

SUBJECT INDEX

- β -N-Acetyl-D-glucosaminidase
Esterase activities of — preparations
(Leaback), 191 (1969) 105
- Aconitate hydratase isozymes
— Subcellular location, tissue distribution and possible subunit structure (Koen, Goodman), 191 (1969) 698
- Adenine phosphoribosyltransferase
Inhibition of — by pyrophosphate
(Gadd, Henderson), 191 (1969) 735
- Adenosine 3',5'-cyclic phosphorotioate
Enzymatic hydrolysis of — (Eckstein, Bär), 191 (1969) 316
- Adrenal enzymes
Submicrosomal distribution of — and cytochrome P-450 related to corticoidogenesis (Inano et al.), 191 (1969) 257
- L-Alanine dehydrogenase
Relationship of — and L-glutamate dehydrogenase of *Bacillus thuringiensis* (Borris, Aronson), 191 (1969) 716
- Alcohol dehydrogenase
Subcellular localization of — activity in baker's yeast (Heick et al.), 191 (1969) 493
- Alkaline phosphatase
Intermediates in the hydrolysis of ATP by human — (Moss, Walli), 191 (1969) 476
- Alkaline phosphatase
Purification and properties of — from beef brain (Brunel et al.), 191 (1969) 621
- Amine oxidase
Electron paramagnetic resonance spectra of — from *Aspergillus niger* (Yamada et al.), 191 (1969) 751
- L-Amino-acid oxidase
— I. Effect of pH (Page, Van Etten), 191 (1969) 38
- L-Amino-acid oxidase
pH-dependent deuterium isotope effects on — (Page, Van Etten), 191 (1969) 190
- Amino acid racemases
Studies on —. II. Purification and properties of the glutamate racemase from *Lactobacillus fermenti* (Diven), 191 (1969) 702
- Aminoacylase
Palo Verde (*Parkinsonia aculeata* L.) seed — (Lugay, Aronson), 191 (1969) 397
- AMP deaminase
Purification and properties of rat liver — (Smith, Kizer), 191 (1969) 415
- Angiotensin
Purification and properties of endopeptidase from rabbit red cells and its process of degradation of — (Kokubu et al.), 191 (1969) 668
- Arginase
Ferrous ions as the cofactor of — in vivo. I. Properties of yeast arginase metallocomplexes of known composition and of native arginase (Middelhoven), 191 (1969) 110
- Arginase
Ferrous ion as the cofactor of — in vivo. II. Experiments on the replacement of ferrous ions in native yeast arginase by other cations in vivo (Middelhoven et al.), 191 (1969) 122
- Aromatic synthetic enzyme aggregate
Purification and properties of the — of *Neurospora crassa* (Burgoyne et al.), 191 (1969) 452
- Arylamidase
Partial purification and some properties of bovine heart — (Brecher et al.), 191 (1969) 472
- Aspartate aminotransferase
Nuclear magnetic resonance studies of exchange reaction of α -hydrogen of glutamic acid catalyzed by — (Kobayashi, Makino), 191 (1969) 738
- ATPase
(Mg^{2+} - Na^{+} - K^{+})- — activity of liver from tumour bearing rats (Rubenstein), 191 (1969) 760
- ATPase
Ontogenesis of microsomal — in the rabbit kidney (Beyth, Gutman), 191 (1969) 195
- ATPase
Similar modifying effects of oligomycin and ATP on the K^{+} -dependent p-nitrophenyl-phosphatase activity of the sodium + potassium-activated — (Askari), 191 (1969) 198
- Bacillus cereus*
Purification and mode of action of a lytic enzyme from — (Csuzi), 191 (1969) 200
- Catalases
Gel filtration on Sephadex G-100 of peroxidases, —, phenol oxidases and β -indoleacetic acid oxidases from root extracts of *Lens* and of *Pisum* (Gaspar et al.), 191 (1969) 463
- Catalase
Tissue and subcellular distribution of multiple forms of — in the rat (Holmes, Masters), 191 (1969) 488
- Cellulose matrices
Properties of two phosphatases attached to insoluble — (Wheeler et al.), 191 (1969) 187
- Cetyltrimethylammonium bromide
Effects of — on catalytic properties of kidney microsomal glucose-6-phosphatase,

