

AUTHOR INDEX

- Baltscheffsky, H., see Nordlund, S. (504) 248
- Banai, M., Shavit, N. and Chipman, D.M.
Specificity of nucleotide binding sites in isolated chloroplast coupling factor (CF₁) (504) 100
- Barber, J., see Nakatani, H.Y. (504) 215
- Barber, J., see Telfer, A. (504) 153
- Bazzaz, M.B. and Rebeiz, C.A.
Chloroplast culture: The chlorophyll repair potential of mature chloroplasts incubated in a simple medium (504) 310
- Beinert, H., see Shaw, R.W. (504) 187
- Bell, D.H., Haug, A. and Good, N.E.
Stimulation of microsecond-delayed fluorescence from spinach chloroplasts by uncouplers and by phosphorylation (504) 446
- Berden, J.A. and Verschoor, G.J.
The use of aurovertin to determine the F₁ content of submitochondrial particles and the ATPase complex (504) 278
- Biggins, J.
Functional homogeneity of P-700 in cyclic and non-cyclic electron transport reactions in thylakoids (504) 288
- Bonner, W.D., Jr., see Rich, P.R. (504) 345
- Brossar, O., see Feo, F. (504) 1
- Bryła, J. and Dzik, J.M.
Glutamate metabolism in relation to glutamate transport in kidney cortex mitochondria of rabbit (504) 15
- Canuto, A., see Feo, F. (504) 1
- Chaianova, S.S., see Hallier, U.W. (504) 67
- Chipman, D.M., see Banai, M. (504) 100
- Chipman, D.M., see Shoshan, V. (504) 108
- Clayton, R.K.
Effects of dehydration on reaction centers from *Rhodospseudomonas sphaeroides* (504) 255
- Csatorday, K.
Fluorescence from sensitizing phycobilin chromophores in the blue-green alga *Anacystis nidulans* (504) 341
- Delosme, R., Zickler, A. and Joliot, P.
Turnover kinetics of Photosystem I measured by the electrochromic effect in *Chlorella* (504) 165
- Del Valle-Tascon, S., Van Grondelle, R. and Duysens, L.N.M.
Flash induced photophosphorylation in *Rhodospirillum rubrum* chromatophores. I. The relationship between cytochrome c-420 content and phosphorylation (504) 26
- Dismukes, G.C. and Sauer, K.
The orientation of membrane bound radicals. An EPR investigation of magnetically ordered spinach chloroplasts (504) 431
- Durbin, R.D., see Steele, J.A. (504) 136
- Duysens, L.N.M., see Del Valle-Tascon, S. (504) 26
- Dzik, J.M., see Bryła, J. (504) 15
- Ellenson, J.L., Pheasant, D.J. and Levine, R.P.
Light/dark labeling differences in chloroplast membrane polypeptides associated with chloroplast coupling factor 0 (504) 123
- Ellfolk, N., see Rönnerberg, M. (504) 60
- Eriksson, U., see Nordlund, S. (504) 248
- Evans, M.C.W., see Telfer, A. (504) 153
- Feo, F., Canuto, A., Garcea, R. and Brossar, O.
The role of lipid-protein interactions in NADH-cytochrome c reductase (rotonone-insensitive) of rat liver mitochondria (504) 1
- Forrester, J.A., see Nakatani, H.Y. (504) 215
- Fujita, Y., see Mimuro, M. (504) 406
- Garcea, R., see Feo, F. (504) 1
- Gillbro, T.
Flash kinetic study of the last steps in the photo-induced reaction cycle of bacteriorhodopsin (504) 175

