

## Announcement

---

### **INTERNATIONAL SYMPOSIUM ON METALS IN COASTAL ENVIRONMENTS OF LATIN AMERICA**

*Rio de Janeiro, August 3–8, 1986*

The Symposium aims to gather information on aspects of these pollutants on coastal environments of Latin America and make it available in book format to the scientific community and interested institutions and organizations. The meeting will focus on aspects of:

1. survey of metal contamination;
2. metal geochemistry;
3. transport processes;
4. metals in biota;
5. metal cycling;
6. metal monitoring in coastal environments of Latin America.

For information contact:

The Secretariat  
Metals in Coastal Environments of Latin America  
Department of Geochemistry  
Universidade Federal Fluminense  
24210 Niteroi  
Rio de Janeiro  
Brazil.
