

Biomembranes Cumulative Contents

Rapid report

- Synthesis and membrane behavior of a new class of unnatural phospholipid analogs useful as phospholipase A2 degradable liposomal drug carriers
T.L. Andresen and K. Jørgensen

1

Regular papers

- Phase transitions as a function of osmotic pressure in *Saccharomyces cerevisiae* whole cells, membrane extracts and phospholipid mixtures
C. Laroche, H. Simonin, L. Beney and P. Gervais

8

- Regeneration and inhibition of proton pumping activity of bacteriorhodopsin blue membrane by cationic amine anesthetics

A. Shibata, A. Sakata, S. Ueno, T. Hori, K. Minami, Y. Baba and N. Kamo

17

- Leukotriene and purinergic receptors are involved in the hyperpolarizing effect of glucagon in liver cells
L. Fischer, S. Haag-Diergarten, E. Scharrer and T.A. Lutz

26

- Epithelial transport and barrier function in *occludin*-deficient mice

J.D. Schulzke, A.H. Gitter, J. Mankertz, S. Spiegel, U. Seidler, S. Amasheh, M. Saitou, S. Tsukita and M. Fromm

34

- Isolation and characterization of a thylakoid membrane module showing partial light and dark reactions

D.N. Dani and J.K. Sainis

43

- Actin cytoskeleton disassembly affects conductive properties of stretch-activated cation channels in leukaemia cells

A. Staruschenko, Y.A. Negulyaev and E.A. Morachevskaya

53

- Na,K-ATPase mutations in familial hemiplegic migraine lead to functional inactivation

J.B. Koenderink, G. Zifarelli, L.Y. Qiu, W. Schwarz, J.J.H.M. De Pont, E. Bamberg and T. Friedrich

61

- Antiangiogenic photodynamic therapy (PDT) by using long-circulating liposomes modified with peptide specific to angiogenic vessels

K. Ichikawa, T. Hikita, N. Maeda, S. Yonezawa, Y. Takeuchi, T. Asai, Y. Namba and N. Oku

69

- Environmental factors that enhance the action of the cell penetrating peptide pep-1: A spectroscopic study using lipidic vesicles

S.T. Henriques and M.A.R.B. Castanho

75

- Protein mediated glycolipid transfer is inhibited FROM sphingomyelin membranes but enhanced TO sphingomyelin containing raft like membranes

M. Nylund and P. Mattjus

87

- The role of cysteine residues in the sulphate transporter, SHST1: Construction of a functional cysteine-less transporter

S.M. Howitt

95

- Internalisation of cell-penetrating peptides into tobacco protoplasts

M. Mäe, H. Myrberg, Y. Jiang, H. Paves, A. Valkna and Ü. Langel

101

- Ras couples phosphoinositide 3-OH kinase to the epithelial Na⁺ channel

A. Staruschenko, O.M. Pochynyuk, Q. Tong and J.D. Stockand

108

- Precision parameters from spin-probe studies of membranes using a partitioning technique. Application to two model membrane vesicles

M. Peric, M. Alves and B.L. Bales

116

- Structural rearrangement of model membranes by the peptide antibiotic NK-2

R. Willumeit, M. Kumpugdee, S.S. Funari, K. Lohner, B.P. Navas, K. Brandenburg, S. Linser and J. Andrä

125

- High zinc sensitivity and pore formation in an invertebrate P2X receptor

R. Raouf, D. Blais and P. Séguéla

135

- Nectin-like molecule 1 is a protein 4.1N associated protein and recruits protein 4.1N from cytoplasm to the plasma membrane

Y. Zhou, G. Du, X. Hu, S. Yu, Y. Liu, Y. Xu, X. Huang, J. Liu, B. Yin, M. Fan, X. Peng, B. Qiang and J. Yuan

142

Stabilized plasmid–lipid particles containing PEG-diacylglycerols exhibit extended circulation lifetimes and tumor selective gene expression <i>E. Ambegia, S. Ansell, P. Cullis, J. Heyes, L. Palmer and I. MacLachlan</i>	155	Agonist-induced up-regulation of human somatostatin receptor type 1 is regulated by β -arrestin-1 and requires an essential serine residue in the receptor C-tail <i>J.L. Ramirez, H.L. Watt, M. Rocheville and U. Kumar</i>	182
Changes in the morphology of cell-size liposomes in the presence of cholesterol: Formation of neuron-like tubes and liposome networks <i>S.M. Nomura, Y. Mizutani, K. Kurita, A. Watanabe and K. Akiyoshi</i>	164	New effects in polynucleotide release from cationic lipid carriers revealed by confocal imaging, fluorescence cross-correlation spectroscopy and single particle tracking <i>S. Berezina, S. Schaefer, R. Heintzmann, M. Jahnz, G. Boese, A. Deniz and P. Schwille</i>	193
Phospholipid diversity: Correlation with membrane–membrane fusion events <i>F. Deeba, H.N. Tahseen, K.S. Sharad, N. Ahmad, S. Akhtar, M. Saleemuddin and O. Mohammad</i>	170	<i>Cumulative Contents</i>	209
