

SUBJECT INDEX

- Acetolactate synthetases, evidence for two distinct — in *Aerobacter aerogenes* (HALPERN, EVEN-SHOSHAN) . . . 502
- O-Acetylaryl-esterase, soluble — from rat kidney; isolation and purification of, (KLEINE *et al.*) . . . 511
- Acetylcholine, — receptor; chemical distinctions between acetylcholinesterase and, (KARLIN) . . . 358
- Acetylcholinesterase, chemical distinctions between, and acetylcholine receptor (KARLIN) . . . 358
- N-Acetylglutamate-5-phosphotransferase, nature of allosteric transition of, (FARAGÓ, DÉÉNES) . . . 521
- Acetylphosphatase, K^+ —; comparison of microsomal ($Na^+ + K^+$)-ATPase with, (ISRAEL, TITUS) . . . 450
- Adenosine triphosphatase, ($Na^+ + K^+$)-dependent —; Ca^{2+} -dependent inhibition of, by hydroxylamine (BADER, BROOM) . . . 516
- Adenosine triphosphatase, microsomal ($Na^+ + K^+$)- —; comparison of, with K^+ -acetylphosphatase (ISRAEL, TITUS) . . . 450
- S-Adenosylmethionine, feedback inhibition of methylene-tetrahydrofolate reductase in rat liver by, (KUTZBACH, STOKSTAD) . . . 217
- Adrenal mitochondria, see Mitochondria
- Adipose tissue, human —; electrophoretic behaviour of alkaline lipolytic activity in, (CORTNER, SCHNATZ) . . . 107
- Adipose tissue, isolated rat — cells; effect of nutritional state on lipoprotein lipase activity in, (POKRAJAC *et al.*) . . . 123
- Aerobacter aerogenes*, evidence for two distinct acetolactate synthetases in, (HALPERN, EVEN-SHOSHAN) . . . 502
- Alcohol dehydrogenase, liver —; nature of enzyme-coenzyme interactions in, (FISHER *et al.*) . . . 169
- Allantoate amidohydrolase, activation and inactivation of, (VAN DER DRIFT, VOGELS) . . . 162
- Amino acid decarboxylase, aromatic —; determination of, (STREFFER) . . . 193
- L-Amino-acid oxidase, crystalline — from soluble fraction of rat-kidney cells (NAKANO *et al.*) . . . 40
- L-Amino-acid oxidase, of snake venom; stability of, (PAIK, KIM) . . . 49
- 5-Aminolaevulinic acid hydro-lyase, from yeast; isolation and purification of, (DE BARREIRO) . . . 479
- Aminotripeptidase, — activity; determination of, by rapid spectrophotometric method (ECCLESTON) . . . 186
- Aspergillus oryzae*, glucose dehydrogenase of; studies on, (BAK, SATO) . . . 265, 277
- Atropinesterase, distribution of, in rabbit and guinea-pig liver cell fractions and sera (ADIE, DAVIDSON) . . . 180
- Azide, ATP-dependent reduction of, by N_2 -fixing enzymes of *Azotobacter vinelandii* and *Clostridium pasteurianum* (HARDY, KNIGHT JR.) . . . 69
- Azotobacter vinelandii*, N_2 -fixing enzymes from; ATP-dependent reduction of azide and HCN by, (HARDY, KNIGHT JR.) . . . 69
- Bacillus stearothermophilus*, thermostable glyceraldehyde-3-phosphate dehydrogenase from; chemical and physical properties of, (AMELUNXEN) . . . 24
- Bacillus subtilis*, regulation of intracellular ribonuclease of, by ATP and ADP (YAMASAKI, ARIMA) . . . 202
- Benzylalcohol dehydrogenase, from *Pseudomonas* sp. (KATAGIRI *et al.*) . . . 173
- Bilirubin UDP-glucuronyltransferase, studies on, (HALAC JR., REFF) . . . 328
- Bromopyruvate, kinetic study of inactivation of 3-D-deoxy-arabino-heptulosonate 7-phosphate synthase by, (STAUB, DÉNES) . . . 519
