

AUTHOR INDEX

- Åkerlund, H.E. and Andersson, B.
Quantitative separation of spinach thylakoids into Photosystem II-enriched inside-out vesicles and Photosystem I-enriched right-side-out vesicles (725) 34
- Allan, E.A., Chisholm, A.B. and Titheradge, M.A.
The stimulation of hepatic oxidative phosphorylation following dexamethasone treatment of rats (725) 71
- Amesz, J., see Vasmel, H. (725) 361
- Andersson, B., see Åkerlund, H.E. (725) 34
- Arakaki, R., see Higuti, T. (725) 1
- Arata, H. and Nishimura, M.
Free energy change accompanying electron transfer from P₈₇₀ to quinone in *Rhodospseudomonas sphaeroides* chromatophores (725) 394
- Arntzen, C.J., see Vermaas, W.F.J. (725) 483
- Aronson, H., Waggoner, C., More, J. and Berg, S.P.
Spin-label studies of the lipid regions of spinach thylakoids and a detergent-derived oxygen-evolving Photosystem II preparation (725) 519
- Arrio, B., see Vernotte, C. (725) 376
- Baker, A.J., see Jordan, B.R. (725) 77
- Bakker, J.G.C., Van Grondelle, R. and Den Hollander, W.T.F.
Trapping, loss and annihilation of excitations in a photosynthetic system. II. Experiments with the purple bacteria *Rhodospirillum rubrum* and *Rhodospseudomonas capsulata* (725) 508
- Bakker, J.G.C., see Den Hollander, W.T.F. (725) 492
- Bartzatt, R.A., Yang, C.-M. and Markwell, J.P.
The interaction of surfactants with the chloroplast thylakoid membrane at sub-solubilizing concentrations (725) 341
- Bell, D.H., Patterson, L.K. and Gould, J.M.
Transmembrane pH gradients and functional heterogeneity in reconstituted vesicle systems (725) 368
- Bendall, D.S., see Bowes, J.M. (725) 210
- Berden, J.A., see Zhu, Q.S. (725) 121
- Berg, S.P., see Aronson, H. (725) 519
- Bernardi, P., see Saris, N.-E.L. (725) 19
- Bokranz, M., see Uden, G. (725) 41
- Boschetti, A., see Michel, H. (725) 417
- Bowes, J.M., Stewart, A.C. and Bendall, D.S.
Purification of Photosystem II particles from *Phormidium laminosum* using the detergent dodecyl- β -D-maltoside. Properties of the purified complex (725) 210
- Bragg, P.D. and Hackett, N.R.
Cytochromes of the trimethylamine *N*-oxide anaerobic respiratory pathway of *Escherichia coli* (725) 168
- Breton, J., see Deprez, J. (725) 444
- Briantais, J.-M., see Vernotte, C. (725) 376
- Bricker, T.M., see Metz, J.G. (725) 203
- Butler, W.L., see Matsuda, H. (725) 320
- Chamorovsky, S.K., Lukashev, E.P., Kononenko, A.A. and Rubin, A.B.
Effects of electric field on the photocycle of bacteriorhodopsin (725) 403
- Chernavskaya, N.M., see Zubov, B.V. (725) 162
- Chernavsky, D.S., see Zubov, B.V. (725) 162
- Chisholm, A.B., see Allan, E.A. (725) 71
- Chizhov, I.V., see Zubov, B.V. (725) 162
- Chow, W.-S., see Jordan, B.R. (725) 77
- Davies, H.C., Smith, L. and Nava, M.E.
Reaction of cytochrome *c* in the electron-transport chain of *Paracoccus denitrificans* (725) 238
- Degli Esposti, M., Meier, E.M.M., Timoneda, J. and Lenaz, G.
Modification of the catalytic function of the mitochondrial cytochrome *b-c₁* complex by dicyclohexylcarbodiimide (725) 349
- Deléage, G., Penin, F., Godinot, C. and Gautheron, D.C.
Correlations between ATP hydrolysis, ATP synthesis, generation and utilization of Δ pH in mitochondrial ATPase-ATP synthase (725) 464
- Den Blanken, H.J., Jongenelis, A.P.J.M. and Hoff, A.J.
The triplet state of the primary donor of the photosynthetic bacterium *Rhodospseudomonas viridis* (725) 472
- Den Hollander, W.T.F., Bakker, J.G.C. and Van Grondelle, R.
Trapping, loss and annihilation of excitations in a photosynthetic system. I. Theoretical aspects (725) 492
- Den Hollander, W.T.F., see Bakker, J.G.C. (725) 508
- Deprez, J., Dobek, A., Geacintov, N.E., Paillotin, G. and Breton, J.
Probing fluorescence induction in chloroplasts on a nanosecond time scale utilizing picosecond laser pulse pairs (725) 444
- Dobek, A., see Deprez, J. (725) 444
- Drews, G., see Reidl, H. (725) 455
- Duysens, L.N.M., see Kingma, H. (725) 434
- Emeis, D., see Hoffmann, K.P. (725) 60
- Fernyhough, P., Foyer, C. and Horton, P.
The influence of metabolic state on the level of phosphorylation of the light-harvesting chlorophyll-protein complex in chloroplasts isolated from maize mesophyll (725) 155
- Flores, E., Romer, J.M., Guerrero, M.G. and Losada, M.
Regulatory interaction of photosynthetic nitrate utilization and carbon dioxide fixation in the cyanobacterium *Anacystis nidulans* (725) 529

