

AUTHOR INDEX

- Acevedo, F., Lundahl, P. and Fröman, G.
The stereospecific D-glucose transport protein in cholate extracts of human erythrocyte membranes. Molecular sieve chromatography and estimation of molecular weight (648) 254
- Auffret, C.A. and Hanke, D.E.
Improved preparation and assay and some characteristics of Cl^- -ATPase activity from *Limonium vulgare* (648) 186
- Bali, A., see Gupta, C.M. (648) 192
- Barstad, A.W., see Horton, A.W. (648) 107
- Bolewicz, L.C., see Horton, A.W. (648) 107
- Bourguet, J., see Parisi, M. (648) 267
- Braun, A.G. and Buckner, C.A.
Evidence of far ultraviolet light-mediated changes in plasma membrane structure and function (648) 263
- Brunner, G., see Wieser, R. (648) 275
- Buckingham, L., see Duncan, J.L. (648) 6
- Buckner, C.A., see Braun, A.G. (648) 263
- Butts, C.K., see Horton, A.W. (648) 107
- Byrd, R.A., see Jarrell, H.C. (648) 80
- Caron, M. and Picard, J.
Identification of liver cell membrane galactoglycoproteins involved in the process of insulin binding (648) 137
- Cartaud, J., see Rousset, A. (648) 169
- Cheah, A.M.
Effect of long chain unsaturated fatty acids on the calcium transport of sarcoplasmic reticulum (648) 113
- Chevalier, J., see Parisi, M. (648) 267
- Chrzesczyk, A., Wishnia, A. and Springer, C.S., Jr.
Evidence for cooperative effects in the binding of polyvalent metal ions to pure phosphatidylcholine bilayer vesicle surfaces (648) 28
- Colombini, M. and Wu, C.Y.
A food dye, erythrosine B, increases membrane permeability to calcium and other ions (648) 49
- Cuppoletti, J., see Green, F.A. (648) 225
- De Gier, J., see Van Echteld, C.J.A. (648) 287
- De Kruijff, B., see Van Echteld, C.J.A. (648) 287
- Deslauriers, R., see Jarrell, H.C. (648) 80
- De Smedt, H. and Kinne, R.
Temperature dependence of solute transport and enzyme activities in hog renal brush border membrane vesicles (648) 247
- Devaux, P.F., see Rousset, A. (648) 169
- Dhawan, S., see Gupta, C.M. (648) 192
- Drücke, T., see Lacour, B. (648) 151
- Duncan, J.L. and Buckingham, L.
Effect of streptolysin S on liposomes. Influence of membrane lipid composition on toxin action (648) 6
- Dunham, P.B., see Mercer, R.W. (648) 63
- Ekiel, I., see Jarrell, H.C. (648) 80
- Ellory, J.C., see Richards, D.E. (648) 284
- Foley, J.E. and Gliemann, J.
Accumulation of 2-deoxyglucose against its concentration gradient in rat adipocytes (648) 100
- Fröman, G., see Acevedo, F. (648) 254
- Funck-Brentano, J.-L., see Lacour, B. (648) 151
- Garrahan, P.J., see Rossi, J.P.F.C. (648) 145
- Gliemann, J., see Foley, J.E. (648) 100
- Glynn, I.M., see Richards, D.E. (648) 284
- Golecki, J.R., see Wieser, R. (648) 275
- Green, F.A., Jung, C.Y., Cuppoletti, J. and Owens, N.
Hypertonic cryohemolysis and the cytoskeletal system (648) 225
- Griffin, C.C., see Lavi, L.E. (648) 1
- Gupta, C.M., Bali, A. and Dhawan, S.
Modification of phospholipid structure results in greater stability of liposomes in serum (648) 192
- Hanke, D.E., see Auffret, C.A. (648) 186
- Hermiller, J.B., see Lavi, L.E. (648) 1
- Horton, A.W., Bolewicz, L.C., Barstad, A.W. and Butts, C.K.
Comparison of the promoting activity of pristane and *n*-alkanes in skin carcinogenesis with their physical effects on micellar models of biological membranes (648) 107
- Jarrell, H.C., Byrd, R.A., Deslauriers, R., Ekiel, I. and Smith, I.C.P.
Characterization of the phase behavior of phospholipids in model and biological membranes by ^{31}P -NMR (648) 80
- Jung, C.Y., see Green, F.A. (648) 225
- Khodorov, B.I., Neumcke, B., Schwarz, W. and Stämpfli, R.
Fluctuation analysis of Na^+ channels modified by batrachotoxin in myelinated nerve (648) 93
- Kinne, R., see De Smedt, H. (648) 247
- Kleinman, J.G., Ware, R.A. and Schwartz, J.H.
Anion transport regulates intracellular pH in renal cortical tissue (648) 87
- Lacour, B., Drücke, T., Pierandrei, E., Nabarra, B. and Funck-Brentano, J.-L.
Rat enterocyte Na^+ transport in vitro. Action of para-

