In [Figure 2](#) on page 5617, the imino group of structure **19a** should be eliminated to reflect the statement on page 5618 that: ‘Acetonide derivative **19a** was prepared from **17a** and the crystal structure was obtained ([Fig. 2](#)), which confirms the stereochemical assignment.’ The correct [Figure 2](#) appears here.

Figure 2. X-ray structure of **19a**.
