

AUTHOR INDEX

- Abood, L.G., Salem, Jr., N., MacNeil, M., Bloom, L. and Abood, M.E.
Enhancement of opiate binding by various molecular forms of phosphatidylserine and inhibition by other unsaturated lipids (468) 51
- Abood, M.E., see Abood, L.G. (468) 51
- Alonso, G.L., Arrigó, D.M., Terradas, S.E., Nikanov, J.M., Nespral, D. and Palomba, S.E.
Calcium uptake, calcium release and adenosine triphosphatase activity in sarcoplasmic reticulum fragments deposited on millipore filters (468) 31
- Arrigó, D.M., see Alonso, G.L. (468) 31
- Asher, I.M. and Levin, I.W.
Effects of temperature and molecular interactions on the vibrational infrared spectra of phospholipid vesicles (468) 63
- Atkins, G.L. and Gardner, M.L.G.
The computation of saturable and linear components of intestinal and other transport kinetics (468) 127
- Bangham, A.D., see Kaethner, T.M. (468) 157
- Bater, A.J. and Venables, W.A.
The characterisation of inducible dehydrogenases specific for the oxidation of D-alanine, aldehydoxy-D-proline, choline and sarcosine as peripheral membrane proteins in *Pseudomonas aeruginosa* (468) 209
- Benz, R. and Luger, P.
Transport kinetics of dipicrylamine through lipid bilayer membranes. Effects of membrane structure (468) 245
- Bercovici, T., see Sigrist-Nelson, K. (468) 163
- Blackman, R., see Lawaczeck, R. (468) 411
- Bloom, L., see Abood, L.G. (468) 51
- Blostein, R., see Reichstein, E. (468) 502
- Bonting, S.L., see Schnetkamp, P.P.M. (468) 259
- Bornet, E.P., Entman, M.L., van Winkle, W.B., Schwartz, A., Lehotay, D.C. and Levey, G.S.
Cyclic AMP modulation of calcium accumulation by sarcoplasmic reticulum from fast skeletal muscle (468) 188
- Brailovsky, C.A., see Nigam, V.N. (468) 472
- Bresler, V.M., see Nikiforov, A.A. (468) 100
- Bresler, V.M. and Nikiforov, A.A.
Double dependence of organic acid active transport in proximal tubules of surviving frog kidney on sodium ions. I. Influence of sodium ions in bath medium on the uptake and run out of fluorescein and uranin (468) 81
- Brown, L.R. and Wuthrich, K.
NMR and ESR studies of the interactions of cytochrome c with mixed cardiolipin-phosphatidylcholine vesicles (468) 389
- Burckhardt, G.
Non-linear relationship between fluorescence and membrane potential (468) 227
- Busto-Latorre, P., see Simon, S.A. (468) 378
- Candia, O.A. and Reinach, P.S.
Sodium washout kinetics across inner and outer barriers of the isolated frog skin epithelium (468) 341
- Carvalho, A.P., see Carvalho, C.A.M. (468) 21
- Carvalho, C.A.M. and Carvalho, A.P.
Fluorimetric monitoring of calcium binding to sarcoplasmic reticulum membranes (468) 21
- Chazov, E.I., see Sharov, V.G. (468) 495
- Chyn, T. and Martonosi, A.
Chemical modification of sarcoplasmic reticulum membranes (468) 114
- Cone, R.A., see Szuts, E.Z. (468) 194
- Corcia, A., see Garcia-Diaz, J.F. (468) 177
- Curatolo, W., Small, D.M. and Shipley, G.G.
Phase behavior and structural characteristics of hydrated bovine brain gangliosides (468) 11
- Daemen, F.J.M., see Schnetkamp, P.P.M. (468) 259
- De Kruijff, B. and Wirtz, K.W.A.
Induction of a relatively fast transbilayer movement of phosphatidylcholine in vesicles. A ^{13}C NMR study (468) 318

- DiCorleto, P.E., Fakharzadeh, F.F., Searles, L.L. and Zilversmit, D.B.
