

SUBJECT INDEX

- 2-Acetylaminofluorene
Studies on rat liver ribonucleases. IV. Liver ribonucleases in developing, partially hepatectomized rats fed with — (Rahman et al.), 178 (1969) 68
- N-Acetylglutamate 5-phosphotransferase
Differences between the active and inhibited conformations of the allosteric — (Fargó, Dénes), 178 (1969) 400
- Acid phosphatase III
Mechanism of hydrolysis of estradiol 3-phosphate by placental — (DiPietro), 178 (1969) 188
- Acid phosphatase
Studies on rat liver ribonucleases. II. Studies on heterogeneity of liver lysosomes. Intracellular localization of acid ribonuclease and — in rats of various ages (Rahman, Cerny), 178 (1969) 61
- Aconitate hydratase
Oxaloacetate inhibition of — (Britten), 178 (1969) 370
- Acyl-coenzyme A esters
Inhibitory effects of — on the pyruvate and α -oxoglutarate dehydrogenase complexes (Erfle, Sauer), 178 (1969) 441
- Adenosine deaminase
Competitive inhibition of — by urea and amidine derivatives (Ronca, Ronca-Testoni), 178 (1969) 577
- S-Adenosyl-L-methionine sulfonium
Specificity of — stereoisomers in some enzyme systems (Zappia et al.), 178 (1969) 185
- Alanine aminotransferase
Binding of pyridoxamine 5-phosphate to — as measured by fluorescence spectroscopy (Churchich), 178 (1969) 480
- Aldolase C
Ubiquity of — in ruminant tissues (Sheedy, Masters), 178 (1969) 623
- Aldose isomerases
Stereochemical evidence for a cis-enediol intermediate in manganous ion-dependent — (Rose et al.), 178 (1969) 376
- Aldose reductase
Purification and properties of — from the sheep (Håstcin, Velle), 178 (1969) 1
- Alkaline phosphatase
Evidence for the identity of — and inorganic pyrophosphatase in rat kidney (Melani, Farnararo), 178 (1969) 93
- Alkaline proteinase
Isolation and characterization of — of *Aspergillus flavus* (Turková et al.), 178 (1969) 100
- Alkaline proteinase
Serine-containing active center of — *Aspergillus flavus* (Mikeš et al.), 178 (1969) 112
- Allylisopropylacetamide
Intramitochondrial localization of 5-aminoleavulinate synthase induced in rat liver with — (Zuyderhoudt et al.), 178 (1969) 408
- 5-Aminolaevulinate dehydratase
Effect of sulphhydryl groups on — activity (De Barreiro), 178 (1969) 412
- 5-Aminolaevulinate synthase
Intramitochondrial localization of — induced in rat liver with allylisopropylacetamide (Zuyderhoudt et al.), 178 (1969) 408
- AMP aminohydrolase
Muscle —. II. Distribution of AMP aminohydrolase, myokinase and creatine kinase activities in skeletal muscle (Raggi et al.), 178 (1969) 619
- Apyrase
Insoluble matrix-supported —, deoxyribonuclease and cholinesterase (Patel et al.), 178 (1969) 626
- L-Arabinose isomerase
Crystallization and properties of — from *Lactobacillus gayonii* (Nakamatu, Yamana), 178 (1969) 156
- Arginyl-RNA synthetase
Purification of — from rat liver (Ikegami), 178 (1969) 166
- Arylamidase
— of human liver (Behal et al.), 178 (1969) 118
- Aspartokinase
Regulation of — in *Bacillus licheniformis* (Gray, Bernlohr), 178 (1969) 248
- ATPase
Studies on (Na^+ - K^+)-activated —. XXIII. A Mg^{2+} - — in *Escherichia coli*, activated by monovalent cations (Hafkenschied, Bonting), 179 (1969) 128
- ATPase
Thallium-induced dephosphorylation of a phosphorylated intermediate of the (sodium + thallium)-activated — (Inrurrisi), 178 (1969) 630
- ATP:creatine phosphotransferase
Interaction of Mg^{2+} and ATP^{4-} with — (Heyde, Morrison), 178 (1969) 47
- ATP sulphurylase
Purification and properties of the enzyme — and its relation to vitamin A (Levi, Wolf), 178 (1969) 262

- Bacteriophage T4
Enzymatic activities on cell walls in — (Yamazaki), 178 (1969) 542
- Cell walls
Enzymatic activities on — in bacteriophage T4 (Yamazaki), 178 (1969) 542
- Cholinesterase
Example of successful prediction of — inhibitory potency from regression analysis (Beasley, Purcell), 178 (1969) 175
- Cholinesterase
Insoluble matrix-supported apyrase, deoxyribonuclease and — (Patel et al.), 178 (1969) 626
- Chymotrypsins
