

AUTHOR INDEX TO VOLUME 15 (1982)

- Balter, A., see Lakowicz, J.R. 353
- Bartholmes, P., see Seifert, T. 1
- Bellemare, F., see Fragata, M. 111
- Berg, O.G. and M. Ehrenberg
Association kinetics with coupled three- and one-dimensional diffusion. Chain-length dependence of the association rate to specific DNA sites 41
- Bernhardt, J. and E. Neumann
Single channel gating events in tracer flux experiments. II. Flux amplitude analysis 317
- Bernhardt, J. and E. Neumann
Single channel gating events in tracer flux experiments. III. Acetylcholine receptor-controlled Li^+ efflux from sealed *Torpedo marmorata* membrane fragments 327
- Bierzyński, A., see Gajewska, J. 191
- Bina, M., see O'Connor, T. 53
- Bina, M., see O'Connor, T. 223
- Bolewska, K., see Gajewska, J. 191
- Bruck, M.A., see O'Connor, T. 53
- Burstein, E.A., see Permyakov, E.A. 19
- Chay, T.R. and S.-H. Cho
On exploring the basis for slow and fast oscillations in cellular systems 9
- Chay, T.R. and S.-H. Cho
Model for cooperativity of biological membranes 271
- Cho, S.-H., see Chay, T.R. 9
- Cho, S.-H., see Chay, T.R. 271
- Dampier, M., see Harding, S.E. 205
- Demchenko, A.P.
On the nanosecond mobility in proteins. Edge excitation fluorescence red shift of protein-bound 2-(*p*-toluidinylnaphthalene)-6-sulfonate 101
- Diekmann, S., W. Hillen, M. Jung, R.D. Wells and D. Pörschke
Electric properties and structure of DNA restriction fragments from measurements of the electric dichroism 157
- Diekmann, S., W. Hillen, B. Morgeneyer, R.D. Wells and D. Pörschke
Orientation relaxation of DNA restriction fragments and the internal mobility of the double helix 263
- Dougherty, G. and M.J. Waring
The interaction between prothidium dibromide and DNA at the molecular level 27
- Dowben, R.M., see Lin, T.I. 289
- Dunford, H.B., see Ralston, I.M. 15
- Ehrenberg, M., see Berg, O.G. 41
- Fattoum, A., see Roustan, C. 169
- Fragata, M. and F. Bellemare
Dielectric constant dependence of biological oxidation-reduction. I. A model of polarity-dependent ferrocytochrome *c* oxidation 111
- Frehland, E., R. Kreikenbohm and W.G. Pohl
Steady-state fluorescence polarization in planar lipid membranes. Experimental and theoretical analysis of the fluorophores 8-anilino-1-naphthalenesulfonate, 1,6-diphenyl-1,3,5-hexatriene, dansyllysine-valinomycin and *n*-(9-anthroyloxy) fatty acids 73
- Gajewska, J., A. Bierzyński, K. Bolewska, K.L. Wierzchowski, A.I. Petrov and B.I. Sukhorukov
Fluorescence quenching and spin-label electron spin resonance studies of stacking self-association in aqueous solutions of 2-aminopurine riboside and its 5'-mono- and diphosphate 191
- Gerday, C., see Permyakov, E.A. 19
- Gilles, L., see Guissani, A. 177
- Glukhova, O.T., see Teplitsky, A.B. 139
- Guissani, A., Y. Henry and L. Gilles
Radical scavenging and electron-transfer reactions in *Polyporus versicolor* laccase. A pulse radiolysis study 177
- Halsall, H.B., see Kirley, T.L. 209
- Harding, S.E., M. Dampier and A.J. Rowe
The viscosity increment for ellipsoids of revolution. Some observations on the Simha formula 205
- Hemmerich, P., see Michel, H. 121
- Henry, Y., see Guissani, A. 177
- Heremans, K., see Ralston, I.M. 15
- Hillen, W., see Diekmann, S. 157
- Hillen, W., see Diekmann, S. 263
- Jaenicke, R., see Seifert, T. 1
- Jeanneau, R., see Roustan, C. 169
- Jung, M., see Diekmann, S. 157
- Kirley, T.L., E.D. Sprague and H.B. Halsall
The binding of spin-labeled propranolol and spin-labeled progesterone by orosomucoid 209
- Koda, S., H. Nomura and M. Nagasawa
Raman spectroscopic studies on the interaction between counterion and polyion 65
- Kosiński, J., see Teplitsky, A.B. 139
- Kreikenbohm, R., see Frehland, E. 73

