

AUTHOR INDEX

- Amesz, J., see Romijn, J. C. (461) 327
- ap Rees, T. Fuller, W. A. and Wright, B. W.
Measurements of glycolytic intermediates during the onset of thermogenesis in the spadix of *Arum maculatum* (461) 274
- Arntzen, C. J., see Briantais, J.-M. (461) 61
- Barber, J., see Nakatani, H. Y. (461) 510
- Barber, J., see Searle, G. F. W. (461) 413
- Binet, A. and Volfin, P.
Effect of an anti-tumor platinum complex, Pt(II)diaminotoluene, on mitochondrial membrane properties (461) 182
- Blankenship, R. E., Schaafsma, T. J. and Parson, W. W.
Magnetic field effects on radical pair intermediates in bacterial photosynthesis (461) 297
- Bonnet, F., Vernotte, C., Briantais, J.-M. and Etienne, A.-L.
Kinetics of chlorophyll fluorescence at 77 K in *Chlorella* and chloroplasts. Effects of CCCP, ferricyanide, DCMU (461) 151
- Borisov, A. Yu., Fetisova, Z. G. and Godik, V. I.
Energy transfer in photoactive complexes obtained from green bacterium *Chlorobium limicola* (461) 500
- Boucher, F., van der Rest, M. and Gingras, G.
Structure and function of carotenoids in the photoreaction center from *Rhodospirillum rubrum* (461) 339
- Bozal, J., see Lluis, C. (461) 209
- Breton, J., see Gagliano, A. G. (461) 460
- Breton, J., see Geacintov, N. E. (461) 306
- Briantais, J.-M., Vernotte, C., Lavergne, J. and Arntzen, C. J.
Identification of S₂ as the sensitive state to alkaline photoinactivation of Photosystem II in chloroplasts (461) 61
- Briantais, J.-M., see Bonnet, F. (461) 151
- Buchwald, H. E., see Renger, G. (461) 392
- Campillo, A. J., see Geacintov, N. E. (461) 306
- Chon, C. J., see Portis, Jr., A. R. (461) 313
- Clayton, R. K., see Heathcote, P. (461) 358
- Clayton, R. K., see Vermeglio, A. (461) 159
- Crabbé, J., see Noé, G. (461) 231
- Crofts, A. R., see Holmes, N. G. (461) 141
- Dilley, R. A., see O'Keefe, D. P. (461) 48
- Duysens, L. N. M., see van Grondelle, R. (461) 188
- Ellar, D. J., see Hogarth, C. (461) 109
- Etienne, A.-L., see Bonnet, F. (461) 151
- Faludi-Daniel, A., see Roux, E. (461) 25
- Fetisova, Z. G., see Borisov, A. Yu. (461) 500
- Fork, D. C., see Murata, N. (461) 365
- Fuller, W. A., see ap Rees, T. (461) 274
- Gagliano, A. G., Geacintov, N. E. and Breton, J.
Orientation and linear dichroism of chloroplasts and sub-chloroplast fragments oriented in an electric field (461) 460
- Geacintov, N. E., Breton, J., Swenberg, C., Campillo, A. J., Hyer, R. C. and Shapiro, S. L.
Picosecond and microsecond pulse laser studies of exciton quenching and exciton distribution in spinach chloroplasts at low temperatures (461) 306
- Geacintov, N. E., see Gagliano, A. G. (461) 460
- Giersch, C., see Tillberg, J.-E. (461) 31
- Gingras, G., see Boucher, F. (461) 339
- Gläser, M., see Renger, G. (461) 392
- Godik, V. I., see Borisov, A. Yu. (461) 500
- Gómez Puyou, A., see Tuena de Gómez Puyou, M. (461) 101
- Govindjee, see Jursinic, P. (461) 253
- Gräber, P., Schlodder, E. and Witt, H. T.
Conformational change of the chloroplast ATPase induced by a transmembrane electric field and its correlation to phosphorylation (461) 426
- Gray, R. R., see Wray, H. L. (461) 441
- Gurevitz, M., Kratz, H. and Ohad, I.
Polypeptides of chloroplastic and cytoplasmic origin required for development of Photosystem II activity, and chlorophyll-protein complexes, in *Euglena gracilis* Z chloroplast membranes (461) 475
- Haug, A., see Hsung, J. C. (461) 124
- Haveman, J., see Mathis, P. (461) 167
- Heathcote, P., Vermeglio, A., Clayton, R. K.
The carotenoid band shift in reaction centers from *Rhodospseudomonas sphaeroides* (461) 358
- Heber, U., see Tillberg, J. E. (461) 31
- Heldt, H. W., see Portis, Jr., A. R. (461) 313
- Hogarth, C., Wilkinson, B. J. and Ellar, D. J.
Cyanide-resistant electron transport in sporulating *Bacillus megaterium* KM (461) 109
- Holmes, N. G. and Crofts, A. R.
The carotenoid shift in *Rhodospseudomonas sphaeroides*. Change induced under continuous illumination (461) 141
- Hsung, J. C. and Haug, A.
ζ-Potential and surface charge of *Thermoplasma acidophila* (461) 124

