

TETRAHEDRON PRIZE FOR CREATIVITY IN ORGANIC CHEMISTRY 1995

The Executive Board of Editors for Tetrahedron Publications is pleased to announce that for 1995, two Tetrahedron Prizes have been awarded, one to Professor Sir Alan Battersby (Cambridge University) and the other to Professor A.I. Scott (Texas A&M University). Both are cited for their elegant and fundamental work in the field of Biosynthesis, especially the Biosynthesis of Vitamin B₁₂.
