

## AUTHOR INDEX

- Anderson, B., see Rosenberg, M.D. (482) 197
- Anderson, L.L., see Chollet, R. (482) 228
- Aoki, N., see Moroi, M. (482) 412
- Avaeva, S.M., Bakuleva, N.P., Baratova, L.A., Nazarova, T.I. and Fink, N.Yu. (482) 173
- Azocar, O. and Muñoz, E.  
Extrinsic and intrinsic factors that influence inactivation and purification of the unstable adenosine triphosphatase solubilized from membranes of an *Escherichia coli* K12 strain (482) 438
- Baba, A., Matsuda, T. and Iwata, H.  
Possible regulation of thiamine diphosphatase activity in rat brain microsomes by lipids (482) 71
- Bakuleva, N.P., see Avaeva, S.M. (482) 173
- Baratova, L.A., see Avaeva, S.M. (482) 173
- Barber, B., see Martinez-Carrion, M. (482) 323
- Bârzu, O., see Lascu, I. (482) 251
- Bârzu, T., see Lascu, I. (482) 251
- Baumstark, J.S., Ting Lee, C. and Luby, R.J.  
Rapid inactivation of  $\alpha_1$ -protease inhibitor ( $\alpha_1$ -antitrypsin) by elastase (482) 400
- Beitner, R., Haberman, S. and Cycowitz, T.  
The effect of cyclic GMP on phosphofructokinase from rat tissues (482) 330
- Bennett, J. and Wren, E.A.  
The interaction of p-nitrophenyl carbamate with urease (482) 421
- Berliner, A., see Rosenberg, M.D. (482) 197
- Bishop, E.O., Lambert, M.D., Orchard, D. and Smith, B.E.  
Nitrogenase of *Klebsiella pneumoniae*. Water proton NMR relaxation studies on the binding of divalent metal ions and nucleotides to the iron protein (482) 286
- Bonting, S.L., see De Pont, J.J.H.H.M. (482) 213
- Brouwer-Kelder, B., see Schram, A.W. (482) 125
- Brinkworth, R.I. and Masters, C.J.  
Ontogenic characteristics of lactate dehydrogenase turnover in the mouse (482) 241
- Bucher, D.J.  
Purification of neuraminidase from influenza viruses by affinity chromatography (482) 393
- Cacace, M.G., see Cervone, F. (482) 379
- Cervone, F., Scala, A., Foresti, M., Cacace, M.G. and Noviello, C.  
Endopolygalacturonase from *Rhizoctonia fragariae*. Purification and characterization of two isoenzymes (482) 379
- Chollet, R. and Anderson, L.L.  
Conformational changes associated with the reversible cold inactivation of ribulose 1,5-bisphosphate carboxylase-oxygenase (482) 228
- Cooper, J.R., see Ruenwongsa, P. (482) 64
- Cushley, R.J., see Grover, A.K. (482) 98
- Cushley, R.J., see Grover, A.K. (482) 109
- Cutler, B., see Rosenberg, M.D. (482) 197
- Cycowitz, T., see Beitner, R. (482) 330
- Daniel, V., see Lasser, M. (482) 41
- De Pont, J.J.H.H.M., Schoot, B.M., Van Prooijen-van Eeden, A. and Bonting, S.L.  
An essential arginine residue in the ATP-binding centre of  $(\text{Na}^+ + \text{K}^+)\text{-ATPase}$  (482) 213
- Donker-Koopman, W.E., see Schram, A.W. (482) 125
- Fink, N.Yu., see Avaeva, S.M. (482) 173
- Foresti, M., see Cervone, F. (482) 379
- Fräki, J., Ruuskanen, O. and Kouvalainen, K.  
Biochemical characterization of alkaline phosphatase in guinea pig thymus (482) 370
- Freitag, L.C., see Scouten, W.H. (482) 11
- Gaertner, F.H. and Shetty, A.S.  
Kynureninase-type enzymes and the evolution of the aerobic tryptophan-to-nicotinamide adenine dinucleotide pathway (482) 453
- Gamst, O., see Malkiewicz-Wasowicz, B. (482) 358

- Guerrero, M.G., Jetschmann, K. and Volker, W.  