- Flügge, U.I., Gerber, J. and Heldt, H.W.
Regulation of the reconstituted chloroplast phosphate translocator by an H^+ gradient (725) 229
- Foyer, C., see Fernyhough, P. (725) 155
- Frank, H.A., see McGann, W.J. (725) 178
- Gautheron, D.C., see Deléage, G. (725) 464
- Geacintov, N.E., see Deprez, J. (725) 444
- Gerber, J., see Flügge, U.I. (725) 229
- Gersch, C.
Nigericin-induced stimulation of photophosphorylation in chloroplasts (725) 309
- Godinot, C., see Deléage, G. (725) 464
- Gogotov, I.N., see Yakunin, A.F. (725) 298
- Golecki, J.R., see Reidl, H. (725) 455
- Gould, J.M., see Bell, D.H. (725) 368
- Govindjee, see Khanna, R. (725) 10
- Guerrero, M.G., see Flores, E. (725) 529
- Gutowsky, H.S., see Khanna, R. (725) 10
- Hackett, N.R., see Bragg, P.D. (725) 168
- Hassinen, I.E., see Kauppinen, R.A. (725) 425
- Haworth, P., Karukstis, K.K. and Sauer, K.
Picosecond fluorescence kinetics in spinach chloroplasts at room temperature. Effects of phosphorylation (725) 261
- Heathcote, P., see Rich, P.R. (725) 332
- Heldt, H.W., see Flügge, U.I. (725) 229
- Higuti, T., Arakaki, R., Kotera, Y., Takigawa, M., Tani, I. and Shibuya, M.
Triphenyltetrazolium and its derivatives are anisotropic inhibitors of energy transduction in oxidative phosphorylation in rat liver mitochondria (725) 1
- Hiltunen, J.K., see Kauppinen, R.A. (725) 425
- Hind, G., see Houchins, J.P. (725) 138
- Hoff, A.J., see Den Blanken, H.J. (725) 472
- Hoffmann, K.P., Emeis, D. and Schnetkamp, P.P.M.
Interplay between hydroxylamine, metarhodospin II and GTP-binding protein in bovine photoreceptor membranes (725) 60
- Holten, D., see Kirmaier, C. (725) 190
- Horton, P., see Fernyhough, P. (725) 155
- Houchins, J.P. and Hind, G.
Kinetic evidence for involvement of two cytochrome *b*-563 hemes in photosynthetic electron transport (725) 138
- Inoue, Y., see Renger, G. (725) 146
- Jarrell, K.F. and Sprott, G.D.
Measurement of significance of the membrane potential in *Methanobacterium bryantii* (725) 280
- Johannin, G., see Vernotte, C. (726) 376
- Johnston, S.P., see Möller, I.M. (725) 289
- Jongenelis, A.P.J.M., see Den Blanken, H.J. (725) 472
- Jordan, B.R., Chow, W.-S. and Baker, A.J.
The role of phospholipids in the molecular organisation of pea chloroplast membranes. Effect of phospholipid depletion on photosynthetic activities (725) 77
- Kametani, F., see Terada, H. (725) 254
- Karukstis, K.K. and Sauer, K.
Picosecond fluorescence kinetic studies of electron acceptor Q redox heterogeneity (725) 246
- Karukstis, K.K. and Sauer, K.
Photosynthetic membrane development studied using picosecond fluorescence kinetics (725) 384
- Karukstis, K.K., see Haworth, P. (725) 261
- Katoh, S., see Nanba, M. (725) 272
- Kauppinen, R.
Proton electrochemical potential of the inner mitochondrial membrane in isolated perfused rat hearts, as measured by exogenous probes (725) 131
- Kauppinen, R.A., Hiltunen, J.K. and Hassinen, I.E.
Mitochondrial membrane potential, transmembrane difference in the NAD redox potential and the equilibrium of the glutamate-aspartate translocase in the isolated perfused rat heart (725) 425
- Khanna, R., Rajan, S., Govindjee and Gutowsky, H.S.
Effects of physical and chemical treatments on chloroplast manganese. NMR and ESR studies (725) 10
- Kingma, H., Duysens, L.N.M. and Van Grondelle, R.
Magnetic field-stimulated luminescence and a matrix model for energy transfer. A new method for determining the redox state of the first quinone acceptor in the reaction center of whole cells of *Rhodospirillum rubrum* (725) 434
- Kirmaier, C., Holten, D. and Parson, W.W.
Picosecond photodichroism (photoselection) measurements on transient states in reaction centers from *Rhodopseudomonas sphaeroides*, *Rhodospirillum rubrum* and *Rhodopseudomonas viridis* (725) 190
- Kononenko, A.A., see Chamorovsky, S.K. (725) 403