- Lakowicz, J.R. and A. Balter
Resolution of initially excited and relaxed states of tryptophan fluorescence by differential-wavelength deconvolution of time-resolved fluorescence decays 353
- Läuger, P.
Microscopic calculation of ion-transport rates in membrane channels 89
- Lavery, R., B. Pullman and K. Zakrzewska
Intrinsic electrostatic properties and base sequence effects in the structure of oligonucleotides 343
- Lin, T.-I.
Excimer fluorescence of pyrene-tropomyosin adducts 277
- Lin, T.I. and R.M. Dowben
Fluorescence spectroscopic studies of pyrene-actin adducts 289
- Mansy, S., see O'Connor, T. 53
- Maričić, S., see Nöthig-Laslo, V. 217
- McMillin, D.R., see O'Connor, T. 53
- McMillin, D.R., see O'Connor, T. 223
- Michel, H., W. Schmidt and P. Hemmerich
On the environment and the rotational motion of amphiphilic flavins in artificial membrane vesicles as studied by electron paramagnetic resonance spectroscopy 121
- Moller Haley, M.R., see O'Connor, T. 223
- Morgeneyer, B., see Diekmann, S. 263
- Nagasawa, M., see Koda, S. 65
- Neumann, E., see Bernhardt, J. 317
- Neumann, E., see Bernhardt, J. 327
- Nomura, H., see Koda, S. 65
- Nöthig-Laslo, V. and S. Maričić
Temperature-dependent conformation change in spin-labeled hemoglobin 217
- O'Connor, T., M. Bina, D.R. McMillin, M.R. Moller Haley and R.S. Tobias
Heavy metal-nucleotide interactions. 15. Reactions of calf thymus DNA with the electrophiles methylmercury(II) nitrate, *cis*-dichlorodiammineplatinum(II), and *trans*-dichlorodiammineplatinum(II) studied using Raman difference spectroscopy. Evidence for the formation of C-DNA upon metalation 223
- O'Connor, T., S. Mansy, M. Bina, D.R. McMillin, M.A. Bruck and R.S. Tobias
The pH-dependent structure of calf thymus DNA studied by Raman spectroscopy 53
- O'Leary, T.J.
Effects of small nonpolar molecules on membrane compressibility and permeability. A theoretical study of the effects of anesthetic gases 299
- Permyakov, E.A., V.V. Yarmolenko, E.A. Burstein and C. Gerday
Intrinsic fluorescence spectra of a tryptophan-containing parvalbumin as a function of thermal, pH and urea denaturation 19
- Petrov, A.I., see Gajewska, J. 191
- Pohl, W.G., see Frehland, E. 73
- Pörschke, D., see Diekmann, S. 157
- Pörschke, D., see Diekmann, S. 263
- Pradel, L.-A., see Roustan, C. 169
- Pullman, B., see Lavery, R. 343
- Ralston, I.M., J. Wauters, K. Heremans and H.B. Dunford
Activation volumes for horseradish peroxidase compound II reactions 15
- Roustan, C., A. Fattoum, R. Jeanneau, L.-A. Pradel, D. Schuhmann and P. Vanel
Interaction of yeast 3-phosphoglycerate kinase with negatively charged carriers 169
- Rowe, A.J., see Harding, S.E. 205
- Rubinson, K.A.
The sodium currents of nerve under voltage clamp as heterogeneous kinetics. A model that is consistent with possible kinetic behavior 245
- Schmidt, W., see Michel, H. 121
- Schuhmann, D., see Roustan, C. 169
- Seifert, T., P. Bartholmes and R. Jaenicke
Reconstitution of the isolated β_2 -subunit of tryptophan synthase from *Escherichia coli* after dissociation induced by high hydrostatic pressure. Equilibrium and kinetic studies 1
- Selegny, E., see Valleton, J.M. 235
- Shelkovski, V.S., see Sukhodub, L.F. 149
- Sprague, E.D., see Kirley, T.L. 209
- Stellwagen, N.C.
A small DNA restriction fragment with an apparent permanent dipole moment 311
- Sugár, I.P.
A theoretical model of the temperature- and pressure-induced phase transition of phospholipid bilayers 131
- Sukhodub, L.F., see Teplitsky, A.B. 139
- Sukhodub, L.F., I.K. Yanson, V.S. Shelkovski and K.L. Wierzchowski
Mass-spectrometric investigations on hydration of nucleic acid components in vacuum. I. Alkylated uracils 149
- Sukhorukov, B.I., see Gajewska, J. 191
- Teplitsky, A.B., O.T. Glukhova, L.F. Sukhodub, I.K. Yanson, A. Zielenkiewicz, W. Zielenkiewicz, J. Kosiński and K.L. Wierzchowski
Thermochemistry of aqueous solutions of alkylated nucleic acid bases. IV. Enthalpies of hydration of 5-alkyluracils 139
- Tobias, R.S., see O'Connor, T. 53
- Tobias, R.S., see O'Connor, T. 223
- Valleton, J.M., J.C. Vincent and E. Selegny
Monitoring of artificial enzyme membrane systems by electric currents. I. Analytical treatment with direct current and buffered conductivity 235

Vanel, P., see Roustan, C.	169	Wierzchowski, K.L., see Teplitsky, A.B.	139
Vincent, J.C., see Valleton, J.M.	235		
Waring, M.J., see Dougherty, G.	27	Yanson, I.K., see Sukhodub, L.F.	149
Wauters, J., see Ralston, I.M.	15	Yanson, I.K., see Teplitsky, A.B.	139
Wells, R.D., see Diekmann, S.	157	Yarmalenko, V.V., see Permyakov, E.A.	19
Wells, R.D., see Diekmann, S.	263		
Wierzchowski, K.L., see Gajewska, J.	191	Zakrzewska, K., see Lavery, R.	343
Wierzchowski, K.L., see Sukhodub, L.F.	149	Zielenkiewicz, A., see Teplitsky, A.B.	139
		Zielenkiewicz, W., see Teplitsky, A.B.	139
