VOLUME CODING FOR BBA-ENZYMOLGY

BBA is published according to a volume-numbering scheme that embraces all sections of the journal: for 1970 the scheme—covering the volumes 196–224—is to be found on the inside cover of this issue. The seven individual sections are distinguished by a colour code. In addition to the colour code each section is given its own sequential volume numbers. This system runs parallel to the overall BBA scheme: for the ENZYMOLOGY section the correspondence is indicated in the Table below. This issue is therefore BIOCHIMICA ET BIOPHYSICA ACTA, Vol. 206/3 or BBA-ENZYMOLGY E30/3.
