

ADDITIONS AND CORRECTIONS

PII: S0960-894X(96)00344-7

G. A. Kraus, W. Zhang, S. Carpenter and Y. Wannemuehler, The synthesis and biological evaluation of hypericin analogs, *Bioorganic & Medicinal Chemistry Letters*, **1995**, 5, 2633–2636, 0960-894X(95)00458-0.

The second full sentence on page 2634 should read:

Steglich and Rodewald independently demonstrated that treatment of emodin with dilute aqueous base at 100 °C for ten days led to the production of hypericin in 29% yield.