- Calcium ion, — -dependent inhibition of ($Na^+ + K^+$)-dependent ATPase by hydroxylamine (BADER, BROOM) . . . 516
- Carbamate kinase, pyrimidine-specific — in *Neurospora* (LOU, HERRMANN) . . . 199
- Carboxylesterases, liver —; homology of active-site peptides of, (BLAKELEY *et al.*) . . . 208
- Carnitine dehydrogenase, inducible — from *Pseudomonas aeruginosa* (AURICH *et al.*) . . . 505
- Catalase, — activity; determination of, by means of Clark oxygen electrode (RØRTH, JENSEN) . . . 171
- Cattle, — liver, see Liver
- Cellulase, — activity; viscosimetric determination of, in absolute terms (ALMIN *et al.*) . . . 248
- Cholesterol 20 α -hydroxylase, from hog adrenal mitochondria; purification and properties of, (ICHI *et al.*) . . . 308
- Cholinesterases, activity of; inhibitory effect of Tris on, (PAVLIČ) . . . 133
- Chymopapain, chromatographic fractionation of partially purified — and characterization of crystalline chymopapain B (KUNIMITSU, YASUNOBU) . . . 405
- Citrate, inhibition of mitochondrial malate dehydrogenase by, (CENNAMO *et al.*) . . . 514

- Citrate synthase, allosteric fine control on, in *E. coli* (WEITZMAN) 526
- Citrate synthetase, — interaction with polyphosphate derivatives (LEE, KOSICKI) 195
- Clostridium pasteurianum*, N_2 -fixing enzymes of; ATP-dependent reduction of azide and HCN by, (HARDY, KNIGHT JR.) 69
- Cyanate, reversible inactivation of papain by, (SLUYTERMAN) 439
- Cystathionase-rhodanese system, study on, (SZCZEPKOWSKI, WOOD) 469
- 3-D-Deoxy-arabino-heptulosonate 7-phosphate synthase, kinetic study of inactivation of, by bromopyruvate (STAUB, DÉNES) 519
- Deoxyribonuclease I inhibitor, from rat serum; purification and properties of, (BERGER, MAY) 148
- Detergents, comparative effects of —, *in vitro* on liver glucose-6-phosphate phosphohydrolase and inorganic pyrophosphate-glucose phosphotransferase and acid inorganic pyrophosphatase activities (SNOKE, NORDLIE) 190
- Dopamine β -hydroxylase, inhibition of, by sulfhydryl compounds and nature of natural inhibitors (NAGATSU *et al.*) 319
- Enzyme systems, — utilizing three substrates; use of competitive inhibitors in studying mechanism of action of, (FROMM) 221
- Enzymic activity, in degradation of polymers; viscosimetric determination of, (ALMIN, ERIKSSON) 238, 248
- Escherichia coli*, allosteric fine control of citrate synthase in, (WEITZMAN) 526
- Escherichia coli*, phosphoenolpyruvate carboxylase activity in; regulation of, (IZUI *et al.*) 188
- Ester-proteolytic activity, testosterone induction of, in mouse submaxillary gland (ANGELETTI *et al.*) 372
- Ethylenediaminetetraacetate, action of, on human alkaline phosphatases (CONYERS *et al.*) 363
- Fructose diphosphate aldolase, from *Pisum sativum*; isolation and characterization of, (HATZ, LEUTHARDT) 460
- Glucose dehydrogenase, of *Aspergillus oryzae*; studies on, (BAK, SATO) 265, 277
- Glucose-6-phosphatase, variously activated microsomal —; properties of, (STETTEN, BURNETT) 138
- Glucose-6-phosphate phosphohydrolase, liver —; comparative effects *in vitro* of various detergents on, (SNOKE, NORDLIE) 190
