

AUTHOR INDEX

- Aull, F.
Saturation behavior of ascites tumor cell chloride exchange in the presence of gluconate (554) 538
- Barton, N.W. and Rosenberg, A.
Accessibility of sialo components in a murine tumor cell to extracellular N-acetylneuraminase glycohydrolase (sialidase) (554) 125
- Blake, I.O.
The effect of cell excision and microelectrode perforation on membrane resistance measurements of *Nitella translucens* (554) 62
- Bogé, G., see Crane, R.K. (554) 264
- Brown, A.M.
Evidence for a magnesium- and ATP-dependent calcium extrusion pump in dog erythrocytes (554) 195
- Burrill, P.H., see Tsuboi, K.K. (554) 234
- Caplan, S.R., see Eisenbach, M. (554) 269
- Caplan, S.R., see Eisenbach, M. (554) 281
- Carnie, S., Israelachvili, J.N. and Pailthorpe, B.A.
Lipid packing and transbilayer asymmetries of mixed lipid vesicles (554) 340
- Caspar, D.L.D., see Melchior, V. (554) 204
- Caspers, J., Landuyt-Caufriez, M., Deleers, M. and Ruysschaert, J.M.
The effect of surface charge density on valinomycin- K^+ complex formation in model membranes (554) 23
- Coakley, W.T., see Crum, L.A. (554) 76
- Coakley, W.T., see Deeley, J.O.T. (554) 90
- Couraud, F., see Faucon, J.F. (554) 332
- Crane, R.K., Bogé, G. and Rigal, A.
Isolation of brush border membranes in vesicular form from the intestinal spiral valve of the small dogfish (*Scyliorhinus canicula*) (554) 264
- Crane, R.K., see Malathi, P. (554) 259
- Crum, L.A., Coakley, W.T. and Deeley, J.O.T.
Instability development in heated human erythrocytes (554) 76
- Crum, L.A., see Deeley, J.O.T. (554) 90
- Decad, G.M., see Hancock, R.E.W. (554) 323
- Deeley, J.O.T., see Crum, L.A. (554) 76
- Deeley, J.O.T., Crum, L.A. and Coakley, W.T.
The influence of temperature and incubation time on deformability of human erythrocytes (554) 90
- Deleers, M., see Caspers, J. (554) 23
- Deuticke, B., see Wilbers, K.H. (554) 388
- Deuticke, B., see Wilbers, K.H. (554) 400
- Dufourcq, J., see Faucon, J.F. (554) 332
- Eisenbach, M. and Caplan, S.R.
Interaction of purple membrane with solvents. II. Mode of interaction (554) 281
- Eisenbach, M., Caplan, S.R. and Tanny, G.
Interaction of purple membrane with solvents. I. Applicability of solubility parameter mapping (554) 269
- Fairclough, P., see Malathi, P. (554) 259
- Faucon, J.F., Dufourcq, J., Couraud, F. and Rochat, H.
Lipid-protein interactions. A comparative study of the binding of cardiotoxins and neurotoxins to phospholipid vesicles (554) 332
- Fiechter, A., see Schneider, H. (554) 309
- Forte, J.G., see Lee, H.C. (554) 375
- Fuhrmann, G.F., see Schneider, H. (554) 309
- Gahmberg, C.G., see Jokinen, M. (554) 114
- Garnier, J., see Salesse, R. (554) 102
- Gastineau, D.A., see Nichols, W.L. (554) 293
- Gebhardt, C., see Krbecek, R. (554) 1
- Gruler, H., see Krbecek, R. (554) 1
- Gutowicz, J. and Modrzycka, T.
Interaction of rabbit muscle aldolase with phospholipid liposomes (554) 358
- Haest, C.W.M., see Wilbers, K.H. (554) 388
- Haest, C.W.M., see Wilbers, K.H. (554) 400
- Hancock, R.E.W., Decad, G.M. and Nikaido, H.
