

AUTHOR INDEX

- Abramson, M. B. and Pisetsky, D.
Thermal-turbidimetric studies of membranes from *Acholeplasma laidlawii* (282) 80
- Adamson, L. F., Herington, A. C. and Bornstein, J.
Evidence for the selection by the membrane transport system of intracellular or extracellular amino acids for protein synthesis (282) 352
- Bandlow, W.
Membrane separation and biogenesis of the outer membrane of yeast mitochondria (282) 105
- Barnabei, O., see Luly, P. (282) 447
- Becker, J. M. and Lichstein, H. C.
Transport overshoot during biotin uptake by *Saccharomyces cerevisiae* (282) 409
- Benveniste, P., see Brandt, R. D. (282) 85
- Bihler, I., see Elbrink, J. (282) 337
- Bloj, B., see Morero, R. D. (282) 157
- Bornstein, J., see Adamson, L. F. (282) 352
- Boumendil-Podevin, E. F., see Podevin, R. A. (282) 234
- Brandt, R. D. and Benveniste, P.
Isolation and identification of sterols from subcellular fractions of bean leaves (*Phaseolus vulgaris*) (282) 85
- Brecher, A. S., see Burkholder, D. E. (282) 135
- Burkholder, D. E. and Brecher, A. S.
Interaction between proteases and bovine erythrocyte membranes (282) 135
- Capaldi, R. A., see Hayashi, H. (282) 166
- Coplon, N. S. and Maffly, R. H.
The effect of ouabain on sodium transport and metabolism of the toad bladder (282) 250
- Curran, P. F., see Mandel, L. J. (282) 258
- Davis, D. G. and Inesi, G.
Phosphorus and proton nuclear magnetic resonance studies in sarcoplasmic reticulum membranes and lipids (282) 180
- Denburg, J. L.
An axon plasma membrane preparation from the walking legs of the lobster *Homarus americanus* (282) 453
- Doskočil, J.
The components of the nucleoside-transporting system in *Escherichia coli* (282) 393
- Elbrink, J. and Bihler, I.
Characteristics of the membrane transport of sugars in the lens of the eye (282) 337
- Eletr, S. and Inesi, G.
Phospholipid orientation in sarcoplasmic membranes: Spin-label ESR and proton NMR studies (282) 174
- Emílio, M. G. and Ferreira, H. G.
The effect of vasopressin on the permeability of frog skin to cations (282) 435
- Fariás, R. N., see Morero, R. D. (282) 157
- Ferreira, H. G., see Emílio, M. G. (282) 435
- Hare, J. D.
A labile, serum-dependant uridine uptake function in mouse embryo cells (282) 401
- Hayashi, H. and Capaldi, R. A.
The proteins of the outer membrane of beef heart mitochondria (282) 166
- Herington, A. C., see Adamson, L. F. (282) 352
- Hill, M. W. and Lester, R.
Mixtures of gangliosides and phosphatidylcholine in aqueous dispersions (282) 18
- Hoshi, T., see Maruyama, T. (282) 214
- Inesi, G., see Davis, D. G. (282) 180
- Inesi, G., see Eletr, S. (282) 174
- Johnstone, R. M.
Glycine accumulation in absence of Na⁺ and K⁺ gradients in Ehrlich ascites cells: Shortfall of the potential energy from the ion gradients for glycine accumulation (282) 366
- Kemp, G. and Wenner, C. E.
Interaction of valinomycin with cations at the air-water interface (282) 1
- Kimelberg, H. K. and Papahadjopoulos, D.
Phospholipid requirements for (Na⁺ + K⁺)-ATPase activity: Head-group specificity and fatty acid fluidity (282) 277
- Kinne, R., see Simon, B. (282) 293
- Kirschner, L. B., see Pfeiler, E. (282) 301
- Kramer, R., Schlatter, Ch. and Zahler, P.
Preferential binding of sphingomyelin by membrane proteins of the red cell (282) 146
- Krasnow, N.
Effects of lanthanum and gadolinium ions on cardiac sarcoplasmic reticulum (282) 187
- Krupka, R. M.
Combined effects of maltose and deoxyglucose on fluorodinitrobenzene inactivation of sugar transport in erythrocytes (282) 326
- Lanyi, J. K.
Studies of the electron transport chain of extremely halophilic bacteria. VIII. Respiration-dependent detergent dissolution of cell envelopes (282) 439
- Läuger, P., see Trissl, H.-W. (282) 40
- Lester, R., see Hill, M. W. (282) 18
- Lichstein, H. C., see Becker, J. M. (282) 409
- Lippert, J. L. and Peticolas, W. L.
Raman active vibrations in long chain fatty acids and phospholipid sonicates (282) 8
- London, Y.
Preparation of purified myelin from ox intradural spinal roots by rate-isopycnic zonal centrifugation (282) 195
- Lossen, O.
A sequential dialysis method for measuring

