

Biomembranes

Cumulative Contents Volume 1512

Rapid reports

Amino acid distributions in integral membrane protein structures

M.B. Ulmschneider and M.S.P. Sansom (UK)

1

Involvement of transporter recruitment as well as gene expression in the substrate-induced adaptive regulation of amino acid transport system A

R. Ling, C.C. Bridges, M. Sugawara, T. Fujita, F.H. Leibach, P.D. Prasad and V. Ganapathy (Japan, USA)

15

Interaction of *N*-myristoyldimyristoylphosphatidylethanolamine with dimyristoylphosphatidylcholine investigated by differential scanning calorimetry: binary phase diagram

M. Ramakrishnan, D. Marsh and M.J. Swamy (Germany, India)

22

Regular papers

Phospholipid-cationic lipid interactions: influences on membrane and vesicle properties

R.B. Campbell, S.V. Balasubramanian and R.M. Straubinger (USA)

27

Bilayer thickness and lipid interface area in unilamellar extruded 1,2-diacylphosphatidylcholine liposomes: a small-angle neutron scattering study

P. Balgavý, M. Dubničková, N. Kučerka, M.A. Kiselev, S.P. Yaradaikin and D. Uhríková (Russia, Slovak Republic)

40

Lumen geometry of ion channels formed by *Vibrio cholerae* EL Tor cytolysin elucidated by nonelectrolyte exclusion

L.N. Yuldasheva, P.G. Merzlyak, A.O. Zitzer, C.G. Rodrigues, S. Bhakdi and O.V. Krasilnikov (Brazil, Germany)

53

Analysis of antimicrobial peptide interactions with hybrid bilayer membrane systems using surface plasmon resonance

H. Mozsolits, H.-J. Wirth, J. Werkmeister and M.-I. Aguilar (Australia)

64

Interaction and structure induction of cell-penetrating peptides in the presence of phospholipid vesicles

M. Magzoub, K. Kilk, L.E.G. Eriksson, Ü. Langel and A. Gräslund (Sweden)

77

Protein kinase C-induced phosphorylation modulates the Na⁺-ATPase activity from proximal tubules

L.B.A. Rangel, A.T. Malaquias, L.S. Lara, I.V. Silva, A.M. De Souza, A.G. Lopes and C. Caruso-Neves (Brazil)

90

Influence of plant terpenoids on the permeability of mitochondria and lipid bilayers

A.Y. Abramov, M.V. Zamaraeva, A.I. Hagelgans, R.R. Azimov and O.V. Krasilnikov (Brazil, Uzbekistan)

98

Molecular cloning and functional expression of *Xenopus laevis* oocyte ATP-activated P2X4 channels

P.F. Juranka, A.P. Haghighi, T. Gaertner, E. Cooper and C.E. Morris (Canada)

111

Effect of trehalose in low concentration on the binding and transport of porphyrins in liposome-human serum albumin system

I. Bárdos-Nagy, R. Galántai and J. Fidy (Hungary)

125

Functional properties of a truncated recombinant GIRK5 potassium channel

C. Salvador, M. Martinez, S.I. Mora, W. Egido, J.M. Farias, G. Gamba and L.I. Escobar (Mexico)

135

Evidence for the extracellular reduction of α -lipoic acid by *Leishmania donovani* promastigotes: a transplasma membrane redox system

G. Datta and T. Bera (India)

149

Polymorphic phases of galactocerebrosides: spectroscopic evidence of lamellar crystalline structures

M. Bou Khalil, D. Carrier, P.T.T. Wong and N. Tanphaichitr (Canada)

158

A functional assay for detection of the mitoxantrone resistance protein, MXR (ABCG2)

R.W. Robey, Y. Honjo, A. van de Laar, K. Miyake, J.T. Regis, T. Litman and S.E. Bates (USA)