Identification of the protein producing

- transmembrane diffusion pores in the outer membrane of *Pseudomonas aeruginosa* PA01 (554) 323
- Hase, J.I., see Mitsui, K.I. (554) 68
- Hladky, S.B., see Urban, B.W. (554) 410
- Hollingshead, C., see Melchior, V. (554) 204
- Israelachvili, J.N., see Carnie, S. (554) 340
- Jennings, M.L. and Passow, H.
Anion transport across the erythrocyte membrane, in situ proteolysis of band 3 protein, and cross-linking of proteolytic fragments by 4,4'-diisothiocyano dihydrostilbene-2,2'-disulfonate (554) 498
- Jokinen, M. and Gahmberg, C.G.
Phospholipid composition and external labeling of aminophospholipids of human EN(a-) erythrocyte membranes which lack the major sialoglycoprotein glycophorin A (554) 114
- Kinosita, Jr., K. and Tsong, T.Y.
Voltage-induced conductance in human erythrocyte membranes (554) 479
- Krbecek, R., Gebhardt, C., Gruler, H. and Sackmann, E.
Three dimensional microscopic surface profiles of membranes reconstructed from freeze etching electron micrographs (554) 1
- Kwong, L.K., see Tsuboi, K.K. (554) 234
- Landuyt-Caufriez, M., see Caspers, J. (554) 23
- Leblanc, G. and Le Grimellec, C.
Active K^+ transport in *Mycoplasma mycoides* var. Capri. Net and unidirectional K^+ movements (554) 156
- Leblanc, G. and Le Grimellec, C.
Active K^+ transport in *Mycoplasma mycoides* var. Capri. Relationships between K^+ distribution, electrical potential and ATPase activity (554) 168
- Lee, H.C. and Forte, J.G.
Asymmetric labeling of amino lipids in liposomes (554) 375
- Le Grimellec, C., see Leblanc, G. (554) 156
- Le Grimellec, C., see Leblanc, G. (554) 168
- Malathi, P., Preiser, H., Fairclough, P., Mallett, P. and Crane, R.K.
A rapid method for the isolation of kidney brush border membranes (554) 259
- Mallett, P., see Malathi, P. (554) 259
- Mann, K.G., see Nichols, W.L. (554) 293
- Matthews, R.H. and Zand, R.
Methionine transport in S37 cells: Substrate-dependent function of amino acid transport system A in exchange processes (554) 227
- McDonald, B.J., see Smith, R. (554) 133
- McMurchie, E.J. and Raison, J.K.
Membrane lipid fluidity and its effect on the activation energy of membrane-associated enzymes (554) 364
- Melchior, V., Hollingshead, C. and Caspar, D.L.D.
Divalent cations cooperativity stabilize close membrane contacts in myelin (554) 204
- Mitsui, K.I., Sekiya, T., Nozawa, Y. and Hase, J.I.
Alteration of human erythrocyte plasma membranes by perfringolysin O as revealed by freeze-fracture electron microscopy. (Studies on *Clostridium perfringens* exotoxins V) (554) 68
- Modrzycka, T., see Gutowicz, J. (554) 358
- Nichols, W.L., Gastineau, D.A. and Mann, K.G.
Isolation of human platelet and red blood cell plasma membrane proteins by preparative detergent electrophoresis (554) 293
- Nicolson, G.L. and Poste, G.
Lectin-mediated agglutination of murine lymphoma cells. Cell surface deformability and reversibility of agglutination by saccharides (554) 520
- Nikaido, H., see Hancock, R.E.W. (554) 323
- Nozawa, Y., see Mitsui, K.I. (554) 68
- Nozawa, Y., see Ohki, K. (554) 39
- Ohki, K., Nozawa, Y. and Ohnishi, S.-I.