- Golbeck, J.H., Velthuys, B.R. and Kok, B.
Evidence that the intermediate electron acceptor, A_2 , in Photosystem I is a bound iron-sulfur protein (504) 226
- Gomez-Fernandez, J.C., see Harris, D.A. (504) 364
- Good, N.E., see Bell, D.H. (504) 446
- Hallier, U.W., Schmitt, J.M., Heber, U., Chaianova, S.S. and Volodarsky, A.D.
Ribulose-1,5-bisphosphate carboxylase-deficient plastome mutants of *Oenothera* (504) 67
- Hansen, R.E., see Shaw, R.W. (504) 187
- Harris, D.A., Gomez-Fernandez, J.C., Klungsoyr, L. and Radda, G.K.
Specificity of nucleotide binding and coupled reactions utilising the mitochondrial ATPase (504) 364
- Haug, A., see Bell, D.H. (504) 446
- Heathcote, P., see Telfer, A. (504) 153
- Heber, U., see Hallier, U.W. (504) 67
- Heber, U., see Inoue, Y. (504) 142
- Henry, J.-P. and Ninio, M.
Control of the Ca^{2+} -triggered bioluminescence of *Veretillum cynomorium* luminesomes (504) 40
- Hildebrandt, V., see Nicholls, P. (504) 457
- Hind, G., see Mills, J.D. (504) 298
- Inoue, Y., Kobayashi, Y., Shibata, K. and Heber, U.
Synthesis and hydrolysis of ATP by intact chloroplasts under flash illumination and in darkness (504) 142
- Itoh, S.
Membrane surface potential and the reactivity of the System II primary electron acceptor to charged electron carriers in the medium (504) 324
- Joliot, P., see Delosme, R. (504) 165
- Kametani, F., see Terada, H. (504) 237
- Klungsoyr, L., see Harris, D.A. (504) 364
- Kobayashi, Y., see Inoue, Y. (504) 142
- Kok, B., see Golbeck, J.H. (504) 226
- Krab, K. and Wikström, M.
Proton-translocating cytochrome *c* oxidase in artificial phospholipid vesicles (504) 200
- Kubota, S., see Terada, H. (504) 237
- Leunissen-Bijvelt, J., see Verwer, W. (504) 231
- Levine, R.P., see Ellenson, J.L. (504) 123
- Mauzerall, D.C., see Piccioni, R.G. (504) 384
- Mauzerall, D.C., see Piccioni, R.G. (504) 398
- Mills, J.D., Slovacek, R.E. and Hind, G.
Cyclic electron transport in isolated intact chloroplasts. Further studies with antimycin (504) 298
- Mimuro, M. and Fujita, Y.
Excitation energy transfer between pigment system II units in blue-green algae (504) 406
- Nakatani, H.Y., Barber, J. and Forrester, J.A.
Surface charges on chloroplast membrane as studied by particle electrophoresis (504) 215
- Nicholls, P. and Hildebrandt, V.
Redox state of the partially reduced cytochrome aa_3 -cyanide complex (504) 457
- Ninio, M., see Henry, J.-P. (504) 40
- Nordlund, S., Eriksson, U. and Baltscheffsky, H.
Properties of the nitrogenase system from a photosynthetic bacterium, *Rhodospirillum rubrum* (504) 248
- Pheasant, D.J., see Ellenson, J.L. (504) 123
- Piccioni, R.G. and Mauzerall, D.C.
Calcium and photosynthetic oxygen evolution in cyanobacteria (504) 384
- Piccioni, R.G. and Mauzerall, D.C.
A high-potential redox component located within cyanobacterial Photosystem II (504) 398
- Radda, G.K., see Harris, D.A. (504) 364
- Rebeiz, C.A., see Bazzaz, M.B. (504) 310
- Rich, P.R. and Bonner, W.D., Jr.
An EPR analysis of cyanide-resistant mitochondria isolated from the mutant poky strain of *Neurospora crassa* (504) 345
- Rönnberg, M. and Ellfolk, N.
Pseudomonas cytochrome *c* peroxidase. Initial delay of the peroxidative reaction. Electron transfer properties (504) 60
- Sauer, K., see Dismukes, G.C. (504) 431
- Schmitt, J.M., see Hallier, U.W. (504) 67
- Searle, G.F.W. and Wessels, J.S.C.
Role of β -carotene in the reaction centres of Photosystems I and II of spinach chloroplasts prepared in non-polar solvents (504) 84
- Shavit, N., see Banai, M. (504) 100
- Shavit, N., see Shoshan, V. (504) 108
- Shaw, R.W., Hansen, R.E. and Beinert, H.
Responses of the a_3 component of cyto-

- chrome c oxidase to substrate and ligand addition (504) 187
- Shibata, K., see Inoue, Y. (504) 142
- Shichida, Y., Tokunaga, F. and Yoshizawa, T.
Circular dichroism of squid rhodopsin and its intermediates (504) 413
- Shoshan, V., Shavit, N. and Chipman, D.M.
Kinetics of nucleotide binding to chloroplast coupling factor (CF_1) (504) 108
- Siefermann-Harms, D.
The accumulation of neutral red in illuminated thylakoids (504) 265
- Slovacek, R.E., see Mills, J.D. (504) 298
- Steele, J.A., Uchytel, T.F. and Durbin, R.D.
The stimulation of coupling factor 1 ATPase by tentoxin (504) 136
- Telfer, A., Barber, J. Heatchote, P. and Evans, M.C.W.
Variable chlorophyll a fluorescence from P-700 enriched Photosystem I particles dependent on the redox state of the reaction centre (504) 153
- Terada, H., Uda, M., Kametani, F. and Kubota, S.
Structural requirements of alkyl acyl-dithiocarbazates for the uncoupling of oxidative phosphorylation in mitochondria (504) 237
- Tokunaga, F., see Shichida, Y. (504) 413
- Uchytel, T.F., see Steels, J.A. (504) 136
- Uda, M., see Terada, H. (504) 237
- Van Grondelle, R., see Del Valle-Tascon. S. (504) 26
- Velthuys, B.R., see Golbeck, J.H. (504) 226
- Verkleij, A.J., see Verwer, W. (504) 231
- Verschoor, G.J., see Berden, J.A. (504) 278
- Ververgaert, P.H.J.T., see Verwer, W. (504) 231
- Verwer, W., Ververgaert, P.H.J.T., Leunissen-Bijvelt, J. and Verkleij, A.J.
Particle aggregation in photosynthetic membranes of the blue-green alga *Anacystis nidulans* (504) 231
- Volodarsky, A.D., see Hallier, U.W. (504) 67
- Wessels, J.S.C., see Searle, G.F.W. (504) 84
- Wikström, M., see Krab, K. (504) 200
- Yoshizawa, T., see Shichida, Y. (504) 413
- Zickler, A., see Delosme, R. (504) 165
