

AUTHOR INDEX

- Andersen, J.P., le Maire, M. and Møller, J.V.
Properties of detergent-solubilized and
membranous $(\text{Ca}^{2+} + \text{Mg}^{2+})$ -activated
ATPase from sarcoplasmic reticulum as
studied by sulfhydryl reactivity and ESR
spectroscopy. Effect of protein-protein
interactions (603) 84
- Baxendale, L.M., see Diez de los Rios, A.
(603) 209
- Benedetto, J.P., see Berthillier, G. (603) 245
- Berthillier, G., Benedetto, J.P. and Got, R.
Présence de glycosyltransferases à accep-
teurs chromatiniens dans les membranes
nucléaires d'hépatocytes de singe (603)
245 (The presence of glycosyltransferases
on chromatin acceptors in monkey liver
nuclear membranes)
- Birrell, G.B., Boyd, S.A., Keana, J.F.W. and
Griffith, O.H.
Transverse motion of chlorophyll deriva-
tives in phospholipid bilayers (603) 213
- Bonting, S.L., see Drenthe, E.H.S. (603) 117
- Bonting, S.L., see Drenthe, E.H.S. (603) 130
- Bösch, C., Brown, L.R. and Wüthrich, K.
Physiochemical characterization of glu-
cagon-containing lipid micelles (603) 298
- Boyd, S.A., see Birrell, G.B. (603) 213
- Brown, L.R., see Bösch, C. (603) 298
- Buckingham, L., see Duncan, J.L. (603) 278
- Burnell, E.E., Cullis, P.R. and de Kruijff, B.
Effects of tumbling and lateral diffusion
on phosphatidylcholine model membrane
 ^{31}P -NMR lineshapes (603) 63
- Christiansen, C., see Esmann, M. (603) 1
- Crain, R., see Shaw, A. (603) 313
- Cullis, P.R., see Burnell, E.E. (603) 63
- Cybulski, R.L., see Fry, D.W. (603) 157
- Daemen, F.J.M., see Drenthe, E.H.S. (603)
117
- Daemen, F.J.M., see Drenthe, E.H.S. (603)
130
- De Gier, J., see Mombers, C. (603) 52
- De Kruijff, B., see Burnell, E.E. (603) 63
- Demel, R.A., see Kozubek, A. (603) 220
- Demel, R.A., see Mombers, C. (603) 52
- Diez de los Rios, A., Baxendale, L.M. and
McD. Armstrong, W.
Cytochalasin B does not stimulate sugar
uptake into small intestine of *Necturus* or
chick (603) 209
- Donker-Koopmans, W., see Hollemans, M.
(603) 171
- Drenthe, E.H.S., Bonting, S.L. and Daemen,
F.J.M.
Transbilayer distribution of phospho-
lipids in photoreceptor membranes stud-
ied with various phospholipases (603)
117
- Drenthe, E.H.S., Klompmakers, A.A., Bont-
ing, S.L. and Daemen, F.J.M.
Transbilayer distribution of phospho-
lipids in photoreceptor membranes stud-
ied with trinitrobenzenesulfonate alone
and in combination with phospholipase D
(603) 130
- Duncan, J.L. and Buckingham, L.
Resistance to streptolysin O in mamma-
lian cells treated with oxygenated deriva-
tives of cholesterol. Cholesterol content
of resistant cells and recovery of strepto-
lysin O sensitivity (603) 278
- Duval, D., see Gagne, D. (603) 27
- Esmann, M., Christiansen, C., Karlsson,
K.-A., Hansson, G.C. and Skou, J.C.
Hydrodynamic properties of solubilized
 $(\text{Na}^+ + \text{K}^+)\text{-ATPase}$ from rectal glands of
Squalus acanthias (603) 1
- Eyring, H., see Kaneshina, S. (603) 237
- Farrar, G.H., Uhlenbruck, G. and Holz, G.
Comparison of isolated peanut agglutinin
receptor glycoproteins from human, bo-
vine and porcine erythrocyte membranes
(603) 186
- Fischbarg, J., Hofer, G.L. and Koatz, R.A.
Priming of the fluid pump by osmotic

- gradients across rabbit corneal endothelium (603) 199
- Freedman, R.B., see Kaderbhai, M.A. (603) 366
- Fry, D.W., Cybulski, R.L. and Goldman, I.D. K^+ -induced alterations of energetics and exchange diffusion in the carrier-mediated transport of the folic acid analog, methotrexate, in Ehrlich ascites tumor cells (603) 157
- Gagne, D., Homo, F. and Duval, D. Steroid-induced inhibition of nucleoside uptake in isolated mouse tymocytes (603) 27
- Goldman, I.D., see Fry, D.W. (603) 157
- Got, R., see Berthillier, G. (603) 245
- Griffith, O.H., see Birrell, G.B. (603) 213
- Grosse, R., Spitzer, E., Kupriyanov, V.V., Saks, V.A. and Repke, K.R.H. Coordinate interplay between ($Na^+ + K^+$)-ATPase and creatine phosphokinase optimizes (Na^+/K^+)-antiport across the membrane of vesicles formed from the plasma membrane of cardiac muscle cell (603) 142
- Haeffner, E.W., Kolbe, K., Schroeter, D. and Paweletz, N. Plasma membrane heterogeneity in ascites tumor cells. Isolation of a light and a heavy membrane fraction of the glycogen-free Ehrlich-Létré substrain (603) 36