- Glutamate dehydrogenase, NAD-dependent — in *Saccharomyces cerevisiae*; oscillatory phenomena in rate of synthesis of, (PANTEN *et al.*) 33
- Glutamate dehydrogenase, NAD-specific — of *Neurospora*; regulation and purification and properties of, (STACHOW, SANWAL) 294
- Glyceraldehyde-3-phosphate dehydrogenase, thermostable — from *Bacillus stearothermophilus*; chemical and physical properties of, (AMELUNXEN) 24
- Guinea-pig, — liver, see Liver
- Guinea-pig, — serum, see Serum
- Heart, ostrich — malate dehydrogenases; purification and properties of, (KITTO) 16
- Histidine ammonia-lyase, reversibility of "irreversible" — reaction (WILLIAMS, HIROMS) 214
- Hog, — adrenal mitochondria, see Mitochondria
- Homatropinesterase, distribution of, in rabbit and guinea-pig liver cell fractions and sera (ADIE, DAVIDSON) 180
- Hydrogen cyanide, ATP-dependent reduction of, by N_2 -fixing enzymes of *Azotobacter vinelandii* and *Clostridium pasteurianum* (HARDY, KNIGHT JR.) 69
- Hydrogenomonas, urease activity of; oscillations in, (KÖNIG, SCHLEGEL) 182
- Hydroxylamine, Ca^{2+} -dependent inhibition of ($Na^+ + K^+$)-dependent ATPase by, (BADER, BROOM) 516
- Inorganic pyrophosphate, see Pyrophosphate
- Isozymes, lactate dehydrogenase and malate dehydrogenase —; genetic control of, in cultures of lymphocytes and granulocytes (RABINOWITZ, DIETZ) 254
- Kidney, rat — cells; crystalline L-amino-acid oxidase from soluble fraction of, (NAKANO *et al.*) 40
- Kidney, rat —; isolation and purification of soluble O-acetylaryl-esterase from, (KLEINE *et al.*) 511
- Lactate dehydrogenase, genetic control of isozymes of, in cultures of lymphocytes and granulocytes (RABINOWITZ, DIETZ) 254
- Lactate dehydrogenase, reactions of — X-band in human sperm with homologous and heterologous antisera (RESSLER *et al.*) 507
- Lipolytic activity, alkaline — in human adipose tissue; electrophoretic behaviour of, (CORTNER, SCHNATZ) 107
- Lipoprotein lipase, — activity in isolated rat adipose tissue cells; effect of nutritional state on, (POKRAJAC *et al.*) 123
- Liver, — alcohol dehydrogenase; nature of enzyme-coenzyme interactions in, (FISHER *et al.*) 169
- Liver, bovine — propionyl-CoA carboxylase; effect of univalent cations on activities catalyzed by, (GIORGIO, PLAUT) 487
- Liver, — carboxylesterases; homology

- of active-site peptides of, (BLAKELEY *et al.*) 208
- Liver, — glucose-6-phosphate phosphohydrolase and inorganic pyrophosphate-glucose phosphotransferase and acid inorganic pyrophosphatase activities; comparative effects *in vitro* of various detergents on, (SNOKE, NORDLIE) 190
- Liver, rabbit and guinea-pig — cell fractions; distribution of atropinesterase and homatropinesterase in, (ADIE, DAVIDSON) 180
- Liver, rat —; feedback inhibition of methylene-tetrahydrofolate reductase in, by *S*-adenosylmethionine (KUTZBACH, STOKSTAD) 217
- Lysozyme, — activity; localization of, in Paneth cell granule fraction (DECKX *et al.*) 204
- Malate dehydrogenase, genetic control of isozymes of, in cultures of lymphocytes and granulocytes (RABINOWITZ, DIETZ) 254
- Malate dehydrogenases, ostrich heart —; purification and properties of, (KITTO) 16
- Malate dehydrogenases, tuna supernatant and mitochondrial —; purification and properties of, (KITTO, LEWIS) 1
