

Publisher's Note

As of August 1st, 1994, the Oxford manuscript receiving centre for BBA will close. Authors intending to submit a manuscript to BBA are kindly requested to forward their contribution, together with a letter of submission, to one of the other receiving centres mentioned on the inside front cover of each issue. Manuscripts already dispatched to the Oxford office will be re-routed to one of these alternative receiving centres and the author will be notified accordingly.

Please also remember that authors submitting to BBA are encouraged to indicate, on a non-binding basis, their preference for the section of BBA in which they would like to see their paper published and to suggest the names of four or five potentially suitable reviewers.