Stimulation by acidic phospholipid of protein-catalyzed phosphatidylcholine transfer (468) 296
- Entman, M.L., see Bornet, E.P. (468) 188
- Essig, A., see Wolff, D. (468) 271
- Fakharzadeh, F.F., see DiCorleto, P.E. (468) 296
- Feinstein, M.B., Henderson, E.G. and Sha'afi, R.I.
The effects of alterations of transmembrane Na^+ and K^+ gradients by ionophores (nigericin, monensin) on serotonin transport in human blood platelets (468) 284
- Garcia-Diaz, J.F. and Corcia, A.
Electrical changes in isolated rat jejunum induced by hypertonicity (468) 177
- Gardner, M.L.G., see Atkins, G.L. (468) 127
- Gitler, C., see Sigrist-Nelson, K. (468) 163
- Hagen, I., Solum, N.O. and Olsen, T.
Membrane alterations in connection with the release reaction in human platelets as studied by the lactoperoxidase-iodination technique and by agglutination with bovine factor VIII-related protein (468) 1
- Hauser, H., Hinckley, C.C., Krebs, J., Levine, B.A., Phillips, M.C. and Williams, R.J.P.
The interaction of ions with phosphatidylcholine bilayers (468) 364
- Hemmaplardh, D. and Morgan, E.H.
The role of calcium in transferrin and iron uptake by reticulocytes (468) 423
- Henderson, E.G., see Feinstein, M.B. (468) 284
- Hinckley, C.C., see Hauser, H. (468) 364
- Jensen, P. and Rasmussen, H.
The effect of A23187 upon calcium metabolism in the human lymphocyte (468) 146
- Kaethner, T.M. and Bangham, A.D.
Selective compartmentation of the hydration products of carbon dioxide in liposomes and its role in regulating water movement (468) 157
- Kainosho, M., see Lawaczek, R. (468) 411
- Kitajima, Y. and Thompson, Jr., G.A.
Self-regulation of membrane fluidity. The effect of saturated normal and methoxy fatty acid supplementation on Tetrahymena membrane physical properties and lipid composition (468) 73
- Korppaibool, S., see Pholpramool, C. (468) 353
- Krebs, J., see Hauser, H. (468) 364
- Läuger, P., see Benz, R. (468) 245
- Lawaczek, R., Blackman, R. and Kainosho, M.
Ion permeation across the bilayer of annealed phosphatidylcholine vesicles at elevated temperatures. Concentration dependence and the micelle-bilayer dynamic equilibrium (468) 411
- Lehotay, D.C., see Bornet, E.P. (468) 188
- Levey, G.S., see Bornet, E.P. (468) 188
- Levin, I.W., see Asher, I.M. (468) 63
- Levin, I.W., see Yellin, N. (468) 490
- Levine, B.A., see Hauser, H. (468) 364
- Ligler, F.S. and Robinson, G.B.
A new method for the isolation of renal basement membranes (468) 327
- MacNeil, M., see Abood, L.G. (468) 51
- Martonosi, A., see Chyn, T. (468) 114
- Miller, R.H., see Schullery, S.E. (468) 451
- Morgan, E.H., see Hemmaplardh, D. (468) 423
- Morgan, E.H., see Van Bockxmeer, F.M. (468) 437
- Nespral, D., see Alonso, G.L. (468) 31
- Nigam, V.N. and Brailovsky, C.A.
Disposition of glycoproteins in plasma membrane of cultured rat embryonic fibroblasts (468) 472
- Nikanov, J.M., see Alonso, G.L. (468) 31
- Nikiforov, A.A. and Bresler, V.M.
Double dependence of organic acid active transport in proximal tubules of surviving frog kidney on sodium ions. II. Relationship between counter-flows of fluorescein and sodium ion across cell layer (468) 100
- Nikiforov, A.A., see Bresler, V.M. (468) 81
- Novak-Hofer, I. and Siegenthaler, P.A.
