Guest Editorial

Preface

- I. Bernhardt, E. Ellory and R. Wilkins 83

Special Issue Papers

Morphology of small aggregates of red blood cells

- S. Svetina and P. Zihnerl 84

Application of digital holographic microscopy to investigate the sedimentation of intact red blood cells and their interaction with artificial surfaces

- I. Bernhardt, L. Ivanova, P. Langehanenberg, B. Kemper and G. von Bally 92

Quantum mechanical scattering cross sections and permeability coefficients for ions crossing the human red cell and resting squid axon membranes

- S.G. Elkomoss, I. Bernhardt and A. Pape 97

Thermally induced transformation of mammalian red blood cells during hyperthermia

- N.V. Repin, E.N. Bobrova and S.V. Repina 101

Peculiarities of RBCs resistance to acid hemolysis in hibernating mammals

- S.V. Repina and N.V. Repin 106

Agglutination of like-charged red blood cells induced by binding of β_2 -glycoprotein I to outer cell surface

- M. Lokar, J. Urbanija, M. Frank, H. Hägerstrand, B. Rozman, M. Bobrowska-Hägerstrand, A. Iglič and V. Kralj-Iglič 110

Effects of charged amphiphiles in depolarising solutions on potassium efflux and the osmotic fragility of human erythrocytes

- A. Wróbel 117

Dielectrophoretic sorting on a microfabricated flow cytometer: Label free separation of *Babesia bovis* infected erythrocytes

- E.M. Nascimento, N. Nogueira, T. Silva, T. Braschler, N. Demierre, P. Renaud and A.G. Oliva 123

Further characterization of cation channels present in the chicken red blood cell membrane

- F. Lapaix, G. Bouyer, S. Thomas and S. Egée 129

New analytical tools and epidemiological data for the identification of HbA₂ borderline subjects in the screening for beta-thalassemia

- A. Mosca, R. Paeleari, R. Galanello, C. Sollaino, L. Perseu, F.R. Demartis, C. Passarello, A. Giambona, A. Maggio and IFCC Working Group on Standardization of HbA₂ 137

Permeability of rat and rabbit erythrocyte membranes for a series of amides

- O.I. Gordiyenko, G.V. Kovalenko, I.F. Kovalenko, V.S. Kholodnyy, T.P. Linnik and E.O. Gordiyenko 141

Evidence for a random entry of Ca²⁺ into human red cells

- M. Baunbæk and P. Bennekou 145

Changes in the intracellular Ca^{2+} content in human red blood cells in the presence of glycerol O.A. Kofanova, N.G. Zemlyanskikh, L. Ivanova and I. Bernhardt	151
Structural and functional changes in the membrane and membrane skeleton of red blood cells induced by peroxynitrite M.N. Starodubtseva, A.L. Tattersall, T.G. Kuznetsova, N.I. Yegorenkov and J.C. Ellory	155

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. Please refer to the online version of the Guide for Authors at http://www.elsevier.com/locate/bioelechem
