Regular Articles

Structural and diffusion properties of formamide/water mixture interacting with TiO₂ surface

pp 11–16

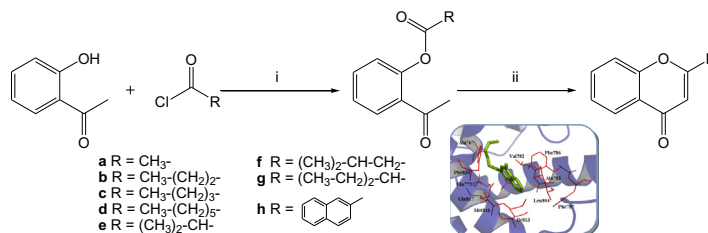

E. Dushanov, Kh. Kholmurodov* and K. Yasuoka

Synthesis, docking study and relaxant effect of 2-alkyl and 2-naphthylchromones on rat aorta and guinea-pig trachea through phosphodiesterase inhibition

pp 17–25

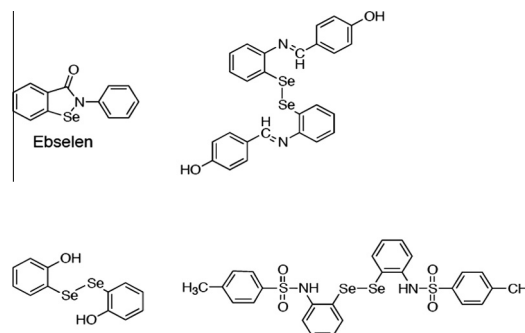

Fernando Rodríguez-Ramos,* Andrés Navarrete, Martín González-Andrade, Carlos Alarcón, Alejandro Aguilera-Cruz and Adelfo Reyes-Ramírez*

Evaluating the antioxidative activity of diselenide containing compounds in human blood

pp 26–33

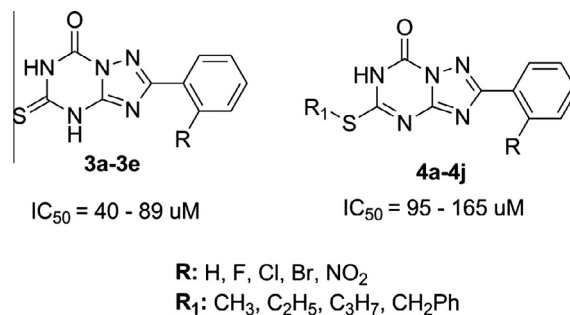

Joanna Saluk,* Michał Bijak, Paweł Nowak and Barbara Wachowicz

Synthesis, anti-thymidine phosphorylase activity and molecular docking of 5-thioxo-[1,2,4]triazolo[1,5-a][1,3,5]triazin-7-ones

pp 34–40

Hriday Bera,* Min Huey Lee, Lingyi Sun, Anton V. Dolzhenko and Wai Keung Chui*

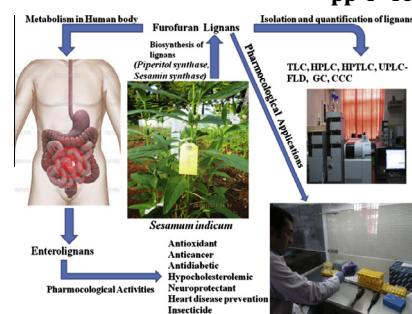

Review Article

Lignans of sesame: Purification methods, biological activities and biosynthesis – A review

pp 1–10

Aejaz Ahmad Dar and Neelakantan Arumugam*