- inorganic pyrophosphate-glucose phosphotransferase and inorganic pyrophosphatase activities (Soodma, Nordlie), 191 (1969) 636
- Cholinesterases
Preparation and properties of — covalently bound to Sepharose (Axen et al.), 191 (1969) 478
- Chymotrypsins
Isolation and properties of two — from the turtle *Pseudemys elegans* (Möckel, Barnard), 191 (1969) 370
- Chymotrypsins
Sedimentation equilibrium studies of some turtle — (Derechin et al.), 191 (1969) 379
- Collagenase
Extractable — from crustacean hepatopancreas (Eisen, Jeffrey), 191 (1969) 517
- Corticoidogenesis
Submicrosomal distribution of adrenal enzymes and cytochrome P-450 related to — (Inano et al.), 191 (1969) 257
- Cyanide
Effects of — on phenoxazinone synthetase (Nishimura, Golub), 191 (1969) 724
- Cytochrome P-450
Submicrosomal distribution of adrenal enzymes and — related to corticoidogenesis (Inano et al.), 191 (1969) 257
- Deoxycytidylate deaminase
Stabilization of — from mammalian tissues (Sonoda, Endo), 191 (1969) 425
- Deuterated enzymes
Purification and characterization of fully — (Rokop et al.), 191 (1969) 707
- Dihydrodipicolinic acid synthase
— of *Bacillus licheniformis* (Stahly), 191 (1969) 439
- Dihydrofolate reductases
Gel filtration behaviour of — from culture forms of trypanosomatids (Gutteridge et al.), 191 (1969) 753
- Dihydropteridine reductase
Beef adrenal medulla — (Musacchio), 191 (1969) 485
- Dinucleotide pyrophosphatase
Zinc requirement of — in mammalian organs (Corder, Lowry), 191 (1969) 579
- DNA polymerase
Polyacrylamide gel electrophoresis of — from Ehrlich ascites tumour cells and recovery of active enzyme (Brown), 191 (1969) 731
- Elastases
Two distinct — from different strains of *Pseudomonas aeruginosa* (Suss et al.), 191 (1969) 179
- Electron paramagnetic resonance
— spectra of amine oxidase from *Aspergillus niger* (Yamada et al.), 191 (1969) 751
- Endopeptidase
Purification and properties of — from rabbit red cells and its process of degradation of angiotensin (Kokubu et al.), 191 (1969) 668
- Enzyme kinetic parameters
Analytical method for the estimation of — (Brestkin et al.), 191 (1969) 155
- Esterases
Common and species-specific serum — of equidae. I. Horse and donkey (Kaminski), 191 (1969) 611
- Esterase activities
— of β -N-acetyl-D-glucosaminidase preparations (Leaback), 191 (1969) 105
- Extracellular proteinase
Activity against a synthetic substrate by a preparation of — from *Serratia marcescens* (McQuade, Crewther), 191 (1969) 762
- β -Galactosidase
Influence of monovalent cations and hydrostatic pressure on — activity (Becker, Evans), 191 (1969) 95
- α -Galactosidase
Inhibition, transgalactosylation and mechanism of action of sweet almond — (Dey), 191 (1969) 644
- β -1,3-Glucan hydrolases
— from *Euglena gracilis*. I. The nature of the hydrolases (Barras, Stone), 191 (1969) 329
- β -1,3-Glucan hydrolases
— from *Euglena gracilis*. II. Purification and properties of the β -1,3-glucan exohydrolase (Barras, Stone), 191 (1969) 342
- Glucose-6-phosphatase
Effects of cetyltrimethylammonium bromide on catalytic properties of kidney microsomal —, inorganic pyrophosphate-glucose phosphotransferase and inorganic pyrophosphatase activities (Soodma, Nordlie), 191 (1969) 636
- Glucose-6-phosphate dehydrogenase
Inhibition of — from Ehrlich ascites carcinoma by ATP (Greenhouse et al.), 191 (1969) 167
- Glucose-6-phosphate dehydrogenase
Protein structure and enzymatic activity. II. Purification and properties of a crystalline — from *Candida utilis* (Engel et al.), 191 (1969) 509
- β -Glucosidase
Identity of — and β -xylosidase activities in rat liver lysosomes (Patel, Tappel), 191 (1969) 86
- β -Glucosidase
Purification and properties of a fungal — acting on α -tomatine (Durbin, Uchytel), 191 (1969) 176
