from aerobic and anaerobic cultures (459) 225
- Heathcote, P. and Clayton, R. K.
Reconstituted energy transfer from antenna pigment-protein to reaction centres isolated from *Rhodospseudomonas sphaeroides* (459) 506
- Hessenberg, B., see Ried, A. (459) 175
- Holmes, N. G. and Crofts, A. R.
The carotenoid shift in *Rhodospseudomonas sphaeroides*. The flash induced change (459) 492
- Huang, C.-S., Kopacz, S. J. and Lee, C.-P.
Energy-linked protonation of quinacrine in beef heart submitochondrial membranes (459) 241
- Inoue, Y.
Nitrite reductase system involved in the terminal oxidation of the *Streptomyces griseus* respiratory particle (459) 88
- Jacobs, J. M., see Jacobs, N. J. (459) 141
- Jacobs, N. J. and Jacobs, J. M.
Evidence for involvement of the electron transport system at a late step of anaerobic microbial haem synthesis (459) 141
- Jagendorf, A. T., see Grebanier, A. E. (459) 1
- John, P., see Harris, D. A. (459) 546
- Johnson, G., see Smith, D. D. (459) 468
- Joliot, A., see Joliot, P. (459) 47
- Joliot, P., Deslosme, R. and Joliot, A.
515 nm absorption changes in *Chlorella* at short times (4–100 μ s) after a flash (459) 47
- Kaiser, W. and Urbach, W.
The effect of dihydroxyacetone phosphate and 3-phosphoglycerate on O_2 evolution and on the levels of ATP, ADP and P_i in isolated intact chloroplasts (459) 337
