

AUTHOR INDEX

- Abe, H., see Yanase, M. (733) 95
 Allietta, M., see Tillack, T.W. (733) 15
 Alving, C.R., see Richards, R.L. (733) 249
 Ando, A., see Yanase, M. (733) 95
 André, J.C., see Viriot, M. (733) 34
 Arnold, K., see Herrmann, A. (733) 87
 Arrondo, J.L.R., see Prado, A. (733) 163
- Blume, A., see Kannenberg, E. (733) 111
 Bogonez, E., Machado, A. and Satrustegui, J.
 Ammonia accumulation in acetate-growing yeast (733) 234
 Boland, R., see De Boland, A.R. (733) 264
 Bragg, P.D., see Loo, T.W. (733) 274
 Brdiczka, D., see Knoll, G. (733) 102
 Brown, W.C., see Pickar, A.D. (733) 181
 Bruch, R.C. and Thayer, W.S.
 Differential effect of lipid peroxidation on membrane fluidity as determined by electron spin resonance probes (733) 216
 Bühring, H.J., Vaisius, A.C. and Faulstich, H.
 Membrane damage of liposomes by the mushroom toxin phallolysin (733) 117
- Carmona Ribeiro, A.M. and Chaimovich, H.
 Preparation and characterization of large dioctadecyldimethylammonium chloride liposomes and comparison with small sonicated vesicles (733) 172
 Chaimovich, H., see Carmona Ribeiro, A.M. (733) 172
 Chiovetti, R., Jr., see Kercret, H. (733) 65
 Cornell, B.A. and Separovic, F.
 Membrane thickness and acyl chain length (733) 189
 Crawford, N., see Stewart, D.I.H. (733) 154
- De Boland, A.R., Gallego, S. and Boland, R.
 Effects of vitamin D-3 on phosphate and calcium transport across and composition of skeletal muscle plasma cell membranes (733) 264
 De Kruijff, B., see Van der Steen, A.T.M. (733) 51
- Eaton, D.C., see LaBelle, E.F. (733) 194
 Eilam, Y.
 Membrane effects of phenothiazines in yeast. I. Stimulation of calcium and potassium fluxes (733) 242
 Ellory, J.C., see Smalley, C.E. (733) 283
 Emes, C.H., see Stewart, D.I.H. (733) 154
 Epand, R.M., see Ernandes, J.R. (733) 75
 Ernandes, J.R., Epand, R.M. and Schreier, S.
 Studies on the complex formed between glucagon and dipalmitoylphosphatidylcholine (733) 75
- Faulstich, H., see Bühring, H.J. (733) 117
 Fishman, P.H., see Richards, R.L. (733) 249
 Fountain, M.W., see Kercret, H. (733) 65
- Galla, H.-J., see Muller, H.-H. (733) 291
 Gallego, S., see De Boland, A.R. (733) 264
 Goni, F.M., see Prado, A. (733) 163
 Gonzales-Ros, J.M., see Paraschos, A. (733) 223
 Guillard, R., see Viriot, M. (733) 34
- Hansson, G.C.
 The subcellular localization of the glycosphingolipids in the epithelial cells of rat small intestine (733) 295
 Henry, J.E., see Shaw, J.M. (733) 1
 Herrmann, A., Pratsch, L., Arnold, K. and Lassmann, G.
 Effect of poly(ethylene glycol) on the polarity of aqueous solutions and on the structure of vesicle membranes (733) 87
 Hirsh, A.
 An alternative explanation for phase transitions observed in quick frozen calcium cardiolipin solution (733) 186
 Hoffmann, V., see Vogel, H. (733) 201
 Horio, M., see Yanase, M. (733) 95
- Jähnig, F., see Vogel, H. (733) 201
- Kannenberg, E., Blume, A., McElhaney, R.N. and Poralla, K.
 Monolayer and calorimetric studies of phosphatidylcholines containing branched-chain fatty acids and of their interactions with cholesterol and with a bacterial hopanoid in model membranes (733) 111
 Kauffmann, I., see Viriot, M. (733) 34
 Kawasaki, K., Sato, S.B. and Ohnishi, S.-I.
 Membrane fusion activity of reconstituted vesicles of influenza virus hemagglutinin glycoproteins (733) 286
 Kercret, H., Chiovetti, R., Jr., Fountain, M.W. and Segrest, J.P.
 Plasma membrane-mediated leakage of liposomes induced by interaction with murine thymocytic leukemia cells (733) 65
 Kendall, D.A., see Womack, M.D. (733) 210
 Knoll, G. and Brdiczka, D.
 Changes in freeze-fractured mitochondrial membranes correlated to their energetic state. Dynamic interactions of the boundary membranes (733) 102
 Konigsberg, I.R., see Shaw, J.M. (733) 1
- LaBelle, E.F. and Eaton, D.C.
 Amiloride-inhibited Na⁺ uptake into toad bladder microsomes is Na/H exchange (733) 194

