

AUTHOR INDEX

- Abramson, M. B.
Structural changes in lecithin-water systems: Thermal-turbidimetric studies (225) 167
- Askari, A. and Koyal, D.
Studies on the partial reactions catalyzed by the $(\text{Na}^+ + \text{K}^+)$ -activated ATPase. II. Effects of oligomycin and other inhibitors on the p-nitrophenylphosphatase (225) 20
- Askari, A., see Koyal, D. (225) 11
- Askari, A., see Pitts, B. J. R. (225) 388
- Azzi, A., see Fleischer, S. (225) 194
- Baker, R. D. and George, M. J.
Patterns of neutral amino acid uptake along the rat small intestine (225) 315
- Baker, R. D., Wall, M. J. and Long, J. L.
Intestinal transmural electrical activity: Selective effects of mucosal and serosal anaerobiosis (225) 392
- Beauchamp, R. S., Silver, S. and Hopkins, J. W.
Uptake of Mg^{2+} by KB cells, (225) 71
- Becker, D., Viljoen, D. and Kramer, S.
The inhibition of red cell and brain ATPase by δ -aminolaevulinic acid (225) 16
- Bihler, I. and Sawh, P. C.
The effect of alkali metal ions on sugar transport in muscle: Interaction with the sugar carrier or indirect effect (225) 56
- Boniface, J., see Koch, A. L. (225) 239
- Borst-Pauwels, G. W. F. H., Wolters, G. H. J. and Henricks, J. J. G.
The interaction of 2,4-dinitrophenol with anaerobic Rb^+ transport across the yeast cell membrane (225) 269
- Brodsky, W. A., see Shamoo, A. E. (225) 254
- Burke, V., see Gracey, M. (225) 308
- Burt, D. H. and Green, J. W.
The sodium permeability of butanol-treated erythrocytes. The role of calcium (225) 46
- Calvert, D. N., see Crum, L. R. (225) 161
- Chance, B., see Fleischer, S. (225) 194
- Chau, M., see Seeman, P. (225) 185
- Chen, Li-Fu, Lund, D. B. and Richardson, T.
Essential fatty acids and glucose permeability of lecithin membranes (225) 89
- Cho, K. S. and Proulx, P.
Studies on the mechanism of hemolysis by acyl carnitines, lysolecithins and acyl cholines (225) 214
- Chodorov, B. I., see Fishman, S. N. (225) 1
- Christiansen, P. A., see Reiser, S. (225) 123
- Clausen, T., see Kohn, P. G. (225) 277
- Crawhall, J. C. and Davis, M. G.
Further studies of the transport of amino acids in rat liver slices, (225) 326
- Crum, L. R. and Calvert, D. N.
Lipolytic activity of adipocyte ghosts (225) 161
- Davis, M. G., see Crawhall, J. C. (225) 326
- Ellar, D. J., Muñoz, E. and Salton, M. R. J.
The effect of low concentrations of glutaraldehyde on *Micrococcus lysodeikticus* membranes: Changes in the release of membrane-associated enzymes and membrane structure (225) 140
- Fishman, S. N., Chodorov, B. I. and Volkenstein, M. V.
Molecular mechanisms of membrane ionic permeability changes (225) 1
- Fleischer, B., see Fleischer, S. (225) 194
- Fleischer, S., Fleischer, B., Azzi, A. and Chance, B.
Cytochrome b_5 and P-450 in liver cell fractions (225) 194
- Flemström, G.
 Na^+ transport and impedance properties of the isolated frog gastric mucosa at different O_2 tensions (225) 35
- Fromherz, P.
A new technique for investigating lipid protein films (225) 382
- George, M. J., see Baker, R. D. (225) 315
- Goldberg, M., see Seeman, P. (225) 185
- Gracey, M., Burke, V. and Oshin, A.
Reversible inhibition of intestinal active sugar transport by deconjugated bile salt in vitro (225) 308
- Green, J. W., see Burt, D. H. (225) 46
- Henricks, J. J. G., see Borst-Pauwels, G. W. F. H. (225) 269
- Hopkins, J. W., see Beauchamp, R. S. (225) 71
- Horton, A. W. and McClure, D. W.
Ionic transport through model membranes. I. Effects of accelerators of carcinogenesis (225) 248
- Huf, E. G., see Smith, T. C. (225) 77
- Hughes, W. D., see Smith, T. C. (225) 77
- Jacobs, F. A., see Largis, E. E. (225) 301
- Jones, M. N., see Levine, M. (225) 291
- Kawasaki, T. and Yamashina, I.
Metabolic studies of rat liver plasma membranes using D-[1- ^{14}C]glucosamine (225) 234
- Kessler, J. I., see Mishkin, S. (225) 335
- Koch, A. L. and Boniface, J.
Intercalation of permeases during membrane growth (225) 239
- Kohn, P. G. and Clausen, T.
The relationship between the transport of glucose and cations across cell membranes in isolated tissues. VI. The effect of insulin, ouabain, and metabolic inhibitors on the transport of 3-O-methylglucose and glucose in rat soleus muscles (225) 277

