

Author index of commentaries

- Anfinsen, C.B.
Commentary by (1000) 197
- Avron, M.
Reflections on the early studies of the mechanism of photophosphorylation in isolated chloroplasts: a commentary by (1000) 381
- Benson, A.A. and Maruo, B.
A 'nova' in phosphate metabolism, GPG, and discovery of phosphatidylglycerol: a commentary by (1000) 447
- Brachet, J.
Recollections on the origins of molecular biology (1000) 1
- Bücher, T.
Commentary by (1000) 223
- Calvin, M.
Intermediates in the photosynthetic cycle: a commentary by (1000) 403
- Chance, B.
Commentary by (1000) 345
- Chargaff, E.
In retrospect: a commentary by (1000) 15
- Cleland, W.W.
Enzyme kinetics revisited: a commentary by (1000) 209
- Cohn, M.
The way it was: a commentary by (1000) 109
- Crane, F.L.
Comments on the discovery of coenzyme Q: a commentary by (1000) 358
- Crane, R.K.
Commentary by (1000) 431
- Dawson, R.M.C.
The isolation of a new complex lipid: triphosphoinositide from ox brain. A commentary by (1000) 459
- De Duve, C.
Commentary by (1000) 317
- Duysens, L.N.M.
The study of reaction centers and of the primary and associated reactions of photosynthesis by means of absorption difference spectrophotometry: a commentary by (1000) 395
- Ernster, L., see Lee, C.-P. (1000) 371
- Fischer, E.H. and Krebs, E.G.
Commentary by (1000) 297
- Grunberg-Manago, M.
Recollections on studies of polynucleotide phosphorylase: a commentary by (1000) 59
- Hoagland, M.B.
Commentary by (1000) 103
- Hokin, L.E. and Hokin-Neaverson, M.
Commentary by (1000) 465
- Hokin-Neaverson, M., see Hokin, L.E. (1000) 465
- Holley, R.W.
Commentary by (1000) 99
- Ingram, V.M.
A case of sickle-cell anaemia: a commentary by (1000) 147
- Kamen, M.D.
Commentary by (1000) 329
- Kedem, O.
Commentary by (1000) 411
- Kleinschmidt, A.K.
Preparation and length measurements of the total DNA content of T₂ bacteriophages: a commentary by (1000) 35
- Kornberg, A.
The early history of DNA polymerase: a commentary by (1000) 53
- Kornberg, H.L.
Travelling to, and along, the glyoxylate bypass: a commentary by (1000) 271
- Krebs, E.G., see Fischer, E.H. (1000) 297
- Larner, J. and Villar-Palasi, C.
Commentary by (1000) 311
- Lee, C.-P. and Ernster, L.
Energy-linked nicotinamide nucleotide transhydrogenase 1963–1988: a commentary by (1000) 371
- Liébecq, C.
Commentary by (1000) 251
- Linnane, A.W.
Commentary by (1000) 365
- Maruo, B., see Benson, A.A. (1000) 447
- Ochoa, S.
Enzymes of fatty acid metabolism: a commentary by (1000) 279
- Perry, S.V.
The interaction of actin and myosin 40 years ago: a commentary by (1000) 159
- Reichard, P.
Commentary by (1000) 49
- Rich, A.
On looking back at a *Biochimica et Biophysica Acta* paper published 32 years ago: a commentary by (1000) 82
- Skou, J.C.
The identification of the sodium-pump as the membrane-bound Na⁺/K⁺-ATPase: a commentary by (1000) 435
- Slater, E.C.
Commentary by (1000) 323
- Straub, F.B.
Note on the work of (1000) 179
- Villar-Palasi, C., see Larner, J. (1000) 311
- Yagi, K.
Commentary by (1000) 203
- Yanofsky, C.
Tryptophan synthetase of *E. coli*: a multifunctional, multicomponent enzyme; a commentary by (1000) 133
