

## SUBJECT INDEX

- Acetylcholinesterase  
 Spontaneous reactivation and aging of dimethylphosphorylated — and cholinesterase (Škrinjaric-Špoljar et al.) (315) 363
- N-Acetyl- $\beta$ -D-glucosaminidase  
 — of nerve cells: a developmental study of two molecular components (Sellinger et al.) (315) 128
- Acid phosphatase  
 Golgi apparatus — (Nyquist, Mollenhauer) (315) 103
- Adenosine 3',5'-cyclic monophosphate  
 Multiple forms of — -dependent protein kinase from monkey skin (Kumar et al.) (315) 66
- Adenosine 3',5'-monophosphate phosphodiesterase  
 — assay in tissue homogenates (Rutten et al.) (315) 378
- Adenosine 3',5'-monophosphate phosphodiesterase  
 — in rat pancreas (Rutten et al.) (315) 384
- Adenosine 5'-phosphosulphate sulphohydrolase  
 Kinetic properties of the soluble — from bovine liver (Stokes et al.) (315) 402
- Alcohol dehydrogenase  
 Purification and properties of a membrane-bound — involved in oxidation of long chain hydrocarbons by *Pseudomonas aeruginosa* (Tassin et al.) (315) 220
- Alkaline phosphatase  
 Inorganic pyrophosphatase activity of bovine brain — (Cathala, Brunel) (315) 73
- Alkaline phosphatase  
 pH and anion dependent salt modifications of — from a slightly halophilic *Vibrio alginolyticus* (Hayashi et al.) (315) 83
- Alkaline phosphatase  
 Relation of heavy metals to the activity and heat stability of — from human placenta (Hindriks et al.) (315) 94
- Aminobutyrate aminotransferase  
 Sulphinic and sulphonic analogues of  $\gamma$ -aminobutyric acid and succinate semialdehyde, new substrates for the — and the succinate semialdehyde dehydrogenase of *Pseudomonas fluorescens* (Gomez de Gracia, Jollès-Bergeret) (315) 49
- $\gamma$ -Aminobutyric acid  
 Sulphinic and sulphonic analogues of — and succinate semialdehyde, new substrates for the aminobutyrate aminotransferase and succinate semialdehyde dehydrogenase of *Pseudomonas fluorescens* (Gomez de Gracia, Jollès-Bergeret) (315) 49
- Aminotransferase  
 Specific changes in the activity of tyrosine — isoenzymes in rat liver after cortisol treatment and partial hepatectomy (Mertvetsov et al.) (315) 61
- Angiotensin I converting enzyme  
 Purification of the — of the lung (Nakajima et al.) (315) 430
- D-Apiitol dehydrogenase  
 Purification of a specific — from a micrococcus isolated from the surface of germinating parsley seeds (Hanna et al.) (315) 259
- Arabinose (fucose) dehydrogenase  
 — from pig liver. I. Isolation and characterization (Maijub et al.) (315) 37
- ATPase  
 Conformational change with temperature of — from *Bacillus stearothermophilus* (Hachimori, Nosoh) (315) 481
- Ceruloplasmin  
 EPR study of nitric oxide-treated reduced — (van Leeuwen et al.) (315) 200
- Cholesterol  
 Solubilization and properties of bovine adrenal cortical cytochrome P-450 which cleaves the — side chain (Ramseyer, Harding) (315) 306
- Cholinesterase  
 Spontaneous reactivation and aging of dimethylphosphorylated acetylcholinesterase and — (Škrinjaric-Špoljar et al.) (315) 363
- CMP-N-acetylneuraminic acid synthetase  
 Subcellular and regional distribution of — in the calf kidney (van Dijk et al.) (315) 162
- Collagen metabolism  
 —. II. Enzymic formation of pyrrole-2-carboxylic acid from L-hydroxyproline in rat (Iguchi et al.) (315) 285
- Cyclic adenosine 3',5'-monophosphate phosphodiesterase  
 Multiple forms of — from human blood platelets. I. Kinetic and electrophoretic characterization of two molecular species (Pichard et al.) (315) 370