- permeability coefficients of phospholipid vesicles (282) 31
- Luly, P., Barnabei, O. and Tria, E.
Hormonal control in vitro of plasma membrane-bound (Na^+ - K^+)-ATPase of rat liver (282) 447
- Maffly, R. H., see Coplon, N. S. (282) 250
- Mandel, L. J. and Curran, P. F.
Chloride flux via a shunt pathway in frog skin: Apparent exchange diffusion (282) 258
- Maruyama, T. and Hoshi, T.
The effect of D-glucose on the electrical potential profile across the proximal tubule of newt kidney (282) 214
- Matthews, R. H.
Characteristics of a transport system serving for the transfer of histidine into S37 ascites tumor cells (282) 374
- Mawe, R. C., see Zipper, H. (282) 311
- Morero, R. D., Bloj, B., Farías, R. N. and Trucco, R. E.
The allosteric transitions from membrane-bound enzymes: Behavior of erythrocyte acetylcholinesterase from fat-deficient rats (282) 157
- Nahrwold, D. L., see Thomas, A. J. (282) 210
- Nozawa, Y. and Thompson Jr, G. A.
Studies of membrane formation in Tetrahymena pyriformis. V. Lipid incorporation into various cellular membranes of stationary phase cells, starving cells, and cells treated with metabolic inhibitors (282) 93
- Ohki, S.
Membrane potential of phospholipid bilayers: Ion concentration and pH difference (282) 55
- Papahadjopoulos, D., see Kimelberg, H. K. (282) 277
- Peticolas, W. L., see Lippert, J. L. (282) 8
- Pfeiler, E. and Kirschner, L. B.
Studies on gill ATPase of rainbow trout (*Salmo gairdneri*) (282) 301
- Pisetsky, D., see Abramson, M. B. (282) 80
- Podevin, R. A. and Boumendil-Podevin, E. F.
Effects of temperature, medium K^+ , ouabain and ethacrynic acid on transport of electrolytes and water by separated renal tubules (282) 234
- Redman, C. M.
Proteolipid involvement in human erythrocyte membrane function (282) 123
- Rose, R. C., see Thomas, A. J. (282) 210
- Roy-Burman, S. and Visser, D. W.
Transport studies of showdomycin, nucleosides and sugars in *Escherichia coli* B and in showdomycin-resistant mutants (282) 383
- Sachs, G., see Simon, B. (282) 293
- Sananes, L., see Villegas, L. (282) 205
- Schlatter, Ch., see Kramer, R. (282) 146
- Schnell, K. F.
On the mechanism of inhibition of the sulfate transfer across the human erythrocyte membrane (282) 265
- Simon, B., Kinne, R. and Sachs, G.
The presence of a bicarbonate-stimulated ATPase in pancreatic tissue (282) 293
- Simons, R.
Voltage current characteristics of bipolar and three layer fixed charge membranes (282) 72
- Sood, C. K., Sweet, C. and Zull, J. E.
Interaction of kidney (Na^+ - K^+)-ATPase with phospholipid model membrane systems (282) 429
- Stevenson, F. K.
The immunological demonstration of an association between maltase activity and proximal tubular cell borders in the rabbit kidney (282) 226
- Sweet, C., see Sood, C. K. (282) 429
- Thomas, A. J., Nahrwold, D. L. and Rose, R. C.
Detergent action of sodium taurocholate on rat gastric mucosa (282) 210
- Thompson, Jr, G. A., see Nozawa, Y. (282) 93
- Tria, E., see Luly, P. (282) 447
- Trissl, H.-W., and Läger, P.
Photoelectric effects at lipid bilayer membranes: Theoretical models and experimental observations (282) 40
- Trucco, R. E., see Morero, R. D. (282) 157
- Villegas, L. and Sananes, L.
Intercellular space conductance in frog gastric mucosa (282) 205
- Visser, D. W., see Roy-Burman, S. (282) 383
- Wenner, C. E., see Kemp, G. (282) 1
- Zadunaisky, J. A.
Sodium activation of chloride transport in the frog cornea (282) 255
- Zahler, P., see Kramer, R. (282) 146
- Zipper, H. and Mawe, R. C.
The exchange and maximal net flux of glucose across the human erythrocyte. I. The effect of insulin, insulin derivatives and small proteins (282) 311
- Zull, J. E., see Sood, C. K. (282) 429