The stereospecificity of nitrate reductases for hydrogen removal from reduced pyridine nucleotides (482) 19
- Guerrero, M.G. and Gutierrez, M.  
Purification and properties of the NAD(P)H:nitrate reductase of the yeast *Rhodotorula glutinis* (482) 272
- Grover, A.K. and Cushley, R.J.  
Studies on almond emulsin  $\beta$ -D-glucosidase. II. Kinetic evidence for independent glucosidase and galactosidase sites (482) 109
- Grover, A.K., Macmurchie, D.D. and Cushley, R.J.  
Studies on almond emulsin  $\beta$ -D-glucosidase. I. Isolation and characterization of a bifunctional isozyme (482) 98
- Guranowski, A. and Schneider, Z.  
Purification and characterization of adenoside nucleosidase from barley leaves (482) 145
- Gusovsky, T., see Rosenberg, M.D. (482) 197
- Gutierrez, M., see Guerrero, M.G. (482) 272
- Haberman, S., see Beitner, R. (482) 330
- Hamers, M.N., see Schram, A.W. (482) 125
- Hamers, M.N., see Schram, A.W. (482) 138
- Harding, N.G.L., see McIntyre, J. (482) 261
- Hasegawa, M., see Tashima, Y. (482) 1
- Hayashi, Y., Kimimura, M., Homareda, H. and Matsui, H.  
Purification and characteristics of (Na<sup>+</sup>, K<sup>+</sup>)-ATPase from canine kidney by zonal centrifugation in sucrose density gradient (482) 185
- Homareda, H., see Hayashi, Y. (482) 185
- Hosey, M.M. and Tao, M.  
Protein kinases of rabbit and human erythrocyte membranes. Solubilization and characterization (482) 348
- Hosoda, S., Nakamura, W. and Takatsuki, K.  
Properties of tryptophan hydroxylase from human carcinoid tumor (482) 27
- Iobst, W., see Scouten, W.H. (482) 11
- Iwata, H., see Baba, A. (482) 71
- Jetschmann, K., see Guerrero, M.G. (482) 19
- Kimimura, M., see Hayashi, (482) 185
- Knowles, Jr., H., see Scouten, W.H. (482) 11
- Komoda, T. and Sakagishi, Y.  
Inhibition of alkaline phosphatase by sialic acid (482) 79
- Kon, H., see Walker, G.A. (482) 309
- Koster, J.F. and Slee, R.G.  
Some properties of human liver acid  $\alpha$ -glucosidase (482) 89
- Kouvalainen, K., see Fräki, J. (482) 370
- Lambert, M.D., see Bishop, E.O. (482) 286
- Lascu, I., Bärzu, T., Ty, N.G., Ngoc, L.D., Bärzu, O. and Mantsch, H.H.  
Regulatory effects of purine nucleotide analogs with liver glutamate dehydrogenase (482) 251
- Lasser, M. and Daniel, V.  
Altered regulation of cyclic AMP-dependent protein kinase in a mouse lymphoma cell line (482) 41
- Lovenberg, W., see Walker, G.A. (482) 309
- Luby, R.J., see Baumstark, J.S. (482) 400
- Macmurchie, D.D., see Grover, A.K. (482) 98
- Malcovati, M., see Somani, B.L. (482) 52
- Malkiewicz-Wasowicz, B., Gamst, O. and Strømme, J.H.  
The influence of changes in the phospholipid pattern of intact fibroblasts on the activities of four membrane-bound enzymes (482) 358
- Mantsch, H.H., see Lascu, I. (482) 251
- Martinez-Carrion, M., Barber, B. and Pazoles, P.  
On the determination of isozyme levels in preparations containing cytoplasmic and mitochondrial aspartate aminotransferase (482) 323
- Masters, C.J., see Brinkworth, R.I. (482) 241
- Matsuda, T., see Baba, A. (482) 71
- Matsui, H., see Hayashi, Y. (482) 185
- Mayhew, S.G. and Wassink, J.H.  
