VOLUME CODING FOR BBA-ENZYMOLOGY

BBA is published according to a volume-numbering scheme that embraces all sections of the journal: for 1972 the scheme—covering the volumes 255–290—is to be found on the inside cover of this issue. The seven individual sections are distinguished by a colour code. In addition to the colour code each section is given its own sequential volume numbers. This system runs parallel to the overall BBA scheme; for the ENZYMOLOGY section the correspondence is indicated in the Table below. This issue is therefore BIOCHIMICA ET BIOPHYSICA ACTA, Vol. 289/2 or BBA-ENZYMOLOGY E41/2.