Identification of histidine in the active center of — from a reptile and a fish (Barnard, Hope), 178 (1969) 364
- Chymotrypsins
Isolation and properties of some reptilian and fish — (Möckel, Barnard), 178 (1969) 354
- Clostridiopeptidase B
Isoelectric focussing of — (Mitchell), 178 (1969) 194
- Coenzyme B₁₂
Mechanism of action of ethanolamine deaminase. II. The spectrum of the ethanolamine deaminase- — complex during the act of catalysis (Babior), 178 (1969) 406
- Coliphage N2oF'
Isolation and characterization of — and properties of the induced lytic enzyme (Moo-Penn, Wiesmeyer), 178 (1969) 318
- Coliphage N2oF'
Purification and physicochemical properties of a lytic enzyme induced by — (Moo-Penn et al.), 178 (1969) 330
- Collagenases
Roles of — and other proteolytic enzymes in the dispersal of animal tissues (Kono), 178 (1969) 397
- Creatine kinase
Muscle AMP aminohydrolase. II. Distribution of AMP aminohydrolase, myokinase and — activities in skeletal muscle (Raggi et al.), 178 (1969) 619
- 3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase
Purification and properties of the — (phenylalanine sensitive) of *Escherichia coli* K12. I. Purification of enzyme and some of its catalytic properties (Staub, Dénes), 178 (1969) 588
- 3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase
Purification and properties of the — (phenylalanine sensitive) of *Escherichia coli* K12. II. Inhibition of activity of the enzyme with phenylalanine and functional group-specific reagents (Staub, Dénes), 178 (1969) 599
- Deoxyribonuclease
Insoluble matrix-supported apyrase, — and cholinesterase (Patel et al.), 178 (1969) 626
- Dihydrofolate reductases
Presence and properties of — within the genus *Crithidia* (Gutteridge et al.), 178 (1969) 453
- p-Diphenol oxidase
Antigenic and some kinetic properties of three — isoenzymes of *Trametes versicolor* (Cheung, Marshall), 178 (1969) 177
- DNA polymerase
Partial purification of mitochondrial and supernatant — from *Saccharomyces cerevisiae* (Iwashima, Rabinowitz), 178 (1969) 283
- Enzyme inhibition
— by tetraphenylboron (Stanbury, Wicken), 178 (1969) 403
- Estradiol 3-phosphate
Mechanism of hydrolysis of — by placental acid phosphatase III (DiPietro), 178 (1969) 188
- Ethanolamine deaminase
Mechanism of action of —. II. The spectrum of the ethanolamine deaminase-coenzyme B₁₂ complex during the act of catalysis (Babior), 178 (1969) 406
- Ethylene-forming enzyme
3-Methylthiopropionaldehyde peroxidase from apples: An — (Tadeo, Lieberman), 178 (1969) 235
- Exo- β -D-1,3-glucanase
Purification and properties of an — from sea urchin eggs (Muchmore et al.), 178 (1969) 551
- Ferro-lyase
Effect of lipid on protohaem — (Sawada et al.), 178 (1969) 145
- Flavoprotein
Aliphatic L- α -hydroxyacid oxidase from rat livers. II. A — (Ushijima, Nakano), 178 (1969) 429
- β -Fructofuranosidase
Heat inactivation kinetics of yeast —. A polydisperse system (Arnold), 178 (1969) 347
- Fructose-1,6-diphosphatase
X-ray modification of the catalytic and allosteric functions of — (Little et al.), 178 (1969) 83
- Galactolipase
Purification and properties of — (Helsing), 178 (1969) 519
- Glucanase
Purification and properties of an exo- β -D-1,3- — from sea urchin eggs (Muchmore et al.), 178 (1969) 551
- β -1,6-Glucan glucanohydrolase
— involved in hydrolysis of cell-wall glucan in *Schizophyllum commune* (Wessels), 178 (1969) 191
- α -Glucan phosphorylase
Pyridoxal 5'-phosphate in — from the potato (Kamogawa), 178 (1969) 459
- Glyceraldehydephosphate dehydrogenase
Binding of NAD⁺ to rabbit-muscle — as studied by optical rotatory dispersion and

- circular dichroism (De Vijlder, Harmsen), 178 (1969) 434
- L- α -Hydroxyacid oxidase**
Aliphatic — from rat livers. II. A flavo-protein (Ushijima, Nakano), 178 (1969) 429
- Inorganic pyrophosphatase**
Evidence for the identity of alkaline phosphatase and — in rat kidney (Melani, Farnararo), 178 (1969) 93
- Inorganic pyrophosphate-glucose phosphotransferase**
