Information for Contributors

Regular Papers

Interpreting the effects of specific protein modification on antiport coupling mechanisms: the case of the aspartate/glutamate exchanger

R.M. Krupka (Canada)

Preferential association of membrane phospholipids with the human erythrocyte hexose transporter

S. Naderi, K. Doyle and D.L. Melchior (USA)

Sodium-independent carrier-mediated inositol transport in cultured renal epithelial (LLC-PK₁) cells

L.M. Russo, C.W. Marano, M.M. Hagee, K.V. Laughlin, A. Guy, S. Varimbi and J.M. Mullin (USA)

Evidence for an essential histidine residue located in the binding site of the cysteine-specific lysosomal transport protein

R.L. Pisoni and V.Q. Velilla (USA)

Molecular mechanism for the relative binding affinity to the intestinal peptide carrier. Comparison of three ACE-inhibitors: enalapril, enalaprilat, and lisinopril

P.W. Swaan, M.C. Stehouwer and J.J. Tukker

Docosahexaenoic acid-induced alteration of Thy-1 and CD8 expression on murine splenocytes

L.J. Jenski, G.M. Bowker, M.A. Johnson, W.D. Ehringer, T. Fetterhoff and W. Stillwell (USA)

Oleic acid uptake into rat and rabbit jejunal brush border membrane

C. Schoeller, M. Keelan, G. Mulvey, W. Stremmel and A.B.R. Thomson (Canada, Germany)

Lamellar-phase polymorphism in interdigitated bilayer assemblies

J.T. Mason, R.E. Cunningham and T.J. O'Leary (USA)

Interaction of free fatty acids with phospholipid bilayers

M. Langner, T. Isac and S.W. Hui (USA)

The effect of protoporphyrin on the susceptibility of human erythrocytes to oxidative stress: exposure to hydrogen peroxide

M. Williams, J.W.M. Lagerberg, J. Van Steveninck and J. Van der Zee (The Netherlands)

vii

Non-selective cation channels in cerebrovascular smooth muscle cells of adult rats

D.A. Mathers and X. Zhang (Canada)

89

Reconstitution of the *Neurospora crassa* plasma membrane H⁺-adenosine triphosphatase

L. Vigneron, G.A. Scarborough, J.-M. Ruyschaert and E. Goormaghtigh (Belgium, USA)

95

1

Structural interactions between α - and β -subunits of the gastric H,K-ATPase

K. Tyagarajan, D.C. Chow, A. Smolka and J.G. Forte (USA)

105

10

Heme as an optical probe for studying the interactions between calmodulin and the Ca²⁺-ATPase of the human erythrocyte membrane

A. Zaidi, E. Leclerc-L'Hostis, M.C. Marden, C. Poyart and L. Leclerc (France)

114

15

Characterisation of endoplasmic reticulum and plasma membrane Ca²⁺-ATPases in pancreatic β -cells and in islets of Langerhans

A. Váradi, E. Molnár and S.J.H. Ashcroft (UK)

119

23

Relation between membrane fluidity and signal transduction in the human megakaryoblastic cell line MEG-01

A. Schootemeijer, G. Gorter, L.G.J. Tertoolen, S.W. De Laat and J.-W.N. Akkerman (The Netherlands)

128

31

The effects of nitrous oxide on a glutamate-gated ion channel and their reversal by high pressure; a single channel analysis

A.G. Macdonald and R.L. Ramsey (UK)

135

39

Adenine nucleotide binding and photoincorporation in Glanzmann's thrombasthenia platelets

N.J. Greco, N.N. Tandon, B. Jackson and G.A. Jamieson (USA)

142

51

Uptake and passage of β -lactoglobulin, palmitic acid and retinol across the Caco-2 monolayer

P. Puyol, M.D. Perez, L. Sanchez, J.M. Ena and M. Calvo (Spain)

149

65

Collateral sensitivity of multidrug resistant cells to narcotic analgesics is due to effects on the plasma membrane

R. Callaghan and J.R. Riordan (Canada)

155

73

Proliferation of intracellular membrane structures upon homologous overproduction of cytochrome P-450 in *Candida maltosa*