A continuous fluorometric assay for flavokinase. Properties of flavokinase from *Peptostreptococcus elsdenii* (482) 341
- McIntyre, L.J. and Harding, N.G.L.  
Reduction of oxidised folates by dihydrofolate reductase from methotrexate-resistant *Lactobacillus casei* (482) 261
- Mirelman, D., see Schindler, M. (482) 386
- Mizunuma, H., see Tashima, Y. (482) 1
- Moroi, M. and Aoki, N.  
On the interaction of  $\alpha_2$ -plasmin inhibitor and proteases. Evidence for the formation of a covalent crosslinkage and non-covalent weak bondings between the inhibitor and proteases (482) 412
- Muñoz, E., see Azocar, O. (482) 438

- Nakamura, W., see Hosoda, S. (482) 27  
 Nazarova, T.I., see Avaeva, S.M. (482) 173  
 Ngoc, L.D., see Lascu, I. (482) 251  
 Noviello, G., see Cervone, F. (482) 379
- Olofsson, T. and Olsson, I.  
 Purification of human granulocyte catalase in chronic myeloid leukemia (482) 301
- Olsson, I., see Olofsson, T. (482) 301  
 Orchard, D., see Bishop, E.O. (482) 286
- Pazoles, P., see Martinez-Carrion, M. (482) 323
- Philip, G., see Soman, G. (482) 35  
 Poulson, R., see Simpson, D.M. (482) 461
- Robinson, J.D.  
 $\text{Na}^+$  sites of the  $(\text{Na}^+ + \text{K}^+)$ -dependent ATPase (482) 427
- Rosenberg, M.D., Gusovsky, T., Cutler, B., Berliner, A.F. and Anderson, B.  
 Purification and characterization of an extracellular ATPase from oviductal secretions (482) 197
- Ruenwongsa, P. and Cooper, J.R.  
 The role of bound thiamine pyrophosphate in the synthesis of thiamine triphosphate in rat liver (482) 64
- Ruuskanen, O., see Fräki, J. (482) 370
- Sakagishi, Y., see Komoda, T. (482) 79  
 Sakagishi, Y., see Tashima, Y. (482) 1  
 Scala, A., see Cervone, F. (482) 379  
 Schindler, M., Mirelman, D. and Sharon, N.  
 Substrate-induced evolution of lysozymes (482) 386
- Schneider, Z., see Guranowski, A. (482) 145  
 Schoot, B.M., see De Pont, J.J.H.H.M. (482) 213
- Schram, A.W., Hamers, M.N. and Tager, J.M.  
 The identity of  $\alpha$ -galactosidase B from human liver (482) 138
- Schram, A.W., Hamers, M.N., Brouwer-Kelder, B., Donker-Koopman, W.E. and Tager, J.M.  
 Enzymological properties and immunological characterization of  $\alpha$ -galactosidase isoenzymes from normal and Fabry human liver (482) 125
- Schweri, M.M., see Yankeelov, Jr., J.A. (482) 159
- Scouten, W.H., Knowles, Jr., H., Freitag, L.C. and Iobst, W.  
 Lipoamide dehydrogenase immobilized on porous glass (482) 11
- Sharon, N., see Schindler, M. (482) 386  
 Shetty, A.S., see Gaertner, F.H. (482) 453  
 Simpson, D.M. and Poulson, R.  
 Effects of lipids on the activity of ferrocyclase (482) 461
- Slee, R.G., see Koster, J.F. (482) 89  
 Smith, B.E., see Bishop, E.O. (482) 286  
 Soman, G. and Philip, G.  
 Kinetic properties of  $\alpha$ -glucan phosphorylase from *Indocibium guttatum* (482) 35
- Somani, B.L., Valentini, G. and Malcovati, M.  
 Purification and molecular properties of the AMP-activated pyruvate kinase from *Escherichia coli* (482) 52
- Strömme, J.H., see Malkiewicz-Wasowicz, B. (482) 358
- Tager, J.M., see Schram, A.W. (482) 125  
 Tager, J.M., see Schram, A.W. (482) 138