- Malate dehydrogenase, mitochondrial —; inhibition of, by citrate (CENNAMO *et al.*) 514
- Mast cell tumours, see Tumours
- Methanol, effect of, on action of papain (SLUYTERMAN) 418
- Methylene-tetrahydrofolate reductase, feedback inhibition of, in rat liver by *S*-adenosylmethionine (KUTZBACH, STOKSTAD) 217
- Microsomes, comparison of ($\text{Na}^+ + \text{K}^+$)-ATPase from, with K^+ -acetylphosphatase (ISRAEL, TITUS) 450
- Microsomes, variously activated glucose-6-phosphatase from; properties of, (STETTEN, BURNETT) 138
- Mitochondria, hog adrenal —; purification and properties of cholesterol 20 α -hydroxylase from, (ICHI *et al.*) 308
- Mitochondria, malate dehydrogenase from; inhibition of, by citrate (CENNAMO *et al.*) 514
- Mitochondria, tuna —; purification and properties of malate dehydrogenases from, (KITTO, LEWIS) 1
- Mouse, — submaxillary gland, see Submaxillary gland
- Nicotine oxidase, purification and properties of, (HOCHSTEIN, DALTON) 56
- Nitrogen, — fixing enzymes of *Azotobacter vinelandii* and *Clostridium pasteurianum*; ATP-dependent reduction of azide and HCN by, (HARDY, KNIGHT JR.) 69
- Neurospora, NAD-specific glutamate dehydrogenase of; regulation and purification and properties of, (STACHOW, SANWAL) 294
- Neurospora, pyrimidine-specific carbamate kinase in, (LOU, HERRMANN) 199
- Nucleoside diphosphate glucose pyrophosphorylases, in mast cell tumours (DANISHEFSKY, HERITIER-WATKINS) 349
- Ornithine carbamoyltransferase, catabolic and anabolic —; occurrence of, in *Pseudomonas* (STALON *et al.*) 91
- Ornithine carbamoyltransferases, of *Pseudomonas*; specialization of, (RAMOS *et al.*) 98
- Ornithine transcarbamylase, crystalline (BISHOP, GRISOLIA) 344
- Ostrich, — heart, see Heart
- Paneth cell granule fraction, localization of lysozyme activity in, (DECKX *et al.*) 204
- Papain, action of; effect of methanol and urea and other solutes on, (SLUYTERMAN) 418
- Papain, activation reaction of, (SLUYTERMAN) 430
- Papain, reversible inactivation of, by cyanate (SLUYTERMAN) 439
- Phosphatases, human alkaline —; action of EDTA on, (CONYERS *et al.*) 363
- Phosphoenolpyruvate carboxylase, — activity in *E. coli*; regulation of, (IZUI *et al.*) 188
- Peptides, active-site — of liver carboxylesterases; homology of, (BLAKELEY *et al.*) 208
- Pisum sativum*, isolation and characterization of fructose diphosphate aldolase from, (HATZ, LEUTHARDT) 460
- Polymers, enzymic degradation of; viscosimetric method for determination of activity in, (ALMIN, ERIKSSON) 238, 248
- Polyphosphate derivatives, citrate synthetase interaction with, (LEE, KO-SICKI) 195
- Propionyl-coenzyme A carboxylase, bovine-liver —; effect of univalent cations on activities catalyzed by, (GIORGIO, PLAUT) 487
- Proteolytic enzymes, multiple — of *Streptomyces fradiae*; production and isolation and characterization of, (MORIYAMA *et al.*) 382
- Pseudomonas*, benzylalcohol dehydrogenase from, (KATAGIRI *et al.*) 173
- Pseudomonas*, occurrence of catabolic and anabolic ornithine carbamoyltransferase in, (STALON *et al.*) 91
- Pseudomonas*, ornithine carbamoyltransferases of; specialization of, (RAMOS *et al.*) 98