171

Differential membrane fluidization by active and inactive cannabinoid analogues

T. Mavromoustakos, D. Papahadjis and P. Laggner (Austria, Greece)

183

Protein adsorption to polyethylene glycol modified liposomes from fibrinogen solution and from plasma <i>M.E. Price, R.M. Cornelius and J.L. Brash (Canada)</i>	191	Transport of choline and its relationship to the expression of the organic cation transporters in a rat brain microvessel endothelial cell line (RBE4) <i>A. Friedrich, R.L. George, C.C. Bridges, P.D. Prasad and V. Ganapathy (USA)</i>	299
Development of magnetically aligned phospholipid bilayers in mixtures of palmitoylstearylphosphatidylcholine and dihexanoylphosphatidylcholine by solid-state NMR spectroscopy <i>E.K. Tiburu, D.M. Moton and G.A. Lorigan (USA)</i>	206	The interaction of trichosanthin with supported phospholipid membranes studied by surface plasmon resonance <i>Y.-J. Lu, X.-F. Xia and S. Sui (PR China)</i>	308
Identification and characterization of membrane-associated polypeptides in <i>Torpedo</i> nicotinic acetylcholine receptor-rich membranes by hydrophobic photolabeling <i>M.P. Blanton, A.K. Lala and J.B. Cohen (India, USA)</i>	215	Lipid phase separation in phospholipid bilayers and monolayers modeling the plasma membrane <i>S.R. Shaikh, A.C. Dumaul, L.J. Jenski and W. Stillwell (USA)</i>	317
Na ⁺ -dependent D-mannose transport at the apical membrane of rat small intestine and kidney cortex <i>M.C. De la Horra, M. Cano, M.J. Peral, M. García-Delgado, J.M. Durán, M.L. Calonge and A.A. Ihundáin (Spain)</i>	225	The influence exerted by the β_3 subunit on MVIIA ω -conotoxin binding to neuronal N-type calcium channels <i>T. Luchian (Romania)</i>	329
K ⁺ transport in red blood cells from human umbilical cord <i>J.S. Gibson, P.F. Speake, M.C. Muzyamba, F. Husain, M.C.M. Luckas and J.C. Ellory (UK)</i>	231	Human cystine/glutamate transporter: cDNA cloning and upregulation by oxidative stress in glioma cells <i>J.Y. Kim, Y. Kanai, A. Chairoungdua, S.H. Cha, H. Matsuo, D.K. Kim, J. Inatomi, H. Sawa, Y. Ida and H. Endou (Japan)</i>	335
Cytoplasmic membrane of a sensitive yeast is a primary target for <i>Cryptococcus humicola</i> mycotoxic compound (microcin) <i>E.O. Puchkov, A. Wiese, U. Seydel and T.V. Kulakovskaya (Germany, Russia)</i>	239	Effect of cholesterol on miscibility and phase behavior in binary mixtures with synthetic ceramide 2 and octadecanoic acid. Infrared studies <i>H.-C. Chen, R. Mendelsohn, M.E. Rerek and D.J. Moore (USA)</i>	345
Efficient radical trapping at the surface and inside the phospholipid membrane is responsible for highly potent antiperoxidative activity of the carotenoid astaxanthin <i>S. Goto, K. Kogure, K. Abe, Y. Kimata, K. Kitahama, E. Yamashita and H. Terada (Japan)</i>	251	Iron-induced oxidative damage of corn root plasma membrane H ⁺ -ATPase <i>P. Souza-Santos, R.S. Ramos, S.T. Ferreira and P.C. Carvalho-Alves (Brazil)</i>	357
Cationic poly(ethyleneglycol) lipids incorporated into pre-formed vesicles enhance binding and uptake to BHK cells <i>D.B. Fenske, L.R. Palmer, T. Chen, K.F. Wong and P.R. Cullis (Canada)</i>	259	<i>Promotor paper</i>	
Na ⁺ -coupled transport of L-carnitine via high-affinity carnitine transporter OCTN2 and its subcellular localization in kidney <i>I. Tamai, K. China, Y. Sai, D. Kobayashi, J. Nezu, E. Kawahara and A. Tsuji (Japan)</i>	273	Cloning, cellular distribution and functional expression of small intestinal epithelium guinea pig ClC-5 chloride channel <i>I. Cornejo, M.I. Niemeyer, F.V. Sepúlveda and L.P. Cid (Chile)</i>	367
Regulation of erythrocyte ghost membrane mechanical stability by chlorpromazine <i>A. Enomoto, Y. Takakuwa, S. Manno, A. Tanaka and N. Mohandas (Japan, USA)</i>	285	<i>Erratum</i>	
The structure of the HIV-1 Vpu ion channel: modelling and simulation studies <i>F.S. Cordes, A. Kukol, L.R. Forrest, I.T. Arkin, M.S.P. Sansom and W.B. Fischer (UK)</i>	291	Corrigendum to: 'Giant vesicles as models to study the interactions between membranes and proteins' <i>A. Fischer, T. Oberholzer and P.L. Luisi (Switzerland)</i>	375
		<i>Author Index Vol. 1512</i>	381