- β -Glucosidase
— and β -xylosidase of rat kidney (Patel, Tappel), 191 (1969) 653
- Glucuronyl transferase
Studies on the activation in vitro of — (Winsnes), 191 (1969) 279
- L-Glutamate dehydrogenase
Relationship of L-alanine and — of Ba-

- cillus thuringiensis (Borris, Aronson), 191 (1969) 716
- Glutamate racemase
 Studies on amino acid racemases. II. Purification and properties of the — from *Lactobacillus fermenti* (Diven), 191 (1969) 702
- Glutamic acid
 Nuclear magnetic resonance studies of exchange reaction of α -hydrogen of — catalyzed by aspartate aminotransferase (Kobayashi, Makino), 191 (1969) 738
- L-Glutamyl-L-proline dipeptide hydrolase
 Studies on intestinal hydrolysis of peptides. I. — activity in the human small intestine (Rubino et al.), 191 (1969) 663
- Glutathione peroxidase
 Kinetics of — (Flohé, Brand), 191 (1969) 541
- Glutathione reductase
 Characterization of an NADPH-dependent coenzyme A-SS- — from yeast (Ondarza et al.), 191 (1969) 239
- Glyceraldehydephosphate dehydrogenase
 Binding and properties of NAD⁺ in — from lobster-tail muscle (De Vijlder et al.), 191 (1969) 214
- Glyceraldehydephosphate dehydrogenase
 Function and role of NAD⁺ in mechanism of action of rabbit-muscle — (De Vijlder et al.), 191 (1969) 221
- Glyceraldehyde-3-phosphate dehydrogenase
 Reaction of the sulphydryl groups of lobster-muscle — with organic mercurials (Wassarman et al.), 191 (1969) 1
- Glycogen synthetase
 Interconvertible forms of — in *Neurospora crassa* (Téllez-Iñón et al.), 191 (1969) 765
- Glycopeptide
 Properties of a lipase from *Rhizopus arrhizus*. Separation of a — bound to the enzyme (Sémériva et al.), 191 (1969) 598
- Guanyl cyclase
 Detection of — in mammalian tissues (White, Aurbach), 191 (1969) 686
- Hydrogenase
 Comparative studies of bacterial — (Kidman et al.), 191 (1969) 170
- Hydroxylation
 — of proline and lysine in procollagen involves two separate enzymatic sites (Weinstein et al.), 191 (1969) 747
- 2-Hydroxy-5-nitrobenzyl bromide
 Titration of malate dehydrogenase with — (Schellenberg, McLean), 191 (1969) 727
- β -Indoleacetic acid oxidases
 Gel filtration on Sephadex G-100 of peroxidases, catalases, phenol oxidases and — from root extracts of *Lens* and of *Pisum* (Gaspar et al.), 191 (1969) 463
- Isocitrate dehydrogenase
 Binding of substrates by native and chemically modified — (Colman), 191 (1969) 469
- β -Isocitrate dehydrogenase
 Factors affecting urea inactivation of NADP-specific — (Reeves, Brehmeyer), 191 (1969) 722
- Isocitrate dehydrogenase
 NAD-specific — from a plant source. Sigmoid kinetics and enzyme stability (Dennis), 191 (1969) 719
- Isocitrate dehydrogenase
 Subunits of porcine heart NADP-linked — (Magar, Robbins), 191 (1969) 173
- Isocitrate dehydrogenase (NADP⁺)
 Isolation and purification of the — of *Azotobacter vinelandii* (Barrera, Jurtshuk), 191 (1969) 193
- Kinetics
 — of glutathione peroxidase (Flohé, Brand), 191 (1969) 541
- Kinetics
 — of water-insoluble phosphoglycerate mutase, (Bernfeld et al.) 191 (1969) 570
- Kinetic parameters of enzymes
 Analytical method for the estimation of — (Brestkin et al.), 191 (1969) 155
- Lactase
 Purification and properties of — from monkey kidney (Swaminathan, Radhakrishnan), 191 (1969) 322
- Lactate dehydrogenase
 Stabilization of — and malate dehydrogenase by organic solvents (George et al.), 191 (1969) 466
- Lactate dehydrogenase
 Studies on crystalline — from cardiac and skeletal muscle of plaice (*Pleuronectes platessa*) with particular reference to temperature (Cowey et al.), 191 (1969) 205
- Lactate dehydrogenase isozymes
