

Biomembranes Cumulative Contents

Regular papers

- Biophysical characterization of anionic lipoplexes
S.D. Patil, D.G. Rhodes and D.J. Burgess 1
- Molecular associations and surface-active properties of short- and long-*N*-acyl chain ceramides
J. Sot, F.M. Goñi and A. Alonso 12
- Role of actin in the cAMP-dependent activation of sodium/glucose cotransporter in renal epithelial cells
A. Ikari, H. Harada and K. Takagi 20
- Liposomes targeted via two different antibodies: Assay, B-cell binding and cytotoxicity
K. Laginha, D. Mumbengegwi and T. Allen 25
- Store-operated calcium entry in differentiated C2C12 skeletal muscle cells
Y. Gutierrez-Martin, F.J. Martin-Romero and F. Henao 33
- Electroneutral K^+/H^+ exchange in mitochondrial membrane vesicles involves Yo1027/Letm1 proteins
E. Froschauer, K. Nowikovsky and R.J. Schweyen 41
- Antimicrobial activity and membrane selective interactions of a synthetic lipopeptide MSI-843
S. Thennarasu, D.-K. Lee, A. Tan, U.P. Kari and A. Ramamoorthy 49
- Raman spectra of planar supported lipid bilayers
C. Lee and C.D. Bain 59
- Electrostatic basis of valence selectivity in cationic channels
B. Corry, T. Vora and S.-H. Chung 72
- Differential effect of phosphatidylethanolamine depletion on raft proteins: Further evidence for diversity of rafts in *Saccharomyces cerevisiae*
M. Opekarová, K. Malinská, L. Nováková and W. Tanner 87

Preface

- Preface: The connexins
J.-C. Hervé 97

Reviews

- Structural organization of gap junction channels
G.E. Sosinsky and B.J. Nicholson 99
- Functional consequences of heterogeneous gap junction channel formation and its influence in health and disease
G.T. Cottrell and J.M. Burt 126
- Connexins and their environment: effects of lipids composition on ion channels
M. Cascio 142
- Connexin phosphorylation as a regulatory event linked to gap junction channel assembly
J.L. Solan and P.D. Lampe 154
- Connexin phosphorylation as a regulatory event linked to channel gating
A.P. Moreno 164
- Connexin phosphorylation as a regulatory event linked to gap junction internalization and degradation
D.W. Laird 172
- Sensitivity of the brain transcriptome to connexin ablation
D.A. Iacobas, S. Iacobas, M. Urban-Maldonado and D.C. Spray 183
- Gap junctional communication in tissue inflammation and repair
M. Chanson, J.-P. Derouette, I. Roth, B. Foglia, I. Scerri, T. Dudez and B.R. Kwak 197
- Gap junction- and hemichannel-independent actions of connexins
J.X. Jiang and S. Gu 208
- Connexin-based gap junction hemichannels: Gating mechanisms
J.C. Sáez, M.A. Retamal, D. Babilio, F.F. Bukauskas and M.V.L. Bennett 215
- Innexins: members of an evolutionarily conserved family of gap-junction proteins
P. Phelan 225

- Cumulative Contents 246