- Pseudomonas aeruginosa*, inducible carnitine dehydrogenase from, (AURICH *et al.*) 505
- Pyrimidine, — -specific carbamate ki-

- nase in *Neurospora* (LOU, HERRMANN) 199
- Pyrophosphatase, acid inorganic — activity; effect of detergents on, (SNOKE, NORDLIE) 190
- Pyrophosphatase, variously activated inorganic —; properties of, (STETTEN, BURNETT) 138
- Pyrophosphate-glucose phosphotransferase, inorganic —; effect of detergents on, (SNOKE, NORDLIE) 190
- Pyrophosphate-glucose phosphotransferase, inorganic —; properties of, (STETTEN, BURNETT) 138
- Rabbit, — liver, see Liver
- Rabbit, — serum, see Serum
- Rat, — adipose tissue, see Adipose tissue
- Rat, — kidney, see Kidney
- Rat, — liver, see Liver
- Rat, — serum, see Serum
- Relaxation, steady-state — time and the product at equilibrium (MUELLER *et al.*) 231
- Rhodanese, cystathionase- — system (SZCZEPKOWSKI, WOOD) 469
- Ribonuclease, intracellular — of *Bacillus subtilis*; regulation of, by ATP and ADP (YAMASAKI, ARIMA) 202
- Saccharomyces cerevisiae*, NAD-dependent glutamate dehydrogenase in; oscillatory phenomena in rate of synthesis of, (PANTEN *et al.*) 33
- Sera, rabbit and guinea-pig —; distribution of atropinesterase and homatropinesterase in, (ADIE, DAVIDSON) 180
- Serum, rat —; purification and properties of deoxyribonuclease I inhibitor from, (BERGER, MAY) 148
- Snake, — venom, see Venom
- Sperm, reactions of lactate dehydrogenase X-band in, with homologous and heterologous antisera (RESSLER *et al.*) 507
- Steroid ester sulphates, activity of human term placenta sulphatases for; differences in, (PASQUALINI *et al.*) 177
- Streptomyces fradiae*, multiple proteolytic enzymes of; production and isolation and characterization of, (MORIARA *et al.*) 382
- Submaxillary gland, mouse —; testosterone induction of estero-proteolytic activity in, (ANGELETTI *et al.*) 372
- Subtilisin Carlsberg, chemical derivatives of, with increased proteolytic activity (JOHANSEN *et al.*) 211
- Sulphydryl compounds, inhibition of dopamine β -hydroxylase by, (NAGATSU *et al.*) 319
- Sulphatases, human term placenta —; differences in activity of, for steroid ester sulphates (PASQUALINI *et al.*) 177
- Testosterone, — induction of estero-proteolytic activity in mouse submaxillary gland (ANGELETTI *et al.*) 372
- Tris, inhibitory effect of, on activity of cholinesterases (PAVLIČ) 133
- Trypsin, dielectric effects and transesterification reactions catalyzed by, (CASTAÑEDA-ANGULLÓ *et al.*) 398
- Trypsin, interaction of, with neutral substrates and inhibitors (SANBRON, HEIN) 523
- Tumours, mast cell —; nucleoside diphosphate glucose pyrophosphorylases in, (DANISHEFSKY, HERITIER-WATKINS) 349
- Tuna, — mitochondria, see Mitochondria
- Urea, effect of, on action of papain (SLUYTERMAN) 418
- Urease, — activity of *Hydrogenomonas H 16*; oscillations in, (KÖNIG, SCHLEGEL) 182
- Venom, snake —; stability of L-amino acid oxidase of, (PAIK, KIM) 49
- Yeast, 5-aminolaevulinic acid hydro-lyase from; isolation and purification of, (DE BARREIRO) 479

ERRATUM

BIOCHIMICA ET BIOPHYSICA ACTA, Vol. 132 (1967)

p. 536, Fig. 1: change " 5×10^{-5} DAB" into " 5×10^{-8} M DAB".