 — in the outer segments of the retina (Etingof et al.), 191 (1969) 728
- Lipase
 Esters of phenols as substrates for pancreatic — (Brockerhoff), 191 (1969) 181
- Lipase
 Properties of a — from *Rhizopus arrhizus*. Separation of a glycopeptide bound to the enzyme (Sémériva et al.), 191 (1969) 598
- Lysine
 Hydroxylation of proline and — in procollagen involves two separate enzymatic sites (Weinstein et al.), 191 (1969) 747
- L-Lysine methyl ester
 Kinetics of the trypsin-catalyzed hydrolysis and ethanolysis of — (Castañeda-Agulló et al.), 191 (1969) 362
- Lysosomal acid phosphatase
 4-Methylumbelliferyl phosphate as a substrate for — (Robinson, Willcox), 191 (1969) 183
- Lysosomal localization
 — of sphingomyelinase in rat liver (Fowler), 191 (1969) 481

- Lysosomes**
 Identity of β -glucosidase and β -xylosidase activities in rat liver — (Patel, Tappel), 191 (1969) 86
- Lytic enzyme**
 Purification and mode of action of a — from *Bacillus cereus* (Csuzi), 191 (1969) 200
- Magnesium-sodium-potassium-ATPase**
 — activity of liver from tumour bearing rats (Rubenstein), 191 (1969) 760
- Malate dehydrogenase**
 Stabilization of lactate dehydrogenase and — by organic solvents (George et al.), 191 (1969) 466
- Malate dehydrogenase**
 Titration of — with 2-hydroxy-5-nitrobenzyl bromide (Schellenberg, McLean), 191 (1969) 727
- 6-Methylsalicylic acid decarboxylase**
 — from *Penicillium patulum*, (Light), 191 (1969) 430
- 4-Methylumbelliferyl phosphate**
 — as a substrate for lysosomal acid phosphatase (Robinson, Willcox), 191 (1969) 183
- Mitochondrial ATPase**
 Ontogenesis of — in the rabbit kidney (Beyth, Gutman), 191 (1969) 195
- Microsomal glucose-6-phosphatase**
 Effects of cetyltrimethylammonium bromide on catalytic properties of kidney —, inorganic pyrophosphate-glucose phosphotransferase and inorganic pyrophosphatase activities (Soodsma, Nordlie), 191 (1969) 636
- NADH**
 Phosphotransacetylase of *Escherichia coli* B. II. Activation by pyruvate and inhibition by — and certain nucleotides (Suzuki), 191 (1969) 559
- NADP-specific β -isocitrate dehydrogenase**
 Factors affecting urea inactivation of —, (Reeves, Brehmeyer), 191 (1969) 722
- NAD-specific isocitrate dehydrogenase**
 — from a plant source. Sigmoid kinetics and enzyme stability (Dennis), 191 (1969) 719
- Nitrogenase**
 Comparisons and cross reactions of — from *Klebsiella pneumoniae*, *Azotobacter chroococcum* and *Bacillus polymyxa* (Kelly), 191 (1969) 527
- p-Nitrophenylphosphatase**
 Similar modifying effects of oligomycin and ATP on the K^+ -dependent — activity of the sodium + potassium-activated ATPase (Askari), 191 (1969) 198
- Nuclear magnetic resonance**
 — studies of exchange reaction of α -hydrogen of glutamic acid catalyzed by aspartate aminotransferase (Kobayashi, Makino), 191 (1969) 738
- Nucleotides**
 Phosphotransacetylase of *Escherichia coli* B. II. Activation by pyruvate and inhibition by NADH and certain — (Suzuki), 191 (1969) 559
- 3',5'-Nucleotide phosphodiesterase**
 Cyclic —: Properties of a partially inactive enzyme and its subsequent stimulation by snake venom (Cheung), 191 (1969) 303
- Octopine dehydrogenase**
 —: Purification and catalytic properties (Thoai et al.), 191 (1969) 46
- Parkinsonia aculeata**
 Palo Verde (— L.) seed aminoacylase (Lugay, Aronson), 191 (1969) 397
- Peptide hydrolysis**
 Studies on intestinal —. I. L-Glutaminyll-proline dipeptide hydrolase activity in the human small intestine (Rubino et al.), 191 (1969) 663
- Peroxidases**
 Gel filtration on Sephadex G-100 of —, catalases, phenol oxidases, and β -indoleacetic acid oxidases from root extracts of *Lens* and of *Pisum* (Gaspar et al.) 191 (1969) 463