Rabbit intestinal microsomal —: Sugar inhibitor specificity (Lygre, Nordlie), 178 (1969) 389
- Lactose synthetase**
Properties of — from mouse mammary gland: Role of a proposed third component (Palmiter), 178 (1969) 35
- Lipase**
Action of organophosphates on pancreatic — (Maylié et al.), 178 (1969) 196
- Lipase**
Purification of lipoprotein — from rat post-heparin plasma (Fielding), 178 (1969) 499
- Lipid N-methyltransferase**
Isolation and characterization of — from dog lung (Morgan), 178 (1969) 21
- Lipoprotein lipase**
Purification of — from rat post-heparin plasma (Fielding), 178 (1969) 499
- Lysosomes**
Studies on rat liver ribonucleases. II. Studies on heterogeneity of liver —. Intracellular localization of acid ribonuclease and acid phosphatase in rats of various ages (Rahman, Cerny), 178 (1969) 61
- Lysozyme**
Modification of lysine and arginine residues of — and the effect on enzymatic activity (Davies, Neuberger), 178 (1969) 306
- Lysozyme activity**
Dependence of — on pH and ionic strength (Davies et al.), 178 (1969) 294
- Lytic enzyme**
Isolation and characterization of coliphage N30F' and properties of the induced — (Moo-Penn, Wiesmeyer), 178 (1969) 318
- Lytic enzyme**
Purification and physicochemical properties of a — induced by coliphage N20F' (Moo-Penn et al.), 178 (1969) 330
- Magnesium-ATPase**
Studies on (Na⁺-K⁺)-activated ATPase. XXIII. A — in *Escherichia coli*, activated by monovalent cations (Hafkenscheid, Bonting), 179 (1969) 128
- Malate dehydrogenase**
— in leaf peroxisomes (Yamazaki, Tolbert), 178 (1969) 11
- Malate dehydrogenase (decarboxylating)**
Malate utilization by a group D *Streptococcus*. II. Evidence for allosteric inhibition of an inducible — by ATP and glycolytic intermediate products (London, Meyer), 178 (1969) 205
- Malate utilization**
— by a group D *Streptococcus*. II. Evidence for allosteric inhibition of an inducible malate dehydrogenase (decarboxylating) by ATP and glycolytic intermediate products (London, Meyer), 178 (1969) 205
- Malonyl-CoA decarboxylase**
Intracellular and intramitochondrial distribution of — and propionyl-CoA carboxylase in rat liver (Scholte), 178 (1969) 137
- Manganous ion-dependent aldose isomerases**
Stereochemical evidence for a cis-enediol intermediate in — (Rose et al.), 178 (1969) 376
- 3-Methylthiopropionaldehyde peroxidase**
— from apples: An ethylene-forming enzyme (Takeo, Lieberman), 178 (1969) 235
- N-Methyltransferase**
Isolation and characterization of lipid — from dog lung (Morgan), 178 (1969) 21
- N-Methyltransferase**
Phenylethanolamine — in human adrenal gland (Kitabchi, Williams), 178 (1969) 181
- Muscle**
— AMP aminohydrolase. II. Distribution of AMP aminohydrolase, myokinase and creatine kinase activities in skeletal muscle (Raggi et al.), 178 (1969) 619
- Myokinase**
Muscle AMP aminohydrolase. II. Distribution of AMP aminohydrolase, — and creatine kinase activities in skeletal muscle (Raggi et al.), 178 (1969) 619
- Nitrate reductase**
A — from *Micrococcus denitrificans* (Lam, Nicholas), 178 (1969) 225
- 5'-Nucleotidase**
Nucleotidase activities in the soluble fraction of rat liver homogenate. Partial purification and properties of a — with pH optimum 6.3 (Fritzson), 178 (1969) 534
- α -Oxoglutarate dehydrogenase**
Inhibitory effects of acyl-coenzyme A esters on the pyruvate and — complexes (Erfle, Sauer), 178 (1969) 441
- Papain**
Non-essentiality of the N-terminal amino group of — (Sluyster et al.), 178 (1969) 392
- Peroxisomes**
Malate dehydrogenase in leaf — (Yamazaki, Tolbert), 178 (1969) 11
- Phenylethanolamine N-methyltransferase**
— in human adrenal gland (Kitabchi, Williams), 178 (1969) 181
- Phlorizin inhibition**
Allosteric effects and — of intestinal trehalase (Semenza, Řihová), 178 (1969) 393
- Phosphatase**
Evidence for the identity of alkaline — and inorganic pyrophosphatase in rat kidney

- (Melani, Farnararo), 178 (1969) 93
- Phosphatase**
