

ANNOUNCEMENT

**5th International Conference on Surface and Colloid Science
and
59th Colloid and Surface Science Symposium
June 24–28, 1985
Potsdam, New York**

This joint meeting, cosponsored by the Division of Colloid and Surface Chemistry of the American Chemical Society and the International Association of Colloid and Interface Scientists, will be held on the campus of Clarkson University (formerly Clarkson College of Technology) in Potsdam, New York, June 24–28, 1985. The joint meeting is being organized by Clarkson's Institute of Colloid and Surface Science. Plenary lecturers will be Ivar Giaever (Schenectady, New York) and Pierre-Gilles de Gennes (Paris, France).

The scientific program will be organized on a number of special topics in the areas of colloidal dispersions, interfaces, biocolloids and biosurfaces. Sessions on general papers will also be arranged. The abstracts are due December 1, 1984.

Address inquiries to: E. Matijević (General Chairman) or J.P. Kratochvil (Program Chairman), Institute of Colloid and Surface Science, Clarkson University, Potsdam, NY 13676, U.S.A.

Mechanisms of reaction of benzo(α)pyrene-7,8-diol-9,10-epoxide with DNA in aqueous solutions (BPC 00868)