Two dimensional separation of chloroplast membrane proteins by isoelectric focusing and electrophoresis in sodium dodecyl sulphate (468) 461
- Olsen, T., see Hagen, I. (468) 1
- Palomba, S.E., see Alonso, G.L. (468) 31
- Phillips, M.C., see Hauser, H. (468) 364

- Pholpramool, C. and Korppaibool, S.
Ionic dependence of the resting membrane potential of rabbit lacrimal gland in vitro (468) 353
- Rasmussen, H., see Jensen, P. (468) 146
- Reichstein, E. and Blostein, R.
Decreased iodination of the red cell surface following phospholipase C treatment (468) 502
- Reinach, P.S., see Candia, O.A. (468) 341
- Rice, W.R. and Steck, T.L.
Pyruvate transport into inside-out vesicles isolated from human erythrocyte membranes (468) 305
- Robinson, G.B., see Ligler, F.S. (468) 327
- Saks, V.A., see Sharov, V.G. (468) 495
- Salem, Jr., N., see Abood, L.G. (468) 51
- Schnetkamp, P.P.M., Daemen, F.J.M. and Bonting, S.L.
Biochemical aspects of the visual process. XXXVI. Calcium accumulation in cattle rod outer segments. Evidence of a calcium exchange carrier in the rod sac membrane (468) 259
- Schullery, S.E.
Permeability of iodide in multilamellar liposomes modeled by two compartments and a reservoir (468) 238
- Schullery, S.E. and Miller, R.H.
Binding of uranyl to phosphatidylcholine liposomes. Liposomes aggregation effect on surface area (468) 451
- Schwartz, A., see Bornet, E.P. (468) 188
- Searles, L.L., see DiCorleto, P.E. (468) 296
- Sha'afi, R.I., see Feinstein, M.B. (468) 284
- Sharov, V.G., Saks, V.A., Smirnov, V.N. and Chazov, E.I.
An electric microscopic histochemical investigation of the localization of creatine phosphokinase in heart cells (468) 495
- Shipley, G.G., see Curatolo, W. (468) 11
- Siegenthaler, P.A., see Novak-Hofer, I. (468) 461
- Sigrist, H., see Sigrist-Nelson, K. (468) 163
- Sigrist-Nelson, K., Sigrist, H., Bercovici, T. and Gitler, C.
Intrinsic proteins of the intestinal microvillus membrane. Iodonaphthylazide labeling studies (468) 163
- Simon, S.A., Stone, W.L. and Busto-Latorre, P.
A thermodynamic study of the partition of n-hexane into phosphatidylcholine and phosphatidylcholine-cholesterol bilayers (468) 378
- Small, D.M., see Curatolo, W. (468) 11
- Smirnov, V.N., see Sharov, V.G. (468) 495
- Solum, N.O., see Hagen, I. (468) 1
- Steck, T.L., see Rice, W.R. (468) 305
- Stone, W.L., see Simon, S.A. (468) 378
- Szuts, E.Z. and Cone, R.A.
Calcium content of frog rod outer segments and discs (468) 194
- Terradas, S.E., see Alonso, G.L. (468) 31
- Thompson, Jr., G.A., see Kitajima, Y. (468) 73
- Van Bockxmeer, F.M. and Morgan, E.H.
Identification of transferrin receptors in reticulocytes (468) 437
- Van Winkle, W.B., see Bornet, E.P. (468) 188
- Venables, W.A., see Bater, A.J. (468) 209
- Williams, R.J.P., see Hauser, H. (468) 364
- Wirtz, K.W.A., see De Kruijff, B. (468) 318
- Wolff, D. and Essig, A.
Kinetics of bidirectional active sodium fluxes in the toad bladder (468) 271
- Wright, E.M.
Effects of bicarbonate and other buffers on choroid plexus Na/K pump (468) 486
- Wüthrich, K., see Brown, L.R. (468) 389
- Yellin, N. and Levin, I.W.
Cooperative unit size in the gel-liquid crystalline phase transition of dipalmitoyl phosphatidylcholine-water multilayers. An estimate from Raman spectroscopy (468) 490
- Zilversmit, D.B., see DiCorleto, P.E. (468) 296