- thyroid hormone and calcitonin (648) 151
- Lavi, L.E., Hermiller, J.B. and Griffin, C.C.
Carrier-mediated transport of D-ribose by *Rhodotorula glutinis* (648) 1
- Leach, G.J. and Spitzer, J.A.
Endotoxin-induced alterations in glucose transport in isolated adipocytes (648) 71
- Leunissen-Bijvelt, J., see Van Echteld, C.J.A. (648) 287
- Lundahl, P., see Acevedo, F. (648) 254
- Mercer, R.W. and Dunham, P.B.
Biphasic effect of orthophosphate on the (Na, K)-pump of human red cells (648) 63
- Michaelis, E.K., see Michaelis, M.L. (648) 55
- Michaelis, M.L. and Michaelis, E.K.
Effects of 2-chloroadenosine on electrical potentials in brain synaptic membrane vesicles (648) 55
- Mishima, K.
Depolarized light-scattering studies of bilayer structures in phospholipid vesicles (648) 162
- Montoreano, R., see Parisi, M. (648) 267
- Moreto, M., Planas, J.M. and Naftalin, R.J.
Effects of secretagogues on the K^+ permeability of mucosal and serosal borders of rabbit colonic mucosa (648) 215
- Nabarra, B., see Lacour, B. (648) 151
- Naftalin, R.J., see Moreto, M. (648) 215
- Neumcke, B., see Khodorov, B.I. (648) 93
- Ohki, S., see Ohsawa, K. (648) 206
- Ohsawa, K., Ohshima, H. and Ohki, S.
Surface potential and surface charge density of the cerebral-cortex synaptic vesicle and stability of vesicle suspension (648) 206
- Ohshima, H., see Ohsawa, K. (648) 206
- Okada, Y.
A study on concanavalin A binding to human erythrocytes (648) 120
- Owens, N., see Green, F.A. (648) 225
- Parisi, M., Montoreano, R., Chevalier, J. and Bourguet, J.
Cellular pH and water permeability control in frog urinary bladder. A possible action on the water pathway (648) 267
- Picard, J., see Caron, M. (648) 137
- Pierandrei, E., see Lacour, B. (648) 151
- Planas, J.M., see Moreto, M. (648) 215
- Plesner, L., see Plesner, I.W. (648) 231
- Plesner, I.W. and Plesner, L.
The steady-state kinetic mechanism of ATP hydrolysis catalyzed by membrane-bound ($Na^+ + K^+$)-ATPase from ox brain. IV. Rate constant determination (648) 231
- Rega, A.F., see Rossi, J.P.F.C. (648) 145
- Richards, D.E., Ellory, J.C. and Glynn, I.M.
Radiation inactivation of ($Na^+ + K^+$)-ATPase. A small target size for the K^+ -occluding mechanism (648) 284
- Rossi, J.P.F.C., Garrahan, P.J. and Rega, A.F.
Vanadate inhibition of active Ca^{2+} transport across human red cell membranes (648) 145
- Rousselet, A., Cartaud, J. and Devaux, P.F.
Effects of temperature, lipid modification and pH on the mobility of the major proteins of the receptor-rich membranes from *Torpedo marmorata* (648) 169
- Schellenberg, G.D. and Swanson, P.D.
Sodium-dependent and calcium-dependent calcium transport by rat brain microsomes (648) 13
- Schwartz, J.H., see Kleinman, J.G. (648) 87
- Schwarz, W., see Khodorov, B.I. (648) 93
- Scott, H.L., Jr.
Phase transitions in lipid bilayers. A theoretical model for phosphatidylethanolamine and phosphatidic acid bilayers (648) 129
- Smith, I.C.P., see Jarrell, H.C. (648) 80
- Spitzer, J.A., see Leach, G.J. (648) 71
- Springer, C.S., Jr., see Chrzesczyk, A. (648) 28
- Stämpfli, R., see Khodorov, B.I. (648) 93
- Swanson, P.D., see Schellenberg, G.D. (648) 13
- Thacher, S.M.
Transient phosphorylation by ATP of a 160 000 dalton protein in rod outer segments of *Bufo marinus* (648) 199
- Van Echteld, C.J.A., Van Stigt, R., De Kruijff, B., Leunissen-Bijvelt, J., Verkleij, A.J. and De Gier, J.
Gramicidin promotes formation of the hexagonal H_{II} phase in aqueous dispersions of phosphatidylethanolamine and phosphatidylcholine (648) 287
- Van Stigt, R., see Van Echteld, C.J.A. (648) 287
- Verkleij, A.J., see Van Echteld, C.J.A. (648) 287
- Ware, R.A., see Kleinman, J.G. (648) 87
- Wieser, R., Golecki, J.R. and Brunner, G.
Isolation of surface lectins of GH₃ cells from whole cells and isolated plasma membranes (648) 275
- Wishnia, A., see Chrzesczyk, A. (648) 28
- Wu, C.Y., see Colombini, M. (648) 49
