## PUBLISHER'S ANNOUNCEMENT

The Publisher would like to announce that Professor Harry Wasserman retired from his position as Chairman of the Executive Board for *Tetrahedron Publications* at the end of 2000. As noted in the Preface to *Tetrahedron Letters* volume 41, issue 49 (the special issue published in honour of Professor Wasserman's 80th birthday) he has been actively involved with the *Tetrahedron* group of publications for more than 40 years, the last three of which have been in his role as Chairman.

We are delighted to announce however, that Professor Wasserman's expertise will not be lost to *Tetrahedron Publications*, since he has agreed to take on a new role — that of Editor Emeritus — where he will continue to run and administrate the yearly *Tetrahedron Prize*, awarded for Creativity in Organic Chemistry. He will further continue with the organisation of a number of the Special Issues published in *Tetrahedron*.

We are also extremely pleased to announce that Professor Leon Ghosez has agreed to become the new Chairman of the Executive Board for *Tetrahedron Publications*. Professor Ghosez is already well known to many authors and readers of *Tetrahedron Publications*, having functioned as a Regional Editor for *Tetrahedron* since 1986, and for *Bioorganic and Medicinal Chemistry Letters* since 1992. We would like to take this opportunity of wishing Professor Ghosez every success in his new role.