- Cytochrome P-450  
 Solubilization and properties of bovine adrenal cortical — which cleaves the cholesterol side chain (Ramseyer, Harding) (315) 306
- Cytosine deaminase  
 Effect of pH on the allosteric properties of baker's yeast — (Balestreri et al.) (315) 443
- Enterokinase  
 Porcine —. Further purification and some molecular properties (Baratti et al.) (315) 147
- Enzyme systems  
 Influence of premixing on transient-phase kinetics for two-substrate — (Hijazi, Laidler) (315) 209
- Flavodoxin

- Studies on the kinetics and mechanism of reduction of — from *Peptostreptococcus elsdenii* by sodium dithionite (Mahew, Massey) (315) 181
- (Fucose) dehydrogenase  
Arabinose — from pig liver (Maijoub et al.) (315) 37
- Glucoamylase  
Properties of human intestinal — (Kelly, Alpers) (315) 113
- $\gamma$ -Glutamyl cyclotransferase  
Purification, properties and function of a unique — from the housefly, *Musca domestica* L. (Bodnaryk, McGirr) (315) 352
- Glyceraldehyde-phosphate dehydrogenase  
Effect of substrates, effectors, acetyl phosphate and iodoacetate on the binding of  $\text{NAD}^+$  and NADH to rabbit-muscle — (Boers, Slater) (315) 272
- Glycogen phosphorylase b  
Proton magnetic resonance studies on SH groups in — (Gáspár, Damjanovich) (315) 191
- Glucogen synthases  
Proof of phosphorylation and evidence for different primary structure of phosphorylated sites of — from rabbit and frog tissues (Rosenkrans, Lerner) (315) 317
- Golgi apparatus  
— acid phosphatase (Nuquist, Mollenhauer) (315) 103
- Haematin  
Horseradish peroxidase with 2,4-modified —, including vinyl homologues (Ohlsson, Paul) (315) 293
- Hydrocarbons  
Purification and properties of a membrane-bound alcohol dehydrogenase involved in oxidation of long chain — by *Pseudomonas aeruginosa* (Tassin et al.) (315) 220
- L-Hydroxyproline  
Collagen metabolism. II. Enzymic formation of pyrrole-2-carboxylic acid from — in rat (Iguchi et al.) (315) 285
- 3 $\beta$ -Hydroxysteroid dehydrogenases  
Inhibitors of human placental  $\text{C}_{10}$  and  $\text{C}_{21}$  — (Goldman, Sheth) (315) 233
- Immobilized enzymes  
— Synthesis of a new type of polyanionic and polycationic resins and their utilization for the preparation of water-insoluble enzyme derivatives (Goldstein) (315) 1
- Immobilized enzymes  
Preparation of — by  $\gamma$ -ray irradiation (Maeda et al.) (315) 18
- Inulase II  
Purification and properties of *Arthrobacter ureafaciens* — (Uchiyama et al.) (315) 412
- Isocitrate dehydrogenase  
Purification and properties of — (NADP) from *Thermus aquaticus* YT-1, *Bacillus subtilis*-168 and *Chlamydomonas reinhardtii*-Y-2 (Ramaley, Hudock) (315) 22
- Kinetics  
Influence of premixing on transient-phase — for two-substrate enzyme systems (Hijazi, Laidler) (315) 209
- $\beta$ -Lactamases  
Affinity chromatography of — (le Goffic et al.) (315) 439
- Lactate dehydrogenase  
Effect of temperature upon catalytic properties of — isoenzymes from a poikilotherm (Gerez de Burgos et al.) (315) 250
- $\beta$ -Mannosidase  
Properties of synovial fluid — activity (Bartholomew, Perry) (315) 123
- Microsomes  
Identification of a unique *p*-nitrophenol conjugating enzyme in guinea pig liver — (Vessey, Zakim) (315) 43
- Myrosinases  
Studies on —. II. Purification and characterization of a myrosinase from rapeseed (*Brassica napus* L.) (Lönnerdal, Janson) (315) 421