- Phenacylchymotrypsins**
 Formation and activities of substituted — (Gibian et al.), 191 (1969) 677
- Phenol oxidases**
 Gel filtration on Sephadex G-100 of peroxidases, catalases, — and β -indoleacetic acid oxidases from root extracts of *Lens* and of *Pisum* (Gaspar et al.), 191 (1969) 463
- Phenoxazinone synthetase**
 Effects of cyanide on — (Nishimura, Golub), 191 (1969) 724
- Phenylalanine hydroxylase**
 Direct assay for liver — (Bublitz), 191 (1969) 249
- Phosphatase**
 Intermediates in the hydrolysis of ATP by human alkaline — (Moss, Walli), 191 (1969) 476
- Phosphatase**
 4-Methylumbelliferyl phosphate as a substrate for lysosomal acid — (Robinson, Willcox), 191 (1969) 183
- Phosphatases**
 Properties of two — attached to insoluble cellulose matrices (Wheeler et al.), 191 (1969) 187
- Phosphodeoxyribomutase**
 New assay for —: Surface localisation of the enzyme (Beacham), 191 (1969) 158
- Phosphofructokinase**
 Regulatory properties of primate sperm — (Hoskins, Stephens), 191 (1969) 292
- Phosphoglycerate mutase**
 Kinetics of water-insoluble —, (Bernfeld et al.), 191 (1969) 570
- Phospholipases**
 Succinate dehydrogenase. II. The effect of — on particulate and soluble succinate

- dehydrogenase (Cerletti et al.), 191 (1969) 502
- Phosphotransacetylase
— of *Escherichia coli* B. I. Purification and properties (Shimizu et al.), 191 (1969) 550
- Phosphotransacetylase
— of *Escherichia coli* B. II. Activation by pyruvate and inhibition by NADH and certain nucleotides (Suzuki), 191 (1969) 559
- Plasma
Acid and alkaline ribonucleases of — (Farkas), 191 (1969) 740
- Porphobilinogenase
Porphyrin biosynthesis. VI. Separation and purification of porphobilinogen deaminase and uroporphyrinogen isomerase from cow liver. — an allosteric enzyme (Sancovich et al.), 191 (1969) 130
- Porphobilinogen deaminase
Porphyrin biosynthesis. VI. Separation and purification of — and uroporphyrinogen isomerase from cow liver. Porphobilinogenase an allosteric enzyme (Sancovich et al.), 191 (1969) 130
- Porphyrin biosynthesis
— VI. Separation and purification of porphobilinogen deaminase and uroporphyrinogen isomerase from cow liver. Porphobilinogenase an allosteric enzyme (Sancovich et al.), 191 (1969) 130
- Proline
Hydroxylation of — and lysine in procollagen involves two separate enzymatic sites (Weinstein et al.), 191 (1969) 747
- Proteinase
Activity against a synthetic substrate by a preparation of extracellular — from *Serratia marcescens* (McQuade, Crewther), 191 (1969) 762
- Protecollagen
Hydroxylation of proline and lysine in — involves two separate enzymatic sites (Weinstein et al.), 191 (1969) 747
- Pyrophosphatase
Effects of cetyltrimethylammonium bromide on catalytic properties of kidney microsomal glucose-6-phosphatase, inorganic pyrophosphate-glucose phosphotransferase and inorganic — activities (Soodsma, Nordlie), 191 (1969) 636
- Pyrophosphatase
Zinc requirement of dinucleotide — in mammalian organs (Corder, Lowry), 191 (1969) 579
- Pyrophosphate
Inhibition of adenine phosphoribosyltransferase by — (Gadd, Henderson), 191 (1969) 735
- Pyrophosphate-glucose phosphotransferase
Effects of cetyltrimethylammonium bromide on catalytic properties of kidney microsomal glucose-6-phosphatase, inorganic — and inorganic pyrophosphatase activities (Soodsma, Nordlie), 191 (1969) 636
- Pyrrolidonecarboxyl peptidase
— from rat liver (Armentrout), 191 (1969) 756
- Pyruvate
Phosphotransacetylase of *Escherichia coli* B. II. Activation by — and inhibition by NADH and certain nucleotides (Suzuki), 191 (1969) 559
- Pyruvate kinase
Purification of rabbit muscle — by CM-Sephadex and evidence for an endogenous inhibitor (Bondar, Pon), 191 (1969) 743
