

AUTHOR INDEX TO VOLUME 14

Abad, C., M. Trueba, A. Campos and J.E. Figueruelo, Dilatometric, refractometric and viscometric study of lysozyme-cation interaction	14 (1981) 293
Ackermann, T., see F.J. Schott	14 (1981) 25
Aracava, Y., S. Schreier, R. Phadke, R. Deslauriers and I.C.P. Smith, Effects of amphotericin B on membrane permeability—Kinetics of spin probe reduction	14 (1981) 325
Bernhardt, J. and E. Neumann, Single channel gating events in tracer flux experiments. I. Theory	14 (1981) 303
Bianchi Bandinelli, M.L., see P.E. Valensin	14 (1981) 357
Bier, M., see O.A. Palusinski	14 (1981) 389
Blair, D.P., L. Heilmann and W.E. Hill, Unfolded 30 S ribosomal subunits	14 (1981) 81
Borer, P.N., see M.P. Stone	14 (1981) 363, 369
Brinkhuis, J.A., see H.J. Vreeman	14 (1981) 185
Campos, A., see C. Abad	14 (1981) 293
Champagne, M., see M. Erard	14 (1981) 123
Chang, H.W., see P.L. Dorogi	14 (1981) 91
Charney, E., see D.C. Rau	14 (1981) 1
Chen, S.-T. and C.S. Springer, Jr, Ionophore-catalyzed cation transport between phospholipid inverted micelles manifest in DNMR	14 (1981) 375
Chou, K.-C., see G.-P. Zhou	14 (1981) 277
Chun, P.W., see J.Q. Oeswein	14 (1981) 233
Comparini, I.B., E. Gaggelli and G. Valensin, Effect of morphine analogues on the conformational state of polyriboadenylic acid in solution: An NMR study	14 (1981) 217
Cowburn, D., see A.L.Y. Lau	14 (1981) 267
Cross, T.A., see H. Fritzsche	14 (1981) 283
Daune, M., see M. Erard	14 (1981) 123
Deslauriers, R., see Y. Aracava	14 (1981) 325
Di Cairano, M.L., see P.E. Valensin	14 (1981) 357
Dorogi, P.L., K. Moss, E. Neumann and H.W. Chang, Spectrophotometric determination of reaction stoichiometry and equilibrium constants of metallochromic indicators. III. Antipyrylazo III complexing with Ca^{2+} and acetylcholine receptor protein	14 (1981) 91
Engelborghs, Y. and A. Van Houtte, Temperature jump relaxation study of microtubule elongation in the presence of GTP/GDP mixtures	14 (1981) 195
Erard, M., J. Pouyet, A. Mazen, M. Champagne and M. Daune, Core particle stability critically depends upon a small number of terminal nucleotides	14 (1981) 123
Figueruelo, J.E., see C. Abad	14 (1981) 293
Fritzsche, H., T.A. Cross, S.J. Opella and N.R. Kallenbach, Structure and architecture of the bacterial virus fd. An infrared linear dichroism study	14 (1981) 283

Gaggelli, E., see I.B. Comparini	14 (1981) 217
Gaggelli, E., see P.E. Valensin	14 (1981) 357
Grubert, M., see F.J. Schott	14 (1981) 25
Gutierrez-Merino, C., Quantitation of the Förster energy transfer for two-dimensional systems. I. Lateral phase separation in unilamellar vesicles formed by binary phospholipid mixtures	14 (1981) 247
Gutierrez-Merino, C., Quantitation of the Förster energy transfer for two-dimensional systems. II. Protein distribution and aggregation state in biological membranes	14 (1981) 259
