Reference 5 should also cite the preparation of compounds **36**, **38**, **41** and **42** in chiral forms by a different method. The authors regret the unintentional omission of R. Liboska's reference and thank M. Hocek for bringing it to their attention.

Reference 5 should read:

Liboska R. *Collect. Czech. Chem. Commun.* (special issue), **1996**, 61, S72. Bronson et al. have reported the preparation and anti-herpetic activity of a carbocyclic guanine analogue. Bronson, J.; Ferra, L.; Martin, J. C.; Mansuri, M. M. *Bioorg. Med. Chem. Lett.* **1992**, 2, 685.