- Hyer, R. C., see Geacintov, N. E. (461) 306
- Ilan, Y., Shinar, R. and Stein, G.
H/²H isotope effect in redox reactions of cytochrome c (461) 15
- Jursinic, P. and Govindjee
The rise in chlorophyll a fluorescence yield and decay in delayed light emission in Tris-washed chloroplasts in the 6–100 μ s time range after an excitation flash (461) 253
- Kleinen Hammans, J. W., see Verwer, W. (461) 202
- Koller, M. E. and Romslo, I.
Studies on the ferrochelatase activity of mitochondria and submitochondrial particles with special reference to the regulatory function of the mitochondrial inner membrane (461) 283
- Kononenko, A. A., see Paschenko, V. Z. (461) 403
- Kratz, H., see Gurevitz, M. (461) 475
- Lavergne, J., see Briantais, J.-M. (461) 61
- Lluis, C. and Bozal, J.
Relationship between hydroxypyruvate and the production of oxalate in vitro (461) 209
- Mader, G., see Rurainski, H. J. (461) 489
- Mathis, P. and Haveman, J.
Analysis of absorption changes in the ultraviolet related to charge-accumulating electron carriers in Photosystem II of chloroplasts (461) 167
- Michotte, A., see Noé, G. (461) 231
- Mills, J. D., see Searle, G. F. W. (461) 413
- Miyata, Y., see Wilson, D. F. (461) 218
- Mosbach, A., see Portis, Jr., A. R. (461) 313
- Murata, N. and Fork, D. C.
Temperature dependence of the light-induced spectral shift of carotenoids in *Cyanidium caldarium* and higher plant leaves. Evidence for an effect of the physical phase of chloroplast membrane lipids on the permeability of the membrane to ions (461) 365
- Nakatani, H. Y. and Barber, J.
An improved method for isolating chloroplasts retaining their outer membranes (461) 510
- Noé, G., Michotte, A. and Crabbé, J.
Oxygen consumption by frog skin and its isolated epithelial layer as a function of their sodium-transporting activity (461) 231
- Ohad, I., see Gurevitz, M. (461) 475
- O'Keefe, D. P. and Dilley, R. A.
The effect of chloroplast coupling factor removal on thylakoid membrane ion permeability (461) 48
- Papageorgiou, G. C.
Photosynthetic activity of diimidoester-modified cells, permeaplasts and cell-free membrane fragments of the blue-green alga *Anacystis nidulans* (461) 379
- Parson, W. W., see Blankenship, R. E. (461) 297
- Paschenko, V. Z., Kononenko, A. A., Protasov, S. P., Rubin, A. B., Rubin, L. B. and Uspenskaya, N. Ya.
Probing the fluorescence emission kinetics of the photosynthetic apparatus of *Rhodospseudomonas sphaeroides*, strain 1760-1, on a picosecond pulse fluorometer (461) 403
- Portis, Jr., A. R., Chon, C. J., Mosbach, A. and Heldt, H. W.
Fucose- and sedoheptulosebisphosphatase. The sites of a possible control of CO₂ fixation by light-dependent changes of the stromal Mg²⁺ concentration (461) 313
- Protasov, S. P., see Paschenko, V. Z. (461) 403
- Renger, G., Gläser, M. and Buchwald, H. E.
The control of the reduction kinetics in the dark of photo-oxidized chlorophyll a⁺_{II} by the inner thylakoid proton concentration (461) 392
- Robinson, S. P. and Wiskich, J. T.
Uptake of ATP analogs by isolated pea chloroplasts and their effect on CO₂ fixation and electron transport (461) 131
- Romijn, J. C. and Ames, J.
Purification and photochemical properties of reaction centers of *Chromatium vinosum*. Evidence for the photoreduction of a naphthoquinone (461) 327
- Romslo, I., see Koller, M. E. (461) 283
- Roux, E. and Faludi-Dániel, A.
Flash-induced 515 nm absorbance change in chloroplasts with various granum contents (461) 25
- Rubin, A. B., see Paschenko, V. Z. (461) 403
- Rubin, L. B., see Paschenko, V. Z. (461) 403
- Rurainski, H. J. and Mader G.
Regulation of the Hill reaction by cations and its abolishment by uncouplers (461) 489
- Salmón, M., see Tuena de Gómez Puyou, M. (461) 101
- Schaafsma, T. J., see Blankenship, R. E. (461) 297
