Reviews

Lipid rafts in epithelial brush borders: atypical membrane microdomains with specialized functions

E.M. Danielsen and G.H. Hansen (Denmark)

1

Preparation and electrochemical behavior of gramicidin-bipolar lipid monolayer membranes supported on gold electrodes

J.-M. Kim, A. Patwardhan, A. Bott and

D.H. Thompson (USA)

10

The hemolytic activity of six arachnid cationic peptides is affected by the phosphatidylcholine-to-sphingomyelin ratio in lipid bilayers

O.S. Belokoneva, E. Villegas, G. Corzo, L. Dai and

T. Nakajima (Japan)

22

Topology of factor VIII bound to phosphatidylserine-containing model membranes

V.S. Purohit, K. Ramani, R.S. Kashi, M.J. Durrani,

T.J. Kreiger and S.V. Balasubramanian (USA)

31

Preferential orientation of an immunoglobulin in a glycolipid monolayer controlled by the disintegration kinetics of proteo-lipidic vesicles spread at an air–buffer interface

A.P. Girard-Egrot, S. Godoy, J.-P. Chauvet,

P. Boullanger and P.R. Coulet (France)

39

Intracellular dynamics of the gene delivery vehicle polyethylenimine during transfection: investigation by two-photon fluorescence correlation spectroscopy

J.-P. Clamme, G. Krishnamoorthy and Y. Mély

(France)

52

The fusion peptide of simian immunodeficiency virus

and the phase behaviour of *N*-methylated

dioleoylphosphatidylethanolamine

T.A. Harroun, K. Balali-Mood, I. Gourlay and J.P.

Bradshaw (UK)

62

Conformation and self-assembly of a nystatin nitrobenzoxadiazole derivative in lipid membranes

L. Silva, A. Coutinho, A. Fedorov and M. Prieto

(Portugal)

69

Interaction of RANTES with syndecan-1 and syndecan-4 expressed by human primary macrophages

H. Slimani, N. Charnaux, E. Mbemba, L. Saffar,

R. Vassy, C. Vita and L. Gattegno (France)

80

Aggregation properties of mycolic acid molecules in monolayer films: a comparative study of compounds from various acid-fast bacterial species

T. Hasegawa and R.M. Leblanc (Japan, USA)

89

The F–G loop region of cytochrome P450scs (CYP11A1) interacts with the phospholipid membrane

M.J. Headlam, M.C.J. Wilce and R.C. Tuckey

(Australia)

96

Membrane permeabilizing activity of amphotericin B is affected by chain length of phosphatidylcholine added as minor constituent

S. Matsuoka and M. Murata (Japan)

109

Erratum

Erratum to “Shifts in chain-melting transition temperature of liposomal membranes by polymer-grafted lipids” [Biochim. Biophys. Acta 1614 (2003) 165–170]

M. Pantusa, R. Bartucci, D. Marsh and L. Sportelli

(Italy, Germany)
