

ERRATA

BIOCHIMICA ET BIOPHYSICA ACTA, VOL.
725 (1983)

p. 404, right-hand column, lines 31 to 36 inclusive
should read:

may not. In our case we believe that in one of the
bacteriorhodopsin populations photoconversions
proceed as

and in the other population a shorter 'cycle'
 $\text{bacteriorhodopsin}_{570} \rightleftharpoons \text{K}$ may occur. The kinetic

p. 405, Fig. 2A, the upper trace should be denoted
'1' and the lower trace '2'.