- p*-Nitrophenol conjugating enzyme  
Identification of a unique — in guinea pig liver microsomes (Vessey, Zakim) (315) 43
- Peroxidase  
Horseradish — with 2,4-modified haematin, including vinyl homologues (Ohlsson, Paul) (315) 293
- L-Phenylalanine ammonia-lyase  
Stereochemistry of ammonia elimination from L-tyrosine with — (Sawada et al.) (315) 204
- Phosphatase  
Golgi apparatus acid — (Nyquist, Mollenhauer) (315) 103
- Phosphatase  
Inorganic pyrophosphatase activity of bovine brain alkaline — (Cathala, Brunel) (315) 73
- Phosphatase  
pH and anion dependent salt modifications of alkaline — from a slightly halophilic *Vibrio alginolyticus* (Hayashi et al.) (315) 83
- Phosphatase  
Relation of heavy metals to the activity and heatstability of alkaline — from human placenta (Hindriks et al.) (315) 94
- 3'-Phosphoadenosine 5'-phosphosulphate-degrading enzymes  
Separation and properties of the soluble — of bovine liver (Denner et al.) (315) 394
- Phosphokinase  
Kinetic behaviour of — from rat liver cytosol (Baggio, Moret) (315) 347
- Platelets  
Multiple forms of cyclic adenosine 3',5'-monophosphate phosphodiesterase from human blood —. I. Kinetic and electrophoretic characterization of two molecular species (Pichard et al.) (315) 370
- Protein kinase  
Multiple forms of adenosine 3',5'-cyclic

- monophosphate-dependent — from monkey skin (Kumar et al.) (315) 66
- Protein kinase  
— in the hair follicles of the human scalp and beard (Yoshikawa, Adachi) (315) 333
- Pyrophosphatase  
Inorganic — activity of bovine brain alkaline phosphatase (Cathala, Brunel) (315) 73
- Pyrrole-2-carboxylic acid  
Collagen metabolism. II. Enzymic formation of — from L-hydroxyproline in rat (Iguchi et al.) (315) 285
- Pyruvate kinase  
Adaptability of — L in rat liver kidney, and reticulocytes without accompanying changes in the A isoenzyme (Sandoval, Carbonell) (315) 343
- Succinate semialdehyde  
Sulphinic and sulphonic analogues of  $\gamma$ -aminobutyric acid and —, new substrates for the aminobutyrate aminotransferase and the succinate semialdehyde dehydrogenase of *Pseudomonas fluorescens* (Gomez de Gracia, Jollès-Bergeret) (315) 49
- Succinate semialdehyde dehydrogenase  
Sulphinic and sulphonic analogues of  $\gamma$ -aminobutyric acid and succinic semialdehyde, new substrates for the aminobutyrate aminotransferase and the — of *Pseudomonas fluorescens* (Gomez de Gracia, Jollès-Bergeret) (315) 49
- Thioredoxin  
Purification of — from *Escherichia coli* and bacteriophage T4 by immunoadsorbent affinity chromatography (Sjöberg, Holmgren) (315) 176
- Transient-phase kinetics  
Influence of premixing on — for two-substrate enzyme systems (Hijazi, Laidler) (315) 209
- Trypsin  
ESR study of the active-site conformations of free and immobilized — (Berliner et al.) (315) 195
- Tryptophanase  
— from *Aeromonas liquefaciens*: purification, molecular weight and some chemical, catalytic and immunochemical properties (Cowell et al.) (315) 449
- Tyrosine  
Specific changes in the activity of — aminotransferase isoenzymes in rat liver after cortisol treatment and partial hepatectomy (Mertvetsov et al.) (315) 61
- Uridine diphosphate galactose 4-epimerase  
— in human and other mammalian hemolysates (Bergren et al.) (315) 464
- Vibrio alginolyticus*  
pH and anion dependent salt modifications of alkaline phosphatase from a slightly halophilic — (Hayashi et al.) (315) 83