- Racemases
Studies on amino acid —. II. Purification and properties of the glutamate racemase from *Lactobacillus fermenti* (Diven), 191 (1969) 702
- Renin-like enzyme
— of rabbit uterus (Ryan, Johnson), 191 (1969) 386
- Retina
Isozymes of lactate dehydrogenase in the outer segments of the — (Etingof et al.), 191 (1969) 728
- Ribonuclease
Acid and alkaline — of plasma (Farkas), 191 (1969) 740
- Ribonuclease
Purification and properties of a — from *Avena* leaf tissue (Wyen et al.), 191 (1969) 588
- Salicylate hydroxylase
Mechanism of the — reaction. II. The enzyme-substrate complex (Takemori et al.), 191 (1969) 58
- Salicylate hydroxylase
Mechanism of the — reaction. III. Characterization and reactivity of chemically or photochemically reduced enzyme-flavin (Takemori et al.), 191 (1969) 69
- Salicylate hydroxylase
Mechanism of the — reaction. IV. Fluorometric analysis of the complex formation (Suzuki et al.), 191 (1969) 77
- Serum esterases
Common and species-specific — of equidae. I. Horse and donkey (Kaminski), 191 (1969) 611
- Sodium-potassium-activated ATPase
Similar modifying effects of oligomycin and ATP on the K⁺-dependent p-nitrophenylphosphatase activity of the — (Askari), 191 (1969) 198
- Sphingomyelinase
Lysosomal localization of — in rat liver (Fowler), 191 (1969) 481
- Subcellular localization
— of alcohol dehydrogenase activity in baker's yeast (Heick et al.), 191 (1969) 493
- Subunit structure
Aconitate hydratase isozymes. Subcellular, location, tissue distribution and possible — (Koen, Goodman), 191 (1969) 698

- Succinate dehydrogenase
 ———. II. Effect of phospholipases on particulate and soluble succinate dehydrogenase (Cerletti et al.), 191 (1969) 502
- Succinate dehydrogenase
 Inhibition of ——— by oxaloacetate (Wojtczak et al.), 191 (1969) 10
- Succinate dehydrogenase
 Kinetic studies of ——— by electron paramagnetic resonance spectroscopy (DerVaratianian et al.), 191 (1969) 22
- Succinate dehydrogenase
 Studies on ———. V. Inhibition by oxaloacetate (Zeylemaker et al.), 191 (1969) 229
- α -Tomatine
 Purification and properties of a fungal β -glucosidase acting on ——— (Durbin, Uchytíl), 191 (1969) 176
- Transgalactosylation
 Inhibition, ——— and mechanism of action of sweet almond α -galactosidase (Dey), 191 (1969) 644
- Trypanosomatids
 Gel filtration behaviour of dihydrofolate reductases from culture forms of ——— (Gutteridge et al.), 191 (1969) 753
- Trypsin-catalyzed hydrolysis
 Kinetics of the ——— and ethanolysis of L-lysine methyl ester (Castañeda-Agulló et al.), 191 (1969) 362
- Trypsin-catalyzed transesterification
 Influence of a free α -ammonium group in the substrate upon ——— (Del Castillo et al.), 191 (1969) 354
- Tyrosine aminotransferase
 Induction of ——— in isolated liver cells (Huang, Ebner), 191 (1969) 161
- UDP-glucose:glycogen α -4-glucosyltransferase
 I
 ——— kinase activity of purified muscle protein kinase. Cyclic nucleotide specificity (Schlender et al.), 191 (1969) 272
- Uridinediphosphoglucose 4-epimerase
 Inhibition of mammalian ——— by the dithiothreitol-stimulated formation of NADH (Tedesco, Mellman), 191 (1969) 144
- Uroporphyrinogen isomerase
 Porphyrin biosynthesis. VI. Separation and purification of porphobilinogen deaminase and ——— from cow liver. Porphobilinogenase an allosteric enzyme (Sancovich et al.), 191 (1969) 130
- Xanthine oxidase
 Properties of the ——— from human liver (Della Corte et al.), 191 (1969) 164
- β -Xylosidase
 β -Glucosidase and ——— of rat kidney (Patel, Tappel), 191 (1969) 653
- β -Xylosidase
 Identity of β -glucosidase and ——— activities in rat liver lysosomes (Patel, Tappel), 191 (1969) 86
