- Abe, T., see DiAugustine, R.P. (526) 518
- Abou-Issa, H. and Reichert, L.E., Jr.
Properties of particulate and detergent-solubilized adenylate cyclase of rat testis. Effects of follitropin stimulation (526) 613
- Ahmed, K., see Quarfoth, G. (526) 580
- Akowitz, A.A., see Shigekawa, M. (526) 591
- Ångström, J., see Petersson, L. (526) 311
- Awapara, J., see Srinivasan, K. (526) 597
- Bhaduri, A., see Ray, M. (526) 635
- Bhalla, R.C., see Sharma, R.V. (526) 479
- Bieth, J.G., see Wünniger, C. (526) 227
- Blatt, J.M. and Jackson, J.H.
Enhanced allosteric regulation of threonine deaminase and acetohydroxy acid synthase from *Escherichia coli* in a permeabilized-cell assay system (526) 267
- Bock, J.L. and Kowalsky, A.
Zinc stoichiometry in *Escherichia coli* alkaline phosphatase. Studies by ³¹P NMR and ion-exchange chromatography (526) 135
- Brammer, G.L., Yuwiler, A. and Wetterberg, L.
N-acetyltransferase activity of the rat Harderian gland (526) 93
- Brecher, P., Tercyak, A., Gavras, H. and Chobanian, A.V.
Peptidyl dipeptidase in rabbit brain microvessels (526) 537
- Brown, C.R. and Harrison, R.A.P.
The activation of proacrosin in spermatozoa from ram, bull and boar (526) 202
- Calvanico, N.J., see Labib, R.S. (526) 547
- Castagna, M., see Rochette-Egly, C. (526) 107
- Chan, Y.-L. and Shih, J.C.
Degradation of phenylalanine:pyruvate transaminase after glucagon treatment (526) 100
- Chandra, G.R., Mandava, N. and Warthen, J.D., Jr.
Uridine diphosphate glucose:fatty acid glucosyl transferase activity of rape (Brassica napus L.) anther tissue (526) 287
- Chobanian, A.V., see Brecher, P. (526) 537
- Christensen, U.
Allosteric effects of some antifibrinolytic amino acids on the catalytic activity of human plasma (526) 194
- Cooper, D.M.F., see Glynn, P. (526) 605
- Cottreau, D., see Kahn, A. (526) 318
- Cronenberger, L., see Savany, A. (526) 247
- Cumps, J., see Duverger-Van Bogaert, M. (526) 77
- Déak, F. and Dénes, G.
Purification and some properties of rat liver tyrosyl-tRNA synthetase (526) 626
- Degn, H., see Petersen, L.C. (526) 85
- Del Pino, E.J., see Miceli, D.C. (526) 289
- Dénes, G., see Déak, G. (526) 626
- DiAugustine, R.P., Abe, T. and Voytek, P.
Purification and comparative properties of the glycoprotein nicotinamide adenine dinucleotide glycohydrolase from rat liver microsomal and plasma membranes (526) 518
- Dimicoli, J.-L., see Wünniger, C. (526) 227
- Donelson, J.E., see Nichols, B.P. (526) 410
- Dreyfus, J.-C., see Kahn, A. (526) 318
- Duggleby, R.G. and Morrison, J.F.
Progress curve analysis in enzyme kinetics. Model discrimination and parameter estimation (526) 398
- Duverger-Van Bogaert, M., Noël, G., Rollmann, B., Cumps, J., Roberfroid, M. and Mercier, M.
Determination of oxide synthetase and hydratase activities by a new highly sensitive gas chromatographic method using styrene and styrene oxide as substrates (526) 77
- Ehrenberg, A., see Petersson, L. (526) 311
- Engasser, J.-M.
A fast evaluation of diffusion effects on bound enzyme activity (526) 301