Interaction of polyene antibiotics with sterols in phosphatidylcholine bilayer membranes as studied by spin probes (554) 39
- Ohnishi, S.-I., see Ohki, K. (554) 39
- Pailthorpe, B.A., see Carnie, S. (554) 340
- Passow, H., see Jennings, M.L. (554) 498
- Poste, G., see Nicolson, G.L. (554) 520
- Preiser, H., see Malathi, P. (554) 259
- Raison, J.K., see McMurchie, E.J. (554) 364
- Ralston, G.B., see White, M.D. (554) 469
- Rigal, A., see Crane, R.K. (554) 264
- Rochat, H., see Faucon, J.F. (554) 332
- Rosenberg, A., see Barton, N.W. (554) 125
- Ruysschaert, J.M., see Caspers, J. (554) 23

- Sackmann, E., see Krbecek, R., (554) 1
- Salesse, R. and Garnier, J.
Effects of drugs on pigeon erythrocyte membrane and asymmetric control of adenylate cyclase by the lipid bilayer (554) 102
- Schneider, H., Fuhrmann, G.F. and Fiechter, A.
Plasma membrane from *Candida tropicalis* grown on glucose or hexadecane. II. Biochemical properties and substrate-induced alterations (554) 309
- Schnetkamp, P.P.M.
Calcium translocation and storage of isolated intact cattle rod outer segments in darkness (554) 441
- Schwartz, S.M., see Tsuboi, K.K. (554) 234
- Segrest, J.P., Wilkinson, T.M. and Sheng, L.
Isolation of glycophorin with deoxycholate (554) 533
- Sekiya, T., see Mitsui, K.I. (554) 68
- Sheng, L., see Segrest, J.P. (554) 533
- Smith R. and McDonald, B.J.
Association of myelin basic protein with detergent micelles (554) 133
- Solomon, A.K., see Sze, H. (554) 180
- Strobel, G.A.
The relationship between membrane ATPase activity in sugarcane and heat-induced resistance to helminthosporoid (554) 460
- Strum, W.B.
Enzymatic reduction and methylation of folate following pH-dependent, carrier-mediated transport in rat jejunum (554) 249
- Sunshine, P., see Tsuboi, K.K. (554) 234
- Sze, H. and Solomon, A.K.
Calcium-induced potassium pathway in sided erythrocyte membrane vesicles (554) 180
- Takenawa, T., see Wada, E. (554) 148
- Tanny, G., see Eisenbach, M. (554) 269
- Treanor, L.L., see Wilson, F.A. (554) 430
- Tsong, T.Y., see Kinoshita, Jr., K. (554) 479
- Tsuboi, K.K., Schwartz, S.M., Burrill, P.H., Kwong, L.K. and Sunshine, P.
Sugar hydrolases of the infant rat intestine and their arrangement on the brush border membrane (554) 234
- Tsumita, T., see Wada, E. (554) 148
- Urban, B.W. and Khadky, S.B.
Ion transport in the simplest single file pore (554) 410
- Von Bentheim, M., see Wilbers, K.H. (544) 388
- Von Bentheim, M., see Wilbers, K.H. (554) 400
- Wada, E., Takenawa, T. and Tsumita, T.
A defect of the myo-inositol maintenance mechanism is the lens of hereditary cataract mice (554) 148
- Warachina, A.
Spectral analyses of absorption changes associated with the nerve excitation in dye-stained crab nerve (554) 51
- White, M.D. and Ralson, G.B.
The 'hollow cylinder' protein of erythrocyte membranes (554) 469
- Wilbers, K.H., Haest, C.W.M., von Bentheim, M. and Deuticke, B.
Influence of enzymatic phospholipid cleavage on the permeability of the erythrocyte membrane. I. Transport of non-electrolytes via the lipid domain (554) 388
- Wilbers, K.H., Haest, C.W.M., von Bentheim and Deuticke, B.
Influence of enzymatic phospholipid cleavage on the permeability of the erythrocyte membrane. II. Protein-mediated transfer of monosaccharides and anions (554) 400
- Wilkinson, T.M., see Segrest, J.P. (554) 533
- Wilson, F.A. and Treanor, L.L.
Glycodeoxycholate transport in brush border membrane vesicles isolated from rat jejunum and ileum (554) 430
- Zand, R., see Matthews, R.H. (554) 227
