 The tryptophanase from *Proteus rettgeri*. Improved purification and properties of crystalline holotryptophanase (391) 494

ERRATA

BIOCHIMICA ET BIOPHYSICA ACTA, Vol. 370 (1974)

- p. 199, Table II, Column 1: change "3-mercaptophenyltrimethylammonium" to "3-Mercaptophenyltrimethylammonium acetate".
- p. 200, Table III, last column: the values opposite tetraethylammonium should read "67.0 and 130.0".
- p. 203, line 18: for "deacetylation" read "acetylation".
