Bioorganic & Medicinal Chemistry Letters Symposia-in-Print

Editor-in-Chief

Professor Dale L. Boger, The Scripps Research Institute, La Jolla, CA 92037, USA

Bioorganic & Medicinal Chemistry Letters Symposia-in-Print are comprised of collections of original research papers in the form of communications covering specific topics. Topics for forthcoming symposia are announced in the Journal from time to time. A Guest Editor will invite authors active in the field to submit papers, which are then reviewed and processed for publication by the Guest Editor under the usual refereeing system. Opportunity is also provided for other active investigators to submit contributions.