- Koyal, D., Rao, S. N. and Askari, A.
Studies on the partial reactions catalyzed by the $(\text{Na}^+ + \text{K}^+)\text{-ATPase}$. I. Effects of simple anions and nucleoside triphosphates on the alkali-cation specificity of the p-nitrophenylphosphatase (225) 11
- Koyal, D., see Askari, A. (225) 20
- Kramer, S., see Becker, D. (225) 26
- Lajtha, A., see Piccoli, F. (225) 356
- Largis, E. E. and Jacobs, F. A.
Effects of phlorizin on glucose transport into blood and lymph, (225) 301
- Lee, D.
The relative permeability of lysosomes from *Tetrahymena pyriformis* to some amino acids and dipeptides (225) 108
- Levine, M., Levine, S. and Jones, M. N.
The effect of temperature on the competitive inhibition of sorbose transfer in human erythrocytes by glucose (225) 291
- Levine, S., see Levine, M. (225) 291
- Lipscomb, H., see Rees, E. D. (225) 96
- Long, J. L., see Baker, R. D. (225) 392
- Lowry, J. Q., see Rees, E. D. (225) 96
- Lund, D. B., see Chen, Li-Fu, (225) 89
- Mandelstam, P., see Rees, E. D. (225) 96
- McClure, D. W., see Horton, A. W. (225) 248
- Mishkin, S., Yalovsky, M. and Kessler, J. I.
The in vitro uptake and kinetics of release of palmitic acid and taurodeoxycholate from hamster small intestinal segments (225) 335
- Muñoz, E., see Ellar, D. J. (225) 140
- Newkirk, J. D. and Waite, M.
Identification of phospholipase A_1 in plasma membranes of rat liver (225) 224
- Oshin, A., see Gracey, M. (225) 308
- Pant, H. C. and Rosenberg, B.
Sustained, coupled electrical and mechanical oscillations in a bimolecular lipid membrane in the presence of inorganic ions (225) 379
- Philippot, J.
Study of human red blood cell membrane using sodium deoxycholate. I. Mechanism of the solubilization (225) 201
- Piccoli, F. and Lajtha, A.
Some aspects of uptake of non-metabolites in slices of mouse brain (225) 356
- Pitts, B. J. R. and Askari, A.
Stimulation of the phosphatase activity of $(\text{Na}^+, \text{K}^+)\text{-ATPase}$ preparations by ouabain (225) 388
- Pratt, Jr., R. M. and Terner, C.
Development of amino acid transport by the small intestine of the chick (225) 113
- Proulx, P., see Cho, K. S. (225) 214
- Rao, S. N., see Koyal, D. (225) 11
- Rees, E. D., Mandelstam, P., Lowry, J. Q. and Lipscomb, H.
A study of the mechanism of intestinal absorption of benzo(a)pyrene (225) 96
- Reiser, S. and Christiansen, P. A.
The properties of the preferential uptake of L-leucine by isolated intestinal epithelial cells (225) 123
- Richardson, T., see Chen, Li-Fu (225) 89
- Rosenberg, B., see Pant, H. C. (225) 379
- Roth, S., see Seeman, P. (225) 171
- Salton, M. R. J., see Ellar, D. J. (225) 140
- Sauks, T., see Seeman, P. (225) 185
- Sawh, P. C., see Bihler, I. (225) 56
- Sax, L., see Seeman, P. (225) 185
- Schilb, T. P., see Shamoo, A. E. (225) 254
- Schneider, H., see Seeman, P. (225) 171
- Seeman, P., Chau, M., Goldberg, M., Sauks, T. and Sax, L.
The binding of Ca^{2+} to the cell membrane increased by volatile anesthetics (alcohols, acetone, ether) which induce sensitization of nerve or muscle (225) 185
- Seeman, P., Roth, S. and Schneider, H.
The membrane concentration of alcohol anesthetics (225) 171
- Shamoo, A. E., Schilb, T. P. and Brodsky, W. A.
The effect of temperature on Mg^{2+} - and $(\text{Na}^+ + \text{K}^+)\text{-ATPases}$ (225) 254
- Silver, S., see Beauchamp, R. S. (225) 71
- Simmonds, W. J., see Watt, S. M. (225) 347
- Smith, T. C., Hughes, W. D. and Huf, E. G.
Movement of CO_2 and HCO_3^- across isolated frog skin (225) 77
- Terner, C., see Pratt, Jr., R. M. (225) 113
- Thorhaug, A.
Temperature effects on *Valonia* bioelectric potential (225) 151
- Viljoen, D., see Becker, D. (225) 26
- Volkenstein, M. V., see Fishman, S. N. (225) 1
- Waite, M., see Newkirk, J. D. (225) 224
- Wall, M. J., see Baker, R. D. (225) 392
- Walser, M.
Net transport of calcium by toad bladder (225) 64
- Watt, S. M. and Simmonds, W. J.
Uptake and efflux by everted intestinal sacs of micellar cholesterol in bile salts and in non-ionic detergent (225) 347
- Wolters, G. H. J., see Borst-Pauwels, G. W. F. H. (225) 269
- Yalovsky, M., see Mishkin, S. (225) 335
- Yamashina, I., see Kawasaki, T. (225) 234