81

<i>M. Ohkuma, S.M. Park, T. Zimmer, R. Menzel, F. Vogel, W.-H. Schunck, A. Ohta and M. Takagi (Japan, Germany)</i>	163	Identification of antitumor sulfonylurea binding proteins of HeLa plasma membranes <i>D.J. Morré, F.E. Wilkinson, J. Lawrence, N.M. Cho and M. Paulik (USA)</i>	237
Effect of the modifications of ionizable groups of amphotericin B on its ability to form complexes with sterols in hydroalcoholic media <i>J. Mazerski, J. Bolard and E. Borowski (Poland, France)</i>	170	Riboflavin uptake by rat liver basolateral membrane vesicles <i>H.M. Said, E. McCloud and N. Yanagawa (USA)</i>	244
Modification of fluid lipid and mobile protein fractions of reticulocyte plasma membranes affects agonist-stimulated adenylate cyclase. Application of the percolation theory <i>O.M. Zakharova, A.A. Rosenkranz and A.S. Sobolev (Russian Federation)</i>	177	Parasite-induced permeation of nucleosides in <i>Plasmodium falciparum</i> malaria <i>J.M. Upston and A.M. Gero (Australia)</i>	249
Calcium ions and interactions of pulmonary surfactant proteins SP-B and SP-C with phospholipids in spread monolayers at the air/water interface <i>S.G. Taneva and K.M.W. Keough (Canada)</i>	185	Solvent stabilized solution structures of galanin and galanin analogs, studied by circular dichroism spectroscopy <i>A. Öhman, P.-O. Lycksell, S. Andell, Ü. Langel, T. Bartfai and A. Gräslund (Sweden)</i>	259
Short Sequence-Papers		Comparison of phosphatidylcholines containing one or two docosahexaenoic acyl chains on properties of phospholipid monolayers and bilayers <i>M. Zerouga, L.J. Jenski and W. Stillwell (USA)</i>	266
Cloning of a cGMP-gated cation channel from mouse kidney inner medullary collecting duct <i>K.H. Karlson, F. Ciampolillo-Bates, D.E. McCoy, N.L. Kizer and B.A. Stanton (USA)</i>	197	EPR study of annexin V-cardiolipin Ca-mediated interaction in phospholipid vesicles and isolated mitochondria <i>F.M. Megli, M. Selvaggi, A. De Lisi and E. Quagliariello (Italy)</i>	273
Species differences in 5-HT _{2A} receptors: cloned pig and rhesus monkey 5-HT _{2A} receptors reveal conserved transmembrane homology to the human rather than rat sequence <i>M.P. Johnson, M. Baez, J.D. Kursar and D.L. Nelson (USA)</i>	201	Effect of sphingosine and stearylamine on the interaction of phosphatidylserine with calcium. A study using DSC, FT-IR and ⁴⁵ Ca ²⁺ -binding <i>F. López-García, J. Villalaín and J.C. Gómez-Fernández (Spain)</i>	279
Cloning of an organ of Corti anion exchanger 2 isoform with a truncated C-terminal domain <i>C. Negrini, M.N. Rivolta, F. Kalinec and B. Kachar (USA)</i>	207	Analysis of effects of corticotropin, forskolin and fluoride on activity of adenylate cyclase of bovine adrenal cortex <i>A. Juška and B. De Foresta (Lithuania, France)</i>	289
Regular Papers		Interaction of bovine heart pyruvate kinase with phospholipids <i>A. Dąbrowska, G. Terlecki, E. Czapińska and J. Gutowicz (Poland)</i>	299
Correct oligomerization is a prerequisite for insertion of the central molecular domain of staphylococcal α -toxin into the lipid bilayer <i>A. Valeva, M. Palmer, K. Hilgert, M. Kehoe and S. Bhakdi (Germany, UK)</i>	213	Alcohol inhibits the activation of NAD-linked dehydrogenases by calcium in brain and heart mitochondria <i>H.L. Li, R. Moreno-Sanchez and H. Rottenberg (USA)</i>	306
Ion channel formation by synthetic analogues of staphylococcal δ -toxin <i>I.D. Kerr, J. Dufourcq, J.A. Rice, D.R. Fredkin and M.S.P. Sansom (UK, France, USA)</i>	219	Increase in fluidity of human placental syncytiotrophoblastic brush-border membrane with advancement of gestational age: a fluorescence polarization study <i>P.K. Ghosh and M. Mukherjee (India)</i>	317
Dispersion state of phospholipids and fluorescence production with peroxidation in organic solvents: investigated by time-resolved fluorescence technique <i>J.-Y. Wang, K.-i. Suzuki, T. Fujisawa, T. Ueki and T. Kouyama (Japan)</i>	228	Target cell membrane sialic acid modulates both binding and fusion activity of influenza virus <i>M.C. Pedroso de Lima, J. Ramalho-Santos, D. Flasher, V.A. Slepishkin, S. Nir and N. Düzgüneş (USA, Portugal, Israel)</i>	323
		Electrokinetic charge of the anesthetic-induced bR ₄₈₀ and bR ₃₈₀ spectral forms of bacteriorhodopsin <i>S.G. Taneva, J.M.M. Caaveiro, I.B. Petkanchin and F.M. Goñi (Spain, Bulgaria)</i>	331

*Rapid Report**R.A. Brutyan, C. DeMaria and A.L. Harris (USA, Armenia)*

339

Horizontal 'solvent-free' lipid bimolecular membranes with two-sided access can be formed and facilitate ion channel reconstitution