 Mechanism of hydrolysis of estradiol 3-phosphate by placental acid — III (DiPietro), 178 (1969) 188
- Phosphatase**
 Studies on rat liver ribonucleases. IV. Studies on heterogeneity of liver lysosomes. Intracellular localization of acid ribonuclease and acid — in rats of various ages (Rahman, Cerny), 178 (1969) 61
- Phosphofructokinase**
 X-ray inactivation of —. The relative radiation sensitivity of the catalytic and the allosteric properties (Chapman et al.), 178 (1969) 74
- Phosphoribosyl-aminoimidazole-succinocarboxamide synthetase**
 — from *Neurospora crassa*. I. Partial purification and properties (Fisher), 178 (1969) 380
- Phosphorylase phosphatase**
 Interconvertible forms of muscle — (Chelala, Torres), 178 (1969) 423
- Propionyl-CoA carboxylase**
 Intracellular and intramitochondrial distribution of malonyl-CoA decarboxylase and — in rat liver (Scholte), 178 (1969) 137
- Proteinase**
 Isolation and characterization of alkaline — of *Aspergillus flavus* (Turková et al.), 178 (1969) 100
- Proteinase**
 Serine-containing active center of alkaline — of *Aspergillus flavus* (Mikeš et al.), 178 (1969) 112
- Protein kinase**
 Isolation and properties of a — from rat liver microsomes (Pinna et al.), 178 (1969) 199
- Proteolytic enzymes**
 Roles of collagenases and other — in the dispersal of animal tissues (Kono), 178 (1969) 397
- Protohaem ferro-lyase**
 Effect of lipid on — (Sawada et al.), 178 (1969) 145
- Pyridoxal 5'-phosphate**
 — in α -glucan phosphorylase from the potato (Kamogawa), 178 (1969) 459
- Pyridoxamine 5-phosphate**
 Binding of — to alanine aminotransferase as measured by fluorescence spectroscopy (Churchich), 178 (1969) 480
- Pyrophosphatase**
 Evidence for the identity of alkaline phosphatase and inorganic — in rat kidney (Melani, Farnararo), 178 (1969) 93
- Pyruvate kinase**
 Two types of — in *Escherichia coli* K12 (Malcovati, Kornberg), 178 (1969) 420
- Ribonucleases**
 Studies on rat liver —. II. Studies on heterogeneity of liver lysosomes. Intracellular localization of acid ribonuclease and acid phosphatase in rats of various ages (Rahman, Cerny), 178 (1969) 61
- Ribonucleases**
 Studies on rat liver —. IV. Liver ribonucleases in developing, partially hepatectomized rats fed with 2-acetylaminofluorene (Rahman et al.), 178 (1969) 68
- Sodium + potassium-activated ATPase**
 Studies on —. XXIII. A magnesium-ATPase in *Escherichia coli*, activated by monovalent cations (Hafkenschied, Bonting), 178 (1969) 128
- Sodium + thallium-activated ATPase**
 Thallium-induced dephosphorylation of a phosphorylated intermediate of the — (Inturrisi), 178 (1969) 630
- Succinate dehydrogenase**
 Studies on —. IV. Kinetics of the overall reaction catalysed by preparations of the purified enzyme (Zejilemaker et al.), 178 (1969) 213
- Tetraphenylboron**
 Enzyme inhibition by — (Stanbury, Wicken), 178 (1969) 403
- Thallium**
 —-induced dephosphorylation of a phosphorylated intermediate of the (sodium + thallium)-activated ATPase (Inturrisi), 178 (1969) 630
- Trehalase**
 Allosteric effects and phlorizin inhibition of intestinal — (Semenza, Řihová), 178 (1969) 393
- Tributyrylase**
 Characteristics and distribution of fluoride-sensitive — in rat tissues (Crum, Lech), 178 (1969) 508
- Trypsin**
 Binding of competitive inhibitors on the different pH-dependent forms of — (Béchet, D'Albis), 178 (1969) 561
- UDP-glucose: α -1,4-glucan α -4-glucosyltransferase**
 — in heart. Two forms of the enzyme, interconversion reactions and properties (Larner et al.), 178 (1969) 470
- UDP-glucose pyrophosphorylase**
 Time-dependent increase in — activity in vitro (Fitzgerald et al.), 178 (1969) 491
- UDP-D-glucuronate 4-epimerase**
 — in blue-green algae (Ankel, Tischer), 178 (1969) 416
- Urocanase**
 Effect of substrate analogues on the activity of cat liver — (Swaine), 178 (1969) 609
- Vitamin A**
 Purification and properties of the enzyme ATP sulphurylase and its relation to — (Levi, Wolf), 178 (1969) 262