- Langdon, R.G., see Shelton, R.L., Jr. (733) 25
- Lassmann, G., see Herrmann, A. (733) 87
- Lockau, W. and Pfeffer, S.
ATP-dependent calcium transport in membrane vesicles of the cyanobacterium, *Anabaena variabilis* (733) 124
- Loo, T.W., Stan-Lotter, H., MacKenzie, D., Molday, R.S. and Bragg, P.D.
Interaction of *Escherichia coli* F₁-ATPase with dicyclohexylcarbodiimide-binding polypeptide (733) 274
- Macarulla, J.M., see Prado, A. (733) 163
- MacDonald, R.C., see Womack, M.D. (733) 210
- Machado, A., see Bogonez, E. (733) 234
- MacKenzie, D., see Loo, T.W. (733) 274
- Martinez-Carrion, M., see Paraschos, A. (733) 223
- McElhaney, R.N., see Kannenberg, E. (733) 111
- Molday, R.S., see Loo, T.W. (733) 274
- Moran, R.E., see Tillack, T.W. (733) 15
- Morgan, E.H.
Chelator-mediated iron efflux from reticulocytes (733) 39
- Moss, J., see Richards, R.L. (733) 249
- Muller, H.-J. and Galla, H.-J.
Pressure variation of the lateral diffusion in lipid bilayer membranes (733) 291
- Nakanishi, T., see Yanase, M. (733) 95
- Nishimoto, A.Y., see Philipson, K.D. (733) 133
- Ohnishi, S.-I., see Kawasaki, K. (733) 286
- Okada, N., see Yanase, M. (733) 95
- Orita, Y., see Yanase, M. (733) 95
- Paraschos, A., Gonzales-Ros, J.M. and Martinez-Carrion, M.
Absorption filtration. A tool for the measurement of ion tracer flux in native membranes and reconstituted lipid vesicles (733) 223
- Pfeffer, S., see Lockau, W. (733) 124
- Philipson, K.D. and Nishimoto, A.Y.
ATP-dependent Na⁺ transport in cardiac sarcolemmal vesicles (733) 133
- Pickar, A.D. and Brown, W.C.
Capacitance of bilayers in the presence of lipophilic ions (733) 181
- Poralla, K., see Kannenberg, E. (733) 111
- Prado, A., Arrondo, J.L.R., Villena, A., Goni, F.M. and Macarulla, J.M.
Membrane surfactant interactions. The effect of Triton X-100 on sarcoplasmic reticulum vesicles (733) 163
- Pratsch, L., see Herrmann, A. (733) 87
- Resch, K., Schneider, S. and Szamel, M.
Characterization of functional domains of the lymphocyte plasma membrane (733) 142
- Richards, R.L., Fishman, P.H., Moss, J. and Alving, C.R.
Binding of cholera toxin and anti-ganglioside antibodies to gangliosides incorporated into preformed liposomes (733) 249
- Sato, S.B., see Kawasaki, K. (733) 286
- Satrústegui, J., see Bogonez, E. (733) 234
- Schneider, S., see Resch, K. (733) 142
- Schreier, S., see Ernandes, J.R. (733) 75
- Segrest, J.P., see Kercret, H. (733) 65
- Separovic, F., see Cornell, B.A. (733) 189
- Shaw, J.M., Henry, J.E., Shaw, K.V. and Konigsberg, I.R.
Order measurements in plasma membranes from Duchenne dystrophy fibroblasts (733) 1
- Shaw, K.V., see Shaw, J.M. (733) 1
- Shelton, R.L., Jr. and Langdon, R.G.
Reconstitution of glucose transport using human erythrocyte band 3 (733) 25
- Siest, G., see Viriot, M. (733) 34
- Smalley, C.E., Tucker, E.M., Ellory, J.C. and Young, J.D.
The solubilization of the L and M antigens from sheep red cell membranes (733) 283
- Smith, I.C.P., see Taylor, M.G. (733) 256
- Stan-Lotter, H., see Loo, T.W. (733) 274
- Stewart, D.I.H., Emes, C.H. and Crawford, N.
Preparation of a highly purified surface membrane fraction from rabbit polymorphonuclear leucocytes by high-voltage free-flow electrophoresis (733) 154
- Stümpel, J., see Vogel, H. (733) 201
- Szamel, M., see Resch, K. (733) 142
- Taraschi, T.F., see Van der Steen, A.T.M. (733) 51
- Taylor, M.G. and Smith, I.C.P.
The conformations of nitroxide-labelled fatty acid probes of membrane structure as studied by ²H-NMR (733) 256
- Thayer, W.S., see Bruch, R.C. (733) 216
- Tillack, T.W., Allietta, M., Moran, R.E. and Young, W.W., Jr
Localization of globoside and Forssman glycolipids on erythrocyte membranes (733) 15
- Tucker, E.M., see Smalley, C.E. (733) 283
- Vaisius, A.C., see Bühring, H.J. (733) 117
- Van der Steen, A.T.M., Taraschi, T.F., Voorhout, W.F. and De Kruijff, B.
Barrier properties of glycophorin-phospholipid systems prepared by different methods (733) 51
- Villena, A., see Prado, A. (733) 163
- Viriot, M., Guillard, R., Kauffmann, I., André, J.C. and Siest, G.
Pressure effects on the apparent viscosity of artificial dipalmitoylphosphatidylcholine and dimyristoylphosphatidylcholine and membranes using intramolecular excimer probe (733) 34
- Vogel, H., Jähnig, F., Hoffmann, V. and Stümpel, J.
The orientation of mellitin in lipid membranes. A polarized infrared spectroscopy study (733) 201
- Womack, M.D., Kendall, D.A. and MacDonald, R.C.
Detergent effects on enzyme activity and solubilization of lipid bilayer membranes (733) 210

Yanase, M., Orita, Y., Okada, N., Nakanishi, T., Horio, M.,
Ando, A. and Abe, H.

Decreased Na⁺-gradient-dependent D-glucose transport in
brush-border membrane vesicles from rabbits with experi-

mental Fanconi syndrome (733) 95

Young, J.D., see Smalley, C.E. (733) 283

Young, W.W., Jr., see Tillack, T.W. (733) 15
